TITLE 5—ADMINISTRATIVE PERSONNEL:
Chapter I—Civil Service Commission:

NOTE: Chapter I was completely revised and renumbered, effective May 1, 1947. Subsequently the chapter was reissued on November 5, 1947, to incorporate all amendments issued since May 1, which were still in effect.

Amendments which became effective on or after May 1 are listed below under the new part numbers. Amendments effective before May 1 appear under the old part numbers at the end of the chapter under the italic heading "Prior to effective date of revision of chapter".

An earlier revision, also effective May 1, 1947, appears at 12 F. R. 1270. Inasmuch as all effective material appearing therein was included in subsequent revisions it has been omitted from the list below. An additional revision of Part 29—Retirement (formerly Part 53), 12 F. R. 1531, is similarly omitted.

Chapter IX—Office of Materials Distribution, Bureau of Foreign and Domestic Commerce, Department of Commerce:

NOTE: The Office of Temporary Controls was terminated by E. O. 9841, 12 F. R. 2645. Functions of the Civilian Production Administration which had not already been terminated or transferred to the Housing Expediter by E. O. 9836, 12 F. R. 1939, were transferred to the Secretary of Commerce. Chapter IX was thereupon redesignated as set forth above and such regulations as had not been revoked or transferred were retained in the new Chapter IX under their existing section numbers.

The list below is a guide to actions taken during 1947 whether by CPA or by the successor agencies. The new code locations, if any, of text are noted following sections affected when action was first taken by the successor agency. Subsequent actions appear only under the successor agency, except when the only action taken by that agency was to revoke the section. Such revocations are listed in full below.

Adoption, ratification, and confirmation of CPA regulations and orders. See 903.0 below.

TITLE 3—THE PRESIDENT

PROCLAMATION 2714

CESSATION OF HOSTILITIES OF WORLD WAR II

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

With God's help this nation and our allies, through sacrifice and devotion, courage and perseverance, wrung final and unconditional surrender from our enemies. Thereafter, we, together with the other United Nations, set about building a world in which justice shall replace force. With spirit, through faith, with a determination that there shall be no more wars of aggression calculated to enslave the peoples of the world and destroy their civilization, and with the guidance of Almighty Providence great gains have been made in translating military victory into permanent peace. Although a state of war still exists, it is at this time possible to declare, and I find it to be in the public interest to declare, that hostilities have terminated.

NOW, THEREFORE, I, HARRY S. TRUMAN, President of the United States of America, do hereby proclaim the cessation of hostilities of World War II, effective twelve o'clock noon, December 31, 1946.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 31st day of December in the year of our Lord nineteen hundred and forty-six, and of the Independence of the United States of America the one hundred and seventy-first.

[SEAL]

HARRY S. TRUMAN

By the President:

JAMES F. BYRNES,
The Secretary of State.

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspection, Marketing Practices)

PART 51—FRUITS, VEGETABLES AND OTHER PRODUCTS (GRADING, CERTIFICATION AND STANDARDS)

STANDARDS FOR CITRUS FRUITS

Pursuant to the provisions of the Department of Agriculture Appropriation Act, 1947 (Pub. Law 422, 79th Cong.), the United States Standards for citrus fruits (11 F. R. 13239) are hereby amended as follows:

1. In § 51.191 (b) delete subparagraph (8) and substitute therefor the following:

§ 51.191 *Citrus fruits.* * * *

(b) *Grades.* * * *

(8) *U. S. Combination Grade.* (i) Any lot of citrus fruits except oranges may be designated "U. S. Combination" when not less than 40 percent, by count, of the fruits in any container meet the requirements of U. S. No. 1 grade and the remainder U. S. No. 2 grade.

(ii) As applied to oranges, not less than 50 percent, by count, of the fruits in any container shall meet the requirements of U. S. No. 1 grade; each of the remainder of the oranges, in addition to meeting all other requirements of the U. S. No. 2 grade, shall have not more than one-half of the surface in the aggregate affected with discoloration.

It is hereby found and determined that compliance with notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (60 Stat. 237; Pub. Law 404, 79th Cong., 2d Sess.) in connection with the issuance of this amendment, is impracticable, unnecessary, and contrary to the public interests in that: (1) The amendment has been under consideration since November 1, 1946 and it has been prepared on the basis of suggestions of growers, packers, shippers and other handlers of citrus fruits; (2) the issuance of the amendment, effective January 2, 1947, is necessary to make the United States standards for citrus fruits conform to present

PART 730—RICE

NATIONAL MARKETING QUOTA

Sec.
730.1 Basis and purpose.
730.2 Findings and determination with respect to the national marketing quota for rice for the marketing year beginning August 1, 1947.

AUTHORITY: §§ 730.1 and 730.2 issued under 52 Stat. 38, 43, 62; 7 U. S. C. 1301 (b), 1301 (c), 1355 (a).

§ 730.1 *Basis and purpose.* This proclamation is issued under section 355 (a) of the Agricultural Adjustment Act of 1938, as amended. Its purpose is to announce the findings of the Secretary of Agriculture with respect to the relationship between the total supply of rice and the normal supply thereof for the current marketing year in order to determine whether marketing quotas for rice for the 1947-48 marketing year shall be proclaimed under the act. Prior to making the findings, notice was given (11 F. R. 14501) that the Secretary was preparing to examine the supply situation to determine if quotas were required under the act and that any interested person might express his views in writing with respect thereto. All written expressions received postmarked by December 24, 1946, the closing date therefor mentioned in the notice aforesaid, have been considered.

§ 730.2 *Findings and determination with respect to the national marketing quota for rice for the marketing year beginning August 1, 1947.*—(a) *Normal supply.* The normal supply of rice for the marketing year beginning August 1, 1946, is 72,590,000 bushels of rough rice.

(b) *Total supply.* The total supply of rice for the marketing year beginning August 1, 1946, is 73,130,000 bushels of rough rice.

(c) *National marketing quota.* The total supply of rice for the current marketing year does not exceed by more than 10 percent the normal supply of rice for such marketing year; therefore no national marketing quota for rice shall be in effect for the 1947-48 marketing year for the marketings of rice by producers.

Done at Washington, D. C., this 27th day of December 1946. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CLINTON P. ANDERSON,
Secretary of Agriculture.

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of the Federal Reserve System

PART 222—CONSUMER CREDIT

CREDITS EXTENDED BEFORE DECEMBER 1, 1946

The following interpretation under this part (11 F. R. 13949) relating to consumer credit was issued by the Board of Governors of the Federal Reserve System on December 16, 1946:

§ 222.107 *Credits extended before December 1, 1946.* The Board of Governors recently received an inquiry relating to the footnote 1 of the December 1, 1946, revision of this part (11 F. R. 13949), which, in part, provides that "the revision (of December 1, 1946) shall not affect any transaction prior to such date". The inquiry concerned pre-December credits, still outstanding, that were subject to this part when they originated but would not be subject if they originated on or subsequent to December 1, 1946; and the question was whether, in the light of the footnote, renewals, revisions and other actions currently taken with respect to such pre-December credits must follow the pre-December rules.

In reply, the Board ruled that unless the credit, regardless of when negotiated, falls within the terms of the December 1 revision, any action taken on or after December 1 with respect to the credit is not subject to this part.

(Sec. 5 (b), 40 Stat. 415, as amended by sec. 5, 40 Stat. 966, sec. 2, 48 Stat. 1, sec. 1, 54 Stat. 179; secs. 301 and 302, 55 Stat. 839, 840; 12 U. S. C. 95 (a) and Supp., 50 U. S. C. App. 616, 617; E. O. 8843, August 9, 1941, 3 CFR Cum. Supp.)

Secretary.

PART 222—CONSUMER CREDIT

CONVERSION OF NON-INSTALMENT CREDIT TO INSTALMENT BASIS

The following interpretation under this part (11 F. R. 13949) relating to consumer credit was issued by the Board of Governors of the Federal Reserve System on December 10, 1946:

§ 222.106 *Conversion of non-instalment credit to instalment basis.* The Board of Governors has been requested for a ruling as to the conversion of a charge account covering the sale of a "listed article" to an instalment basis, under this part as revised December 1, 1946. The question also arises in connection with the conversion of a single-payment loan to an instalment basis.

This was one of the general problems which were considered in connection with the revision of this part, but after preliminary drafts had been made of provisions governing the conversion of non-instalment credit to an instalment basis, it was decided to omit them from this revised part and to rely upon the provisions of § 222.6 (i) to furnish protection against evasion. In any case where investigation showed that a registrant was converting an undue number of credits to an instalment basis after originating them on a non-instalment basis, the inference would be fairly plain that the registrant was violating § 222.6 (i) by attempting to disguise instalment credit as non-instalment credit.

Accordingly, it is the view of the Board that if a credit originates in good faith as an obligation payable in a lump sum, its later conversion to an instalment basis does not make it subject to the present part. It is essential, of course, that the original transaction be in good faith and not a subterfuge.

(Sec. 5 (b), 40 Stat. 415, as amended by sec. 5, 40 Stat. 966, sec. 2, 48 Stat. 1, sec. 1, 54 Stat. 179; secs. 301 and 302, 55 Stat. 839, 840; 12 U. S. C. 95 (a) and Supp., 50 U. S. C. App. 616, 617, and E. O. 8843, Aug. 9, 1941, 3 CFR Cum. Supp.)

AMENDMENT OF RULES RELATING TO WITNESSES AND SUBPENAS

In conformity with the Administrative Procedure Act (Public Law 404, 79th Congress), § 201.15 (11 F. R. 177A–744) of Title 19 of the Code of Federal Regulations is hereby amended by adding thereto the following paragraph (d):

§ 201.15 *Witnesses and subpenas.*

* * *

(d) Subpenas for the attendance of witnesses or for the production of documentary evidence will be issued at the request of any person who has entered an appearance in an investigation in accordance with § 201.12, upon application in writing and determination by the Commission of the general relevance and reasonable scope of the evidence sought. Such application shall be addressed to the Commission, and shall include a statement as to the nature, relevance, and scope of the testimony sought, and, in the case of documentary evidence, an adequate specification of the documents desired.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC DRUGS

PENICILLIN VAGINAL SUPPOSITORIES

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, as amended by 59 Stat. 463; 21 U. S. C., Sup. V, 357) the regulations for tests and methods of assay of antibiotic drugs (11 F. R. 12128) are hereby amended by adding the following new section:

§ 141.18 *Penicillin vaginal suppositories*—(a) *Potency.* Proceed as directed in § 141.1 except paragraph (g) (3) of that section and in lieu of the directions in paragraph (d) prepare sample as follows:

Place 5 suppositories in a separatory funnel containing 150 ml of peroxide free ether. Shake the separatory funnel vigorously to bring about complete mixing of the material with the ether. Shake with a 25 ml portion of 1% phosphate buffer at pH 6.0. Remove the buffer layer and repeat the extraction with three 25 ml quantities of buffer. Combine all extracts and make the proper estimated dilutions in 1% phosphate buffer at pH 6.0. The average potency of the suppository is satisfactory if it contains not less than 85% of the number of units it is represented to contain.

(b) *Moisture.* Proceed as directed in § 141.7 (c) using one suppository.

(c) *Microorganism count.* Use four suppositories and place approximately one fourth of each into each of four sterile, tared test tubes. Determine weight of sample in each tube. Melt at 37° C and add sufficient penicillinase to inactivate the penicillin in the sample. Mix thoroughly. Incubate for one hour at 37° C. Mix thoroughly and transfer the contents of each tube to 25 ml of nutrient agar prepared as directed in § 141.1 (b) (1) cooled to approximately 48° C. Mix thoroughly and pour into sterile petri dishes. Allow to harden, invert and incubate at 37° C for 48 hours. Count the number of colonies appearing on the petri dish and calculate therefrom the number of viable microorganisms per gram of suppository.

This order, which provides for the marketing of a new penicillin product, shall become effective upon publication in the FEDERAL REGISTER since both the public and the penicillin industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order and would be contrary to the public interest, and I so find, since it was drawn in collaboration with interested members of the affected industry, and since it would be against public interest to delay the marketing of a new penicillin product.

(Sec. 507, 52 Stat. 1040, as amended, 59 Stat. 463; 21 U. S. C. Supp. V., 357)

Dated: December 26, 1946.

[SEAL] WATSON B. MILLER,
Administrator.

PART 146—CERTIFICATION OF BATCHES OF PENICILLIN-CONTAINING DRUGS

PENICILLIN VAGINAL SUPPOSITORIES

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, as amended by 59 Stat. 463; 21 U. S. C., Sup. V. 357), the regulations for the certication of batches of penicillin-containing drugs (11 F. R. 12136) are hereby amended by adding the following new section:

§ 146.36 *Penicillin vaginal suppositories (sodium penicillin vaginal suppositories, calcium penicillin vaginal suppositories, potassium penicillin vaginal suppositories, penicillin vaginal suppositories sodium salt, penicillin vaginal suppositories calcium salt, penicillin vaginal suppositories potassium salt)*—(a) *Standards of identity, strength, quality, and purity.* Penicillin suppositories are suppositories composed of sodium penicillin, calcium penicillin, or potassium penicillin or a mixture of these salts in a base of spermaceti and cocoa butter. The potency of each suppository is not less than 100,000 units; its moisture content is not more than 1.0 percent; its content of viable microorganisms is not more than 50 per gram. The sodium penicillin, calcium penicillin and potassium penicillin used conform to the requirements of § 146.24 (a), except subparagraphs (1), (2), (4) and (7) of that paragraph, but its potency is not less than 300 units per milligram. The spermaceti and cocoa butter conform to the standards prescribed therefor by the U. S. P.

(b) *Packaging.* In all cases, the immediate container of penicillin vaginal suppositories shall comply with the definition of tight container on page 6 of the U. S. P., except the provision that it shall be capable of tight reclosure, and shall be of such composition as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so caused which are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded.

(c) *Labeling.* Each package of penicillin vaginal suppositories shall bear, on its label or labeling as hereinafter indicated, the following:

(1) On the outside wrapper or container and the immediate container:

(i) The batch mark;

(ii) The number of units in each suppository of the batch; and

(iii) The statement, "Expiration date ------", the blank being filled in with the date which is 12 months after the month during which the batch was certified.

(2) On the outside wrapper or container:

(i) The statement "Store in refrigerator not above 15° C. (59° F.)", or "Store below 15° C. (59° F.)";

(ii) Unless it is intended solely for veterinary use and is conspicuously so labeled, the statement "Caution: To be dispensed only by or on the prescription of a ------", the blank being filled in with the word "physician" or "veterinarian" or both as the case may be; and

(iii) Unless the drug is intended solely for veterinary use and is so labeled, a reference specifically identifying a readily available medical publication containing directions and precautions (including contraindications and possible sensitization) adequate for the use of such suppositories; or a reference to a brochure or other printed matter containing such directions and precautions, and a statement that such brochure or printed matter will be sent on request.

(3) On the circular or other labeling within or attached to the package, if the drug is intended solely for veterinary use, directions and precautions adequate for the use of such suppositories, including:

(i) Clinical indications;

(ii) Dosage and administration;

(iii) Contraindications; and

(iv) Untoward effects that may accompany administration.

(d) *Requests for certification; samples.* (1) In addition to complying with the requirements of § 146.2, a person who requests certification of a batch of penicillin vaginal suppositories shall submit with his request a statement showing the batch mark, the number of packages of each size in such batch, the batch mark and (unless it was previously submitted) the date on which the latest assay of the sodium penicillin, calcium penicillin, or potassium penicillin used in making such batch was completed, the number of units in each suppository, the quantity of each ingredient used in making the batch, the date on which the latest assay of the drug comprising such batch was completed, and that the spermaceti and cocoa butter used in making such batch conform to the requirements prescribed therefor by this section.

(2) Except as otherwise provided by subparagraph (4) of this paragraph such person shall submit in connection with his request results of the tests and assays listed after each of the following, made by him on an accurately representative sample of:

(i) The batch; average potency per suppository, moisture, microorganism count.

(ii) The sodium penicillin, calcium penicillin, and potassium penicillin used in making the batch; potency, toxicity, moisture, pH, penicillin K content (unless it is crystalline penicillin G), crystallinity and heat stability if it is crystalline penicillin, and the penicillin G content if it is crystalline penicillin G.

(3) Except as otherwise provided by subparagraph (4) of this paragraph such person shall submit in connection with his request in the quantities hereinafter indicated, accurately representative sample of the following:

(i) The batch: One suppository for each 5000 suppositories in the batch, but in no case less than 20 suppositories or more than 100 suppositories, collected by taking single suppositories at such intervals throughout the entire time the suppositories are being made, that the quantities made during the intervals are approximately equal.

(ii) The sodium penicillin, calcium penicillin, or potassium penicillin used in making the batch: 6 packages, or in the case of crystalline penicillin, 10 packages of each containing approximately equal portions of not less than 40 milligrams each, packaged in accordance with the requirements of § 146.24 (b).

(iii) In case of an initial request for certification, the spermaceti and cocoa butter used in making the batch: one package of each containing respectively approximately 10 grams and 100 grams.

(4) No result referred to in subparagraph (2) (ii) of this paragraph, and no sample referred to in subparagraph (3) (ii) of this paragraph, is required if such result or sample has been previously submitted.

(e) *Fees.* The fee for the services rendered with respect to each batch of penicillin vaginal suppositories under the regulations in this part shall be:

(1) $2.00 for each suppository in the sample submitted in accordance with paragraph (d) (3) (i) of this section; $4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (ii) and (iii) of this section; and

(2) If the Commissioner considers that investigations other than examination of such suppositories and packages, are necessary to determine whether or not such batch complies with the requirements of § 146.3 for the issuance of a certificate, the cost of such investigations.

The fee prescribed by subparagraph (1) of this paragraph shall accompany the request for certification unless such fee is covered by an advance deposit maintained in accordance with § 146.8 (d).

This order, which provides for the marketing of a new penicillin product shall become effective upon publication in the FEDERAL REGISTER since both the public and the penicillin industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order and would be contrary to the public interest, and I so find, since it was drawn in collaboration with interested members of the affected industry, and since it would be against public interest to delay the marketing of a new penicillin product.

(Sec. 507, 52 Stat. 1040, as amended, 59 Stat. 463; 21 U. S. C., Supp. V, 357)

Dated: December 26, 1946.

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

Subchapter C—The Foreign Service

PART 102—PERSONNEL ADMINISTRATION

SALARIES OF OFFICERS TEMPORARILY IN CHARGE

Under authority contained in R. S. 161 (5 U. S. C. 22), and pursuant to sections 302, 421, and 422 of the Foreign Service Act of 1946 (Public Law 724, 79th Cong.), the Foreign Service Regulations comprising Part 102 of Title 22 of the Code of Federal Regulations are amended by adding the following section:

§ 102.101 *Salaries of officers temporarily in charge*—(a) *Salaries of chargés de affaires ad interim.* A Foreign Service officer authorized to act as chargé d' affaires ad interim at the post to which he is assigned, shall, if he acts in such capacity for a period in excess of ten days, receive compensation, in addition to his basic salary as Foreign Service officer, computed as follows:

(1) One half the difference between his basic salary and the per annum salary provided for the chief of mission at that post for the first three months he shall act in such capacity. Payment of this additional compensation shall be made for the period beginning the first day the officer is in charge.

(2) Three-fourths of the difference between his basic salary and the per annum salary provided for the chief of mission at that post for the next three months he shall act in such capacity.

(3) Should an assignment to act temporarily in charge extend beyond six months, the officer may apply for and the Secretary may in his discretion allow the payment of the full difference in salaries after the sixth month (sec. 421, Foreign Service Act of 1946).

(b) *Salaries of officers in charge of consulates and consulates general.* A Foreign Service officer or a consul or vice consul who is not a Foreign Service officer who is temporarily in charge of a consulate general or consulate during the absence or incapacity of the principal officer, shall be entitled to additional compensation computed in accordance with the provisions of paragraph (a) of this section (sec. 422, Foreign Service Act of 1946).

(c) The additional compensation paid to a diplomatic or consular officer acting temporarily in charge shall be known as chargé pay. (R. S. 161, secs. 302, 421, 422 Pub. Law 724, 79th Cong., 60 Stat. 999; 5 U. S. C. 22)

This regulation shall become effective on November 13, 1946.

For the Secretary of State,

[SEAL] DONALD RUSSELL,
Assistant Secretary.

Chapter II—Federal Savings and Loan System

[Bulletin 83]

PART 203—OPERATION

APPRAISAL REQUIREMENTS ON LOANS INSURED UNDER THE NATIONAL HOUSING ACT, AS AMENDED

DECEMBER 27, 1946

Section 203.21 *Additional lending powers* (10 F. R. 11284, 11 F. R. 631) is hereby amended, effective January 1, 1947 by adding paragraph (c), reading as follows:

(c) The making or purchasing of any loan approved for insurance protection under the provisions of the National Housing Act, as now or hereafter amended, where one qualified person selected by the board of directors shall have submitted a signed appraisal of the real-estate security for such loan: *Provided*, That the making or purchasing of any such loan shall be otherwise subject to any applicable limitations imposed by law, the association's Charter, or any rule or regulation, or otherwise.

The Federal Home Loan Bank Administration finds, pursuant to the provisions of the Administrative Procedure Act approved June 11, 1946 (60 Stat. 237) and 24 CFR 201.2, that notice and public procedure on this amendment are unnecessary because the amendment relieves a restriction on Federal savings and loan associations.

Chapter VI—Federal Public Housing Authority

PART 610—LOW-RENT HOUSING AND SLUM CLEARANCE PROGRAM: PROCEDURES

COMMUNITY SERVICES AND TENANT ACTIVITIES

Section 610.415[1] is amended, effective January 3, 1947, to read as follows:

§ 610.415 *Community services and tenant activities*—(a) *Relationship with community service agencies.* The local authority shall be responsible for planning and for developing and maintaining working relationships and agreements with local community service agencies for the provision of education, recreation, health, and welfare facilities and services to meet the needs of the residents of the development. It shall discharge these responsibilities in such a manner as to promote the maximum application of the resources of community service agencies in meeting these needs. Where necessary facilities cannot be provided by local community service agencies, the local authority shall provide such facilities as a part of the development in accordance with FPHA minimum physical standards (see § 610.213).

(b) *Relationship with tenants.* The local authority shall encourage tenants to assume community responsibilities, and shall stimulate and assist individual tenants and tenant groups and organizations (1) to plan and work with management on those phases of the development's operation which affect them, (2) to participate with management and with local community service agencies in planning and evaluating community services and activities, and (3) to sponsor and operate services and programs in order to supplement those provided by community service agencies.

(c) *Integration of developments with community.* In fulfilling its responsibilities, the local authority shall strive for complete integration of the development with the neighborhood and community and for integration of the community services and programs conducted in the development with those conducted in the community at large. (50 Stat. 888; 42 U. S. C. 1401-30)

Approved: December 24, 1946.

TITLE 31—MONEY AND FINANCE: TREASURY

Chapter I—Monetary Offices, Department of the Treasury

PART 130—TRANSACTIONS IN FOREIGN EXCHANGE AND FOREIGN-OWNED PROPERTY, REPORTING OF ALL FOREIGN-OWNED PROPERTY AND RELATED MATTERS

LICENSES

Amendment of regulations of April 10, 1940, as amended under Executive Order No. 8389, as amended.

Section 130.3 is hereby amended to read as follows:

§ 130.3 *Licenses.* All applications for licenses to engage in any transaction prohibited by the order or otherwise prohibited pursuant to sections 3 (a) or 5 (b) of the act of October 6, 1917 (40 Stat. 415), as amended, shall be filed in duplicate with the Federal Reserve Bank of New York, with the exception of applications from the territory of Hawaii which shall be filed directly with the Secretary of the Treasury, Washington, D. C. The applicant shall furnish such information as shall be requested of him by the Secretary of the Treasury or the Federal Reserve Bank of New York. Licenses will be issued by the Secretary of the Treasury, acting directly or through any officers or agencies that he may designate, and by the Federal Reserve Bank of New York, acting in accordance with such regulations, rulings and instructions, as the Secretary of the Treasury may from time to time prescribe, in such cases or classes of cases as the Secretary of the Treasury may determine. The Federal Reserve Bank of New York or the Secretary of the Treasury will advise the applicant of the decision respecting the application. Appropriate forms for applications and licenses will be prescribed by the Secretary of the Treasury. Licensees may be required to file reports upon the consummation of transactions. The decision of the Secretary of the Treasury with respect to an application for license shall be final.

PART 138—ORGANIZATION OF FOREIGN FUNDS CONTROL

MISCELLANEOUS AMENDMENTS

Sections 138.2 (b), 138.3 (f), 138.4 (b) and 138.6 are hereby amended to read as follows:

§ 138.2 *Outline of organization.* • • •

(b) *The field organization.* Foreign Funds Control is represented in the field by the Federal Reserve Bank of New York. There is also a small Liberated Areas Staff. Under General Ruling No. 5 (31 CFR, 1943 Supp., 131, App. A) controls over the importation of securities and currency are in the first instance enforced in the field by the Bureau of Customs and the Post Office Department as agents of the Control.

• • • • •

§ 138.3 *Description of functions performed by divisions and offices.* • • •

(f) *Federal Reserve Bank.* Under general supervision of the central organization, the Federal Reserve Bank of New York performs substantially all field operations of the Control in the territorial United States and Puerto Rico other than initial enforcement of controls over importation of securities and currency under General Ruling No. 5 (31 CFR, 1943 Supp., 131, App. A). Excepting a limited category of cases directly involving foreign governments, all license applications with the exception of applications from the territory of Hawaii, are filed with the Federal Reserve Bank of New York and final action on the applications is announced through it.

§ 138.4 *Delegation of final authority.* • • •

(b) *The field organization.* Authority to take final licensing action on most types of applications has been delegated to the Federal Reserve Bank of New York, subject to policies and procedures prescribed by Foreign Funds Control. Applications which are of a special nature or involve policy decisions are forwarded to the central office for review before final action.

• • • • •

§ 138.6 *Places and methods of securing information and making submittals*—(a) *Information, submittals and requests in general.* The public may in general secure any information or make submittals, requests or petitions with respect to any Foreign Funds Control matters by communicating through correspondence or telephone or by coming in person or sending a representative, either to the central office in Washington or to the Federal Reserve Bank of New York.

(b) *Applications for licenses.* Applications for licenses to effect transactions subject to the Control should be filed with the Federal Reserve Bank of New York, with the exception of applications from the territory of Hawaii which should be filed directly with the Secretary of the Treasury as prescribed by the appropriate regulations (31 CFR, 130.3), or other applicable document. Instructions in this respect are set forth in § 139.1 of this chapter.

(c) *Prescribed forms.* Forms and instructions to be used in submitting license applications, reports and certain other types of submittals or requests are covered in § 139.1 through § 139.3, inclusive, of this chapter.

(d) *Addresses.* Correspondence with the central office should be directed to "Foreign Funds Control, United States, Treasury Department, Washington 25, D. C." Personal inquiries to the central office should be made at the District National Bank Building, 1406 G Street N. W., Washington, D. C. All correspondence or inquiries to the Federal Reserve Bank of New York should be addressed as follows: Foreign Funds Control Department, Federal Reserve Bank of New York, 33 Liberty Street, New York 7, New York.

PART 139—PROCEDURES OF FOREIGN FUNDS CONTROL

LICENSING

Section 139.1 (b) of this title is hereby amended to read as follows:

§ 139.1 *Licensing.* • • •

(b) *Specific licenses*—(1) *General course of procedure.* Transactions subject to the Executive orders which are not authorized by general license may be effected only under specific license. The specific licensing activities of Foreign Funds Control are performed by the central organization and the Federal Reserve Bank of New York. Under policies and procedures prescribed by the Control, the Federal Reserve Bank takes final action upon most applications filed with it. All other applications are forwarded to the central office and are initially referred to the section within the Control dealing with the type of subject matter or transaction with which the application is concerned. (For a description of the organization of the Control see §§ 138.2 through 133.3, inclusive, of this chapter). When an unusual problem is presented, the proposed action is cleared with the Chief of the Division or with the Director.

(2) *Applications for specific licenses.* Except as provided below, applications for specific licenses are to be filed on Form TFE-1 with the Federal Reserve Bank of New York or other agency prescribed in the appropriate regulations. 31 CFR, 130.3.

Applications for the release of securities imported into the United States and surrendered in accordance with the provisions of General Ruling No. 5 (31 CFR, 1943 Supp., 131, App. A) are to be filed on Form TFA-1 with the Federal Reserve Bank of New York.

(3) *Information to be supplied.* Applicants must supply all information specified by the respective forms and instructions, including, in the case of business enterprises applying for operating licenses, the information required by Form TFBE-1. They may also be required to furnish such information as is deemed necessary to a proper determination by the Control or the Federal Reserve Bank of New York. If an applicant or other party in interest desires to present additional information or discuss or argue the application, he may do so at any time before or after decision. Arrangements for oral presentation should ordinarily be made with the agency with which the application was filed.

(4) *Effect of denial.* Except as provided by General Ruling No. 19 (31 CFR 131 App. A; 11 F. R. 8530) relating to property vested by the Alien Property Custodian, the denial of a license does not preclude the reopening of an application or the filing of a further application. The applicant or any other party in interest may at any time request explanation of the reasons for a denial by correspondence or personal interview.

(5) *Reports under specific licenses.* As a condition upon the issuance of any licenses, the licensee may be required to file reports with respect to the transaction covered by the license, in such form and at such times and places as may be prescribed in the license or related communication.

TITLE 32—NATIONAL DEFENSE

Chapter IX—Office of Temporary Controls, Civilian Production Administration

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827, and Public Laws 270 and 475, 79th Congress; Public Law 388, 79th Congress; E. PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 7, as Amended Dec. 31, 1946]

CERTIFICATIONS ON PURCHASE ORDERS AND OTHER DOCUMENTS

§ 944.27 *Priorities Regulation No. 7*—(a) *What this regulation does.* This regulation explains the use of certifications on purchase orders and delivery orders. It sets forth a standard form of certification which may be used where orders and regulations of the Civilian Production Administration permit. It also states the rules for signing and executing all certificates and other documents which must be filed under CPA orders and regulations.

Standard Certification

(b) *When standard certification may be used.* The standard certification which is described below may be used on purchase and delivery orders only when expressly permitted by the applicable regulation or order of the Civilian Production Administration.

(c) *Use is optional.* The use of the standard certification is optional unless an order or regulation states that it is the only one that can be used. Anyone who wishes to may use the more specific certifications provided by the various orders and regulations, such as the one given in Priorities Regulation 3 for use in applying or extending preference ratings.

(d) *Form of standard certification.* The standard certification must be in substantially the following form:

> The undersigned purchaser certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller and to the Civilian Production Administration, that, to the best of his knowledge and belief, the undersigned is authorized under applicable Civilian Production Administration regulations or orders to place this delivery order, to receive the item(s) ordered for the purpose for which ordered, and to use any preference rating which the undersigned has placed on this order.

(e) *Additional information with standard certification.* When the standard certification is used, additional information must be given when required by the applicable order or regulation. This information may be put either at the end of the standard certification or anywhere else on the order, or accompanying it.

Waiving Certifications

(f) *Waiver of buyer's certification.* If a seller receives an order without the certification required by the governing CPA regulation or order, he may accept the purchase order and treat it as bearing the proper certification if he complies with the following rules:

(1) The seller must know the facts which the certification would show and must place the necessary certification on the order and sign it himself. He may not merely insert the certification over the buyer's signature. In adding the certification, the seller shall be deemed to make the representation to the Civilian Production Administration. The individual who signs for the seller must be a responsible official of the seller, duly

authorized to make binding representations in this respect on the seller's behalf.

(2) The seller must use the certification in the governing order or regulation unless it permits the use of the standard certification. In using the latter, he must change the words "undersigned purchaser" to "undersigned seller", cross out the words "the seller and" and change the words "the undersigned is authorized" to "the buyer is authorized". If he uses the form in the governing order or regulation, he must make corresponding changes in wording.

(3) A certification may not be waived if the governing order or regulation expressly states that it may not be waived.

(g) [Deleted Dec. 31, 1946.]

(h) [Deleted Dec. 31, 1946.]

(i) [Deleted Dec. 31, 1946.]

Signature of Certification

(j) *Who must sign and how.* Certifications on purchase or delivery orders which are required by CPA orders or regulations must be signed by the person placing the order (or the person receiving it under paragraph (f) above, or by a responsible individual who is duly authorized to sign for that purpose. The signature must be either by hand or in the form of a rubber stamp or other facsimile reproduction of a handwritten signature.

(k) *Use of facsimile signature.* If a facsimile signature is used, the individual who uses it must be duly authorized by the individual whose signature it is, to use it on representations to the Civilian Production Administration, and a written record of the authorization must be kept.

(l) *Only one signature necessary in most cases.* If several certifications are placed above the signature of the purchase order, they need not be separately signed provided the purchase order is signed in the way required for a certification by paragraph (j) above. If any certifications are placed below the signature of the purchase order, or on the back of it, the last certification must be separately signed, unless there is a statement above the signature of the purchase order which shows clearly that it applies to the certification.

(m) *Certification may be on separate paper.* If it is not convenient to place a certification on a purchase order or delivery order, it may be placed on a separate piece of paper either attached to it or clearly identifying it. For example, if the buyer has sent an order but has forgotten to place the certification on it, he may send the seller a separate certification clearly identifying the order to which it applies. A signature on the purchase order shall apply to the certification on an attached or unattached piece of paper only where the words above the signature clearly make it include the certification.

(n) *Signature on other documents.* The above rules for signing certifications on purchase orders also apply to the signature on reports, applications for preference ratings, and other documents that are required to be filed under orders and regulations of the Civilian Production Administration.

Telegraph, Telephone and Verbal Orders

(o) *Telegraphic orders.* When a purchase order is placed by telegram and a certification is necessary the certification must be set out in full in the telegram. It will be sufficient if the file copy of the outgoing telegram is signed in the manner required for certification by this regulation. Also, the certification contained in the telegram may be abbreviated in the following cases, but the purchaser assumes the same responsibility as if it were set out in full:

(1) When the standard certification is used, it may be shortened to the words "order certified under Priorities Regulation 7."

(2) When the certification is used for the sole purpose of applying or extending a preference rating, the words "ratings certified" or words to that effect are enough.

(3) Where the certification is used for the sole purpose of showing that the order comes under a small order exemption in an order or regulation of the Civilian Production Administration, it may be shortened to "small order certified."

(4) Where the certification required simply states the number of the CPA authorization form, the identification of the form and its number only need be given.

(p) *Verbal or telephone orders.* On purchase orders requiring shipment within seven days the substance of the certification may be stated verbally or by telephone. However, the following rules must be complied with:

(1) The person making the statement for the buyer must be a person duly authorized to make the certification.

(2) Both the buyer and the seller must promptly make a written record of the fact that the certification was given orally and the record must be signed by the buyer in the same way as a certification.

Miscellaneous Provisions

(q) *Responsibility for truth of certification.* The person who places the order, the individual whose signature is used and the individual who approves the use of the signature will each be considered to be making a representation to the Civilian Production Administration that the statements contained in the certification are true to the best of his knowledge and belief, subject to criminal penalties for misrepresentation. The person receiving the certification and other information required to be included with the certification shall be entitled to rely on it as a representation of the buyer unless he knows or has reason to know that it is false.

(r) *Reference to criminal penalties.* The reference to criminal penalties for misrepresentation in the above forms of certification and similar phrases in certifications required by other orders and regulations are included solely for the purpose of making sure that persons signing certifications realize the responsibility they are undertaking. These references may not be omitted, but their inclusion shall not be deemed to make any person subject to any criminal penalties to which he would not be subject if the references were omitted.

(s) *Records to be kept by the purchaser.* Each person using any certification must maintain at his regular place of business all documents upon which he relies as entitling him to make the representations in the particular certification used and to supply the other information required to be placed with his purchase order. These documents must be segregated and available for inspection by a representative of the Civilian Production Administration or filed in such manner that they can be readily segregated and made available for inspection.

(t) *Effect on other regulations and orders.* Provisions in any other orders or regulations of the Civilian Production Administration which are inconsistent with this regulation may be disregarded unless they expressly state that this regulation does not apply.

(u) *Use and disposal of material obtained with certification.* Any person who gets any material with a certification prescribed by a CPA order or regulation must use or dispose of the material only in accordance with the provisions of the certification as long as the governing order or regulation remains in effect.

INTERPRETATION 1

PREFERENCE RATING MUST BE FURNISHED BY THE BUYER

Paragraph (f) of Priorities Regulation No. 7, which permits a seller to waive the buyer's certification where he knows the facts, does not allow the seller to rate an order which the buyer has not attempted to rate. If the buyer has stated the rating on the order but has not certified it, the seller may add the appropriate certification; and if the buyer has not shown the rating on the order, but has otherwise informed the seller that he wishes to apply or extend the rating, the seller may also insert it on the order. PART 1010—SUSPENSION ORDERS

[Suspension Order S-1057]

GEORGE CHANG AND NICHOLAS CANTERA

George Chang resides at and is the owner of the premises at 112 West 7th Street, Wilmington, Delaware. Nicholas Cantera is a General Building Contractor, conducting his business at 1602 Sycamore Street, Wilmington, Delaware. Subsequent to March 26, 1946, they began construction in altering and building a residential and commercial addition to a commercial building at 112 West 7th Street, Wilmington, Delaware, at an estimated cost of $35,000, without authorization of the Civilian Production Administration. On July 31, 1946, official telegrams from the Civilian Production Administration by J. Joseph Whelan, Recording Secretary, were sent to George Chang and Nicholas Cantera, ordering them to stop all construction work within one week unless they obtained from a Civilian Production Administration Compliance Commissioner written findings that the construction work does not appear to be in violation of Civilian Production Administration orders and regulations. In spite of being fully informed as to the requirements under the Veterans' Housing Program, and the receipt of the telegrams, they have continued to carry on the said construction. The beginning and carrying on of this construction, without authorization, constituted a wilful violation of Veterans' Housing Program Order No. 1. This violation had diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1057 *Suspension Order No. S-1057.* (a) Neither George Chang nor Nicholas Cantera, their successors or assigns, or any other person shall do any construction on the premises located at 112 W. 7th Street, Wilmington, Delaware, including the completing, putting up or altering of any structure located thereon, unless hereafter specifically authorized in writing by the Civilian Production Administration or the Federal Housing Administration.

(b) George Chang and Nicholas Cantera shall refer to this order in any application or appeal which they may file with the Civilian Production Administration or Federal Housing Administration for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve George Chang or Nicholas Cantera, their successors or assigns, from any restriction, prohibition, or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1046]

DURA-BILT GARAGE BUILDING CO., INC. AND JACK SCHERR AND MEYER YAGODA

Dura-Bilt Garage Building Company, Inc., a Michigan Corporation, and Jack Scherr and Meyer Yagoda—individually and doing business as Bilt-Rite Cement Company—with principal places of business at 18109 James Couzens Highway, Detroit, Michigan, and 19132 Schaefer Highway, Detroit, Michigan, respectively, on or about April 29, 1946, in the case of a structure at 1854 Twenty-first Street, Wyandotte, Michigan, and on or about August 10, 1946, in the case of a structure at 20400 Ward Avenue, Detroit, Michigan, without authorization of the Civilian Production Administration, began and after the aforesaid dates carried on construction of a residential garage at each of the above locations, the estimated cost of each of which was in excess of $400, in violation of Veteran's Housing Program Order No. 1. These violations have diverted scarce materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1046 *Suspension Order S-1046.* (a) Neither Dura-Bilt Garage Building Company, Inc., nor Jack Scherr and Meyer Yagoda, individually and doing business as Built-Rite Cement Company, their successors or assigns, nor any other person, shall do any further contruction on the premises located at 1854 Twenty-first Street, Wyandotte, Michigan, and 20400 Ward Avenue, Detroit, Michigan, including putting up, completing or altering the structure, unless hereafter specifically authorized in writing by the Civilian Production Administration.

(b) Dura-Bilt Garage Building Company, Inc., and Jack Scherr and Meyer Yagoda, individually and doing business as Built-Rite Cement Company, shall not, for a period of three months from the effective date of this order, apply or extend any preference ratings regardless of the delivery date named in any purchase order to which such ratings may be applied or extended.

(c) Dura-Bilt Garage Building Company, Inc., and Jack Scherr and Meyer Yagoda, individually and doing business as Built-Rite Cement Company, shall cancel immediately all preference ratings which they have applied or extended to orders which have not yet been filled.

(d) Dura-Bilt Garage Building Company, Inc., and Jack Scherr and Meyer Yagoda, individually and doing business as Built-Rite Cement Company, shall not, for the three months from the effective date of this order, receive or accept delivery of any materials obtained through the use of preference ratings. This does not apply to material in transit for delivery to them on the effective date of this order.

(e) Dura-Bilt Garage Building Company, Inc., and Jack Scherr and Meyer Yagoda, individually and doing business as Built-Rite Cement Company, shall refer to this order in any application or appeal which they may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction in connection with the construction hereby prohibited.

(f) The provisions of this order shall not apply to any housing projects which Dura-Bilt Garage Building Co., Inc., or Built-Rite Cement Company have received authority to construct prior to issuance of this order from the Federal Housing Administration nor to the use of any preference ratings so authorized.

(g) Nothing contained in this order shall be deemed to relieve Dura-Bilt Garage Building Company, Inc., and Jack Scherr and Meyer Yagoda, individually and doing business as Built-Rite Cement Company, their successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

(h) Paragraphs (b), (c), and (d) of this order shall take effect on the 7th day of January, 1947, and the remaining paragraphs shall take effect upon the date of issuance.

Issued this 31st day of December 1946.

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 33, List 1, as Amended Dec. 31, 1946, to Direction 13]

PURCHASERS ELIGIBLE FOR VETERANS PREFERENCE

A purchaser is eligible, under paragraph (q) of Direction 13 to PR 33, for veterans' preference in buying a new mounted VEHP house trailer if he is in one of the following classes and if, in addition, he meets the other requirements stated in paragraph (q):

(a) A person who (1) has served in the active military or naval forces of the United States on or after September 16, 1940, (2) has been discharged or released therefrom under conditions other than dishonorable, and (3) wishes to buy the house trailer for his own full-time housing use or for the full-time housing use of his dependent family.

(b) A person who (1) is serving in the active military or naval forces of the United States, (2) requires dwelling accommodations for his dependent family, and (3) wishes to buy the house trailer for the full-time housing use of his dependent family.

(c) The spouse of a veteran (as described in paragraph (a) of this list) who died after being discharged or released from service, or the spouse of a person who served in the active military or naval forces of the United States on or after September 16, 1940 and who died in service, if the spouse wishes to buy the house trailer for full-time housing use by her (him) and a child or children of the deceased.

(d) A citizen of the United States who (1) served in the Armed Forces of an allied nation during World War II (and who has been discharged or released therefrom under conditions other than dishonorable), (2) requires dwelling accommodations for his dependent family, and (3) wishes to buy the house trailer for the full-time housing use of his dependent family.

(e) A person to whom the War Shipping Administration has issued a certificate of continuous service in the United States Mer-

chant Marine and who (1) requires dwelling accommodations for his dependent family, and (2) wishes to buy the house trailer for the full-time housing use of his dependent family.

(f) A citizen of the United States who (1) as a civilian, was interned or held a prisoner of war by an enemy nation at any time during World War II, (2) requires dwelling accommodations for his dependent family and (3) wishes to buy the house trailer for the full-time housing use of his dependent family.

PART 4600—RUBBER, SYNTHETIC RUBBER AND PRODUCTS THEREOF

[Rubber Order R-1, as amended December 31, 1946]

Rubber Order R-1, as amended November 15, 1946, is hereby further amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of natural rubber and other materials entering into the production of rubber products for defense, for private account and for export, and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

Purpose of this order. Rubber Order R-1 embraces the Civilian Production Administration regulations covering acceptance of delivery of certain raw materials, restrictions on consumption, purchase procedure, delivery, inventories and importation, and deliveries of tires and tubes for original equipment.

Appendix I, which is printed at the foot of this order, establishes general permitted uses for raw materials and special restrictions for the use of raw materials in the manufacture of specified products listed in Table B.

Appendix II, which is printed separately, establishes manufacturing regulations for various end products, principally tires and tubes, set out in lists applicable to the particular product.

Sec.
4600.01 Definitions of certain terms.
4600.02 Authorization required to accept delivery of certain raw materials.
4600.03 Restrictions on consumption of natural rubber (excluding natural rubber latex) and butyl.
4600.03a Authorization required to accept delivery of and to consume natural rubber latex.
4600.04 Purchase requests for natural rubber, natural rubber latex, GR-S and Butyl.
4600.05 Restrictions on making deliveries of materials.
4600.06 Restrictions on inventories of materials.
4600.07 Restrictions on importations of materials.
4600.08 Fifteen day inventory of tires and tubes for vehicle manufacturers.
4600.09 [Deleted November 15, 1946].
4600.10 [Deleted November 15, 1946].
4600.11 Scrap S-7 tires.
4600.12 Reports.
4600.13 Applicability of regulations.
4600.14 Appeals.
4600.15 Violations.
4600.16 Communications.
Appendix I—General permitted uses of raw materials and table of permitted products.
Appendix II—Manufacturing regulations (printed separately).

§ 4600.01 *Definitions of certain terms.* As used in this order:

(a) "Natural rubber" means all forms and types of tree, vine, or shrub rubber, including guayule. Not included in the definitions are reclaimed rubber, scrap rubber, balata, chilte, gutta percha, gutta siak, gutta jelutong or pontianac.

(b) "Natural rubber latex" means the dry latex solids contained in natural rubber liquid latex.

(c) "Reclaimed rubber" means any vulcanized material derived from the processing or treatment of scrap rubber, but excluding reclaimed residue or "mud". Reclaimed residue or "mud" means dried or recovered sludge consisting of a mixture of partially hydrolyzed cellulose, finely divided rubber and other waste products of the digester process of reclaiming rubber.

(d) "Scrap rubber" means any finished or semi-finished product or part thereof made in part or in whole from natural rubber or natural rubber latex which through wear, deterioration or obsolescence, cannot be used in the processing of any product for which the use of natural rubber or natural rubber latex is permitted in Table B of Appendix I hereof. Not included in the definition of scrap rubber is any vulcanized or unvulcanized material with a specific gravity of 1.15 or less which results from or is incident to the handling or the processing of natural rubber or natural rubber latex in the manufacture or the repair of any product and which may be used for a purpose for which originally designed, or which may be used for any product for which the use of natural rubber or natural rubber latex is permitted in Table B of Appendix I hereof. Also not included in the definition is any finished or semi-finished product or material containing natural rubber or natural rubber latex which may be used for a purpose for which originally designed, or which may be used for any product for which the use of natural rubber or natural rubber latex is permitted in Table B of Appendix I hereof.

(e) "Synthetic rubber" means Neoprene (all types including latex), Butyl (GR-I), all grades; all Butadiene polymer and copolymer types including latex, including but not limited to GR-S types, such as Hycar OS and Styraloy; and all Butadiene-Acrylonitrile types, such as Hycar, Perbunan, Chemigum, Butaprene, Thiokol RD and GR-A.

(f) "Butyl" means all types of Butyl (GR-I) except butyl plant clean-up material.

(g) "Chlorinated natural rubber" means the reaction product of chlorine and natural rubber.

(h) "Consume" means to compound, expend, formulate, or in any manner make any substantial change in the form, shape or chemical composition of natural rubber, natural rubber latex, synthetic rubber, or reclaimed rubber.

(i) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

§ 4600.02 *Authorization required to accept delivery of certain raw materials.* (a) No person shall accept delivery of any of the following raw materials:

Natural rubber (excluding natural rubber latex).
Butyl.
GR-S.

until he has received an authorization to do so from the Civilian Production Administration on Form CPA-4488. Applications for an authorization to accept delivery of any or all of these materials shall be made on Form CPA-4488, pursuant to instructions accompanying that Form, not later than the first day of the month next preceding the calendar quarter for which the authorization is required. The authorizations to accept delivery on Form CPA-4488 will be mailed by the Civilian Production Administration only to applicants who previously have applied on Form CPA-4488. This authorization form will be mailed on or before the 20th day of the month next preceding the calendar quarter for which the delivery is authorized.

(b) *Pale crepe.* Only manufacturers of the products specified in Table B of Appendix I for which the use of pale crepe is specifically permitted, will be authorized by the Civilian Production Administration to accept delivery of that material.

(c) *Basis for authorization to accept delivery of natural rubber (excluding natural rubber latex), Butyl and GR-S.* In determining the amounts of natural rubber (excluding natural rubber latex), Butyl and GR-S to be authorized for acceptance of delivery by an applicant in any calendar quarter, the Civilian Production Administration will take into consideration the consumption and inventories of those materials reported monthly on Form CPA-3410 and quarterly on Form CPA-4488, information furnished by the applicant as to past production and estimated future production of rubber products, as well as the proportional requirements for such materials in the production of rubber products, required by Appendices I and II hereof. It will be the policy of CPA to distribute equitably the supply of these materials among all consumers so that the quantities authorized for delivery will be sufficient for industry to maintain its production schedules, within the limitations of the available supplies of these materials. The CPA will determine the end use of any grade of natural rubber consistent with technical requirements and available supplies.

§ 4600.03 *Restrictions on consumption.* No person shall consume natural rubber or Butyl except in the manufacture of permitted products listed in Appendix I hereof and in accordance with the applicable special restrictions or provisions in Appendix I and the manufacturing regulations in Appendix II. These materials may be consumed for experimental use without authorization to the extent permitted in Table A of Appendix I.

§ 4600.03a *Authorization required to accept delivery of and to consume natural rubber latex.* No person other than the Office of Rubber Reserve shall accept delivery of or consume natural rubber latex until he has received an authorization to do so from the Civilian Production Administration on Form CPA-4562. Applications for an authorization to accept delivery of and to consume natural rubber latex shall be made on Form CPA-4562 pursuant to instructions accompanying that form, not later than the first day of the month next preceding the calendar quarter in which the authorization is required. The authorizations to accept delivery of and to consume on Form CPA-4562 will be made by the CPA only to those persons who have previously filed applications on Form CPA-4562. These authorizations will be mailed on or before the 20th day of the month next preceding the calendar quarter for which the delivery is authorized.

(a) Only those manufacturers of the products specified in Table B, Appendix I and in List 8 of Appendix II for which the use of natural rubber latex is specifically permitted will be authorized to accept delivery of this material and to consume this material. Where the application shows natural rubber latex is to be used for prophylactics, animal curled hair and foamed latex products, the authorization to consume will be made in the proportion that the supply available for such products bears to the total requirements.

§ 4600.04 *Purchase requests for natural rubber, natural rubber latex, Butyl and GR-S (all types).* Natural rubber, natural rubber latex, Butyl and GR-S (all types) are sold by the Office of Rubber Reserve, RFC. Persons wishing to purchase any of these materials from the Office of Rubber Reserve shall first file their requests for natural rubber, Butyl or GR-S on Form CPA-4488 and for natural rubber latex on Form CPA-4562, with the Rubber Division, CPA, in accordance with instructions accompanying the Forms.

(a) *Issuance by Office of Rubber Reserve of purchase permits.* On the basis of such requests, the Civilian Production Administration will recommend to the Office of Rubber Reserve that a purchase permit be issued to the applicant for an amount determined by CPA from the applicant's inventory and the amount authorized for delivery on Form CPA-4488 or Form CPA-4562. The Office of Rubber Reserve will issue purchase permits directly to the applicant.

§ 4600.05 *Restrictions on making deliveries of raw materials.* No person (other than the Office of Rubber Reserve) shall deliver to any person (other than the Office of Rubber Reserve) any natural rubber, natural rubber latex, Butyl or GR-S except as specifically authorized by the Civilian Production Administration. Any person (other than the Office of Rubber Reserve) wishing to make delivery to any person (other than the Office of Rubber Reserve) of any of these raw materials shall apply by letter to the Rubber Division, Civilian Production Administration, stating the type of material, the quantity and the name of the person to whom it will be delivered. The Civilian Production Administration may issue an authorization for the delivery, taking into account the consumption capacity of the person to whom the delivery is to be made, his actual consumption as reported on Form CPA-3410 and the products for which the material is to be used. Nothing contained in this section shall be deemed to prohibit:

(a) Delivery of natural rubber, natural rubber latex, synthetic rubber of any type or reclaimed rubber from one location to another location controlled by the same person where no change of ownership takes place, or by any corporation to another corporation which is its subsidiary or of which it is a subsidiary within the continental limits of the United States.

(b) Delivery of natural rubber, natural rubber latex, Butyl or GR-S to any person for the purpose of milling, washing, deresinating, drying, compounding or conditioning the same, or for processing or manufacturing products therefrom, and thereafter returning the same or the products thereof to the person making the delivery.

§ 4600.06 *Restrictions on inventories of materials.* No person other than the Office of Rubber Reserve, shall accept delivery of any of the following materials, if his inventory is or will by virtue of such acceptance become in excess of the amount reasonably necessary to meet his requirements for the period designated below:

	Maximum Days
Natural rubber or natural rubber latex	60
Any type of synthetic rubber (including their latices)	45
Reclaimed rubber	30

If any holder has an excess inventory, he may ask for the assistance of the Rubber Division, Civilian Production Administration, in its disposal.

A person engaged in the business of manufacturing synthetic rubber or of reclaiming rubber may, however, maintain such inventories of synthetic or reclaimed rubber of his own manufactured grades as he deems advisable. These exceptions may be made notwithstanding the provisions of this § 4600.06, or of Priorities Regulation No. 32, as amended.

§ 4600.07 *Restrictions on importation of materials.* For the purpose of this section, "import" means to transport in any manner into the continental United States from any foreign country or from any territory or possession of the United States. It does not include shipments into a free port, free zone, or bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States for trans-shipment to any foreign country.

No person shall import any natural rubber, natural rubber latex, or any finished or semi-finished product of which 10% or more by weight is composed of natural rubber or natural rubber latex, except as permitted under this section. The term "10% or more by weight" shall mean the weight of the rubber hydrocarbon content of the finished or semi-finished product.

The restrictions of this section shall not apply to any of the following:

(a) Any importation by the Office of Rubber Reserve or Rubber Development Corporation, or any agent acting for either of them.

(b) The importation by the United States Army or Navy of any finished product made of natural rubber, natural rubber latex or butyl.

(c) The importation of tires for recapping, retreading or repair, provided the tires are thereafter exported to the owners in the foreign country from which the products were imported.

(d) The importation of any finished product made of natural rubber or natural rubber latex by diplomatic representatives of any foreign government for their personal use or the use of members of their staffs.

(e) The importation of any finished product made of natural rubber or natural rubber latex by commercial representatives of any foreign government for use in their official business.

(f) The importation for testing purposes of camelback, or of tires or tubes or sections thereof by any manufacturer of camelback, tires or tubes.

(g) The importation of any scrap rubber.

(h) The importation by any person during any calendar month of products or materials (except tires, tire casings and tire tubes) which contain an aggregate of not more than twenty-five pounds of natural rubber or natural rubber latex provided such products or materials are not imported for the purpose of manufacturing, processing, sale or resale.

(i) The importation by any person of any finished or semi-finished product manufactured in accordance with the provisions of Rubber Order R-1 and in respect to which the importer shall furnish to the Collector of Customs at the port of entry a certificate substantially as follows:

> The undersigned hereby certifies, subject to the criminal penalties for misrepresentation contained in Section 35 (A) of the United States Criminal Code, that the products covered by the invoice to which this certificate is attached, as noted therein, are being imported into the United States in accordance with the provisions of § 4600.07 of Civilian Production Administration Rubber Order R-1. The undersigned further certifies that the products covered by the invoice to which this certificate is attached were manufactured in accordance with the special restrictions or provisions in Appendix I and the manufacturing regulations contained in Appendix II of R-1.

> Date. Signature.

§ 4600.08 *Fifteen (15) day inventory of tires and tubes for vehicle manufacturers.* No manufacturer of automobiles, trucks, tractors, trailers, farm machinery or other rubber-borne vehicles or equipment shall take delivery of any tires or tubes from a manufacturer of such

products which will increase his inventory above that required for his scheduled production of vehicles or equipment during the 15-day period following any such delivery.

In the event of a decrease in the number of tires and tubes actually required, due to work stoppage in the vehicle manufacturer's plant or for any other cause, the vehicle manufacturer shall immediately notify his supplier of the reduction in the requirement and the scheduled deliveries must be revised accordingly.

§ 4600.09 [Deleted November 15, 1946].

§ 4600.10 [Deleted November 15, 1946].

§ 4600.11 *Scrap S–7 tires.* No person engaged in the business of selling or otherwise disposing of used or scrap tires, shall sell or otherwise dispose of any such tires of S–7 construction or higher quality, except for use in the manufacture of reclaimed rubber.

§ 4600.12 *Reports.* (a) The following persons shall file with the Civilian Production Administration a report on stocks, receipts, consumption and shipments on Form CPA–3410 in accordance with the instructions accompanying the Form.

(1) Each person who, during the next preceding month, consumed or owned any natural rubber, natural rubber latex or Butyl.

(2) Each person who during the preceding month consumed or owned the rubbers listed below, in excess of the following minimums:

	Consumption	Stocks
	Pounds	*Pounds*
Reclaimed rubber	10,000	10,000
GR-S (all types, including GR-S latex)	15,000	15,000
Neoprene	5,000	10,000
Butadiene-Acrylonitrile types	5,000	10,000

This paragraph shall not apply to persons who perform the operations listed in § 4600.05 (b) of this order except that producers of reclaimed rubber shall report their entire production regardless of the material consumed.

(b) Each manufacturer of tires and tubes or camelback, shall file a report on his production, shipments and inventory for each calendar month on Form CPA–3438 with the Civilian Production Administration, in accordance with the instructions accompanying the form, unless otherwise directed.

(c) Such other reports as may be required, subject to approval by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

§ 4600.13 *Applicability of regulations.* Except as otherwise provided, this order and all transactions affected thereby are subject to all applicable provisions of Civilian Production Administration regulations as amended from time to time.

§ 4600.14 *Appeals.* Appeals from any provision of this order shall be made by filing Form CPA–2242 in accordance with the instructions appearing on the form.

§ 4600.15 *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

§ 4600.16 *Communications.* All reports required to be filed under this order, and all communications concerning this order, shall, unless otherwise directed be addressed to: Civilian Production Administration, Washington 25, D. C., Ref. Order R–1.

NOTE.—The reporting provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TABLE A—GENERAL PERMITTED USES OF RAW MATERIALS

Type of material	General permitted uses of raw materials subject to applicable end product restrictions	Monthly consumption for experimental use without specific authorization
Natural rubber	In the manufacture only of products listed in Table B below for which natural rubber is specifically permitted, subject to any applicable manufacturing regulations or restrictions, but only in the amount authorized on Form CPA–4488.	25 pounds.
Natural rubber latex	In the manufacture only of products specifically designated in Table B below, subject to any applicable manufacturing regulations or restrictions, but only in the amount authorized on Form CPA–4562.	None.
Butyl	In the manufacture only of products listed in Table B below for which Butyl is specifically permitted, subject to any applicable manufacturing regulations or restrictions, but only in the amount authorized on Form CPA–4488.	200 pounds.

Experimentation need not be confined to permitted uses. Materials in the amounts indicated may be diverted for experimentation from inventory or from purchase for manufacturing operations. If the manufacturer does not have an inventory of natural rubber, application for permission to purchase should be made on Form CPA–4488. Such applications must definitely state that the natural rubber or Butyl is to be used for experimentation and name the end product on which the experiment is to be made. To purchase Butyl for experimental purposes, make application by letter to Sales Division, Office of Rubber Reserve, Reconstruction Finance Corporation, Washington 25, D. C.

For permission to consume materials for experimental use, in excess of the amounts authorized, file an appeal Form CPA–2242, in accordance with § 4600.14 of this order.

TABLE B—PERMITTED PRODUCTS

For general permitted uses of raw materials in the manufacture of products, see Table A above. Quarterly consumption of natural rubber, natural rubber latex or Butyl, will be permitted on the basis of uses shown in this Appendix, but only to the extent that material is available.

Explanation of the third, fourth and fifth columns in Table B, and the symbols used:

The third column shows to what extent natural rubber authorized on Form CPA–4488 may be used in the manufacture of particular products. The fourth column shows to what extent natural rubber latex authorized on Form CPA–4562 may be used in the manufacture of particular products. The fifth column shows to what extent Butyl authorized on Form CPA–4488 may be used in the manufacture of particular products.

The natural rubber, natural rubber latex or Butyl column is left blank when applicable regulations in Appendix II or special restrictions in the last column of Appendix I limit the use of these materials.

"O" indicates that the use of the material is prohibited, subject to any special restrictions or provisions applicable to the particular products.

"X" indicates that the material may be consumed in the minimum quantities required by a manufacturer who has received authorization to accept delivery on Form CPA–4488 subject to any special restrictions or provisions applicable to the particular product.

Percentage figures indicate maximum percent to total volume of compound, unless otherwise specified.

The rubber hydrocarbon (designated RHC in this Table) is the sum total of natural rubber, synthetic rubber and the rubber hydrocarbon value of reclaimed rubber. The rubber hydrocarbon value of reclaimed rubber shall be calculated from the rubber value of reclaimed rubber as certified by the manufacturer of the reclaimed rubber and shall be determined by the "difference or indirect" method.

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 33, Direction 8, as Amended Dec. 31, 1946]

PREFABRICATED HOUSING UNDER THE VEHP

The following amended direction is issued pursuant to Priorities Regulation 33:

No. 1——3

(a) *What this regulation does.* This direction explains the new restrictions on prefabricators' and dealers' (wholesale and retail) sales of prefabricated houses, sections, panels, or packages. The sales restrictions in this direction used to apply only to items produced with priorities assistance under this direction. Restrictions on the sale of items not produced under this direction used to be in Schedule B to PR 33. The present sales restrictions of this direction now apply to all such items (as defined below) regardless of whether or not they were produced with priorities assistance under this direction.

Definitions

(b) *Definitions.* For the purpose of this direction:

(1) "Prefabricator" means a person engaged in the business of manufacturing prefabricated houses, sections, or panels.

(2) "Prefabricated house" means a house of which at least the exterior walls are formed by the assembly of prefabricated sections or panels as defined below. The term "prefabricated house" does not include house trailers.

(3) "Prefabricated section" means a house section which is manufactured in a factory, is transported without being taken apart, and is designed to be used in combination with one or more prefabricated sections, prefabricated panels, or conventionally constructed elements to produce housing accommodations.

(4) "Prefabricated panel" means a floor, wall, partition, ceiling, roof, or truss panel which is manufactured in a factory and is designed to be used in combination with one or more prefabricated sections, prefabricated panels, or conventionally constructed elements to produce housing accommodations. Prefabricated panels may, but need not, incorporate such items as window and door frames, sash, doors, builders' hardware, wiring, piping, etc.

(5) "Prefabricated package" means the aggregation of prefabricated sections or panels and building materials and equipment shipped, in a lot, by a prefabricator.

(6) The terms "prefabricated panel" and "prefabricated section" do not include: (i) fabricated structural steel such as columns or beams, (ii) millwork as defined in Order L–359, (iii) items of furniture and equipment not to be permanently attached to and made a part of a house, or (iv) building materials cut to size and shape for assembly at the building site (unless shipped by the prefabricator as part of the prefabricated package he supplies).

(7) Any prefabricated house, section, panel, or package containing materials obtained with priorities assistance given, on Forms CPA-4415 or NHA-14-53, under this direction or under HEPR 6 is "produced" or "manufactured" under this direction.

Priorities Assistance for Prefabricators

(c) *Prefabricators' applications for priorities assistance.* After December 24, 1946, no priorities assistance will be given to prefabricators, under this direction (or under HEPR 6), for the manufacture of prefabricated houses, sections, panels, and packages. However, authorizations given before that date remain valid for the periods covered by them.

(d) *Prefabricators' use of priorities assistance.* Prefabricators to whom priorities assistance has been given may use that assistance and material obtained with the assistance, only in accordance with applicable Civilian Production Administration regulations (including Orders L–358 and L–359 and the provisions of paragraph (c) of Schedule A to PR 33). In addition, any conditions and limitations placed under HEPR 6 must be complied with.

Sales Provisions

(e) *Unerected sales.* In selling unerected prefabricated houses, sections, panels, or packages, a prefabricator or a dealer must accept and fill rated orders in preference to unrated orders in accordance with the rules of PR 1. This applies regardless of whether or not the items were produced under this direction.

(f) *Erected sales.* In selling erected prefabricated houses, sections, panels, or packages, a prefabricator or dealer must comply with the rules of PR 33, HEPR 5 or the following Permit Regulation (whichever is applicable). This applies regardless of whether or not the items were produced under this direction.

(g) *Applicability of VHP 1.* Erection of a prefabricated house, section, panel, or package is "construction" under Order VHP 1. Consequently, such construction must be authorized unless any of the exemptions in VHP 1 are applicable. A person wishing to erect, for his own use or for sale, may apply under the Housing Permit Regulation for authorization by the Federal Housing Ad-

ministration (or, in appropriate cases, by the Federal Public Housing Authority).

(h) *Extending customers' HH ratings*—(1) *Extension by prefabricators prohibited.* A prefabricator must not extend an HH rating which he receives from a customer.

(2) *Extension by dealers permitted.* A dealer who receives an HH or HHH rated order from a customer for a prefabricated house, section, panel, or package may extend the rating to get the item for sale to that customer or to replace an item sold out of inventory to that customer on the rated order.

Disposal of Materials

(i) *Disposal of materials.* In accordance with Priorities Regulation 1, materials obtained by a prefabricator with priorities assistance under this direction or HEPR 6 may be used by him only for the purposes for which the assistance was given. If he is unable to use the materials for those purposes, he may use or dispose of them only as follows:

(1) By "special sale" under Priorities Regulation 13; or

(2) By such other use as may be authorized in writing by the National Housing Agency.

Miscellaneous Provisions

(j) *Technical provision.* A reference to Direction 8 to PR 33 in any CPA regulation or order shall, where appropriate, be deemed a reference to HEPR 6 also.

(k) *Communications and appeals.* Communications regarding the provisions of this direction, and appeals from these provisions, should be sent to the National Housing Agency, Washington 25, D. C., Ref: Dir. 8 to PR 33. An appeal should be made by letter, in triplicate, stating the particular provision appealed from and the full grounds for the appeal.

(l) *Violations.* Any person who wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control and may be deprived of priorities assistance.

Issued this 31st day of December 1946.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-1061]

CHARLES POSTERNACK

Charles Posternack resides at 230 South 45th Street, Philadelphia, Pa., and is the owner of the commercial property located at 814 Walnut Street, Philadelphia, Pa. On or about August 20, 1946, he began alteration construction on his commercial building at 814 Walnut Street, Philadelphia, Pa., at an estimated cost in excess of $1,000 without authorization of the Civilian Production Administration. The carrying on of this construction, without authorization, at an estimated cost in excess of $1,000 after being informed of the restrictions of Veterans' Housing Program Order No. 1 constituted a willful violation of that order. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.1061 *Suspension Order No. S-1061.* (a) Neither Charles Posternack, his successors or assigns, nor any other person shall do any further construction on the premises located at 814 Walnut Street, Philadelphia, Pa., including completing, putting up, or the altering of any structure located thereon, unless hereafter specifically authorized in writing by the Civilian Production Administration or the Federal Housing Administration.

(b) Charles Posternack shall refer to this order in any application or appeal which he may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Charles Posternack from any restriction, prohibition, or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 31st day of December 1946.

(aa) [Revoked Dec. 31, 1946.]

PURPOSES AND SCOPE OF SCHEDULE B

§ 944.54b *Schedule B to Priorities Regulation 33*—(a) *What this schedule does.* This Schedule B explains special rules for the handling of rated orders (AAA; MM; HHH; HH and CC) by people who sell most of the building materials listed in Schedule A to Priorities Regulation 33. (Schedule A lists the building materials for which HH ratings can be used by builders and other authorized persons and tells how they use these ratings.)

This amendment of Schedule B becomes effective as of January 1, 1947. Until that date, the provisions of Schedule B, as amended November 12, 1946, remain effective.

This means that, beginning January 1, 1947, no further set-asides need be made and that items previously set aside become released from the holding requirements. The materials previously listed in the set-aside table remain subject to the ceiling provisions, as amended (see paragraphs (l), (m), (n), and (o) below).

When any material is mentioned by name in this schedule, the material is the same as the corresponding item on Schedule A, unless it is specifically made less inclusive than the Schedule A item. In no case does it include anything not included in the Schedule A item.

The provisions of this Schedule B apply to HHH ratings since they are to be treated exactly the same as HH ratings except in one respect—the HHH rating has a higher priority than the HH rating. The provisions of this Schedule B apply to "certified-HH" ratings only where specifically mentioned below. This is because there are special rules for certified-HH ratings, as explained in Direction 11 to PR-33.

This schedule does not apply to the "Lumber Materials" group listed on Schedule A because they are covered by other orders (Orders L-358 and L-359).

This Schedule also does not apply to deliveries of any "prefabricated houses, sections, and panels." They are covered by Direction 8 to PR 33.

DEFINITIONS

(b) *Definitions.* For the purposes of this schedule:

(1) "Distributor" means any of the following:

(i) A person (including, but not limited to, wholesalers, jobbers, dealers) who sells to users.

(ii) A retail outlet (including, but not limited to, the following: mail order houses, department stores, hardware stores, appliance stores, appliance sales departments of public utility companies, etc.)

(iii) A manufacturer's factory branch sales offices which sell to users.

(iv) A manufacturer (to the extent that he sells directly to users and not through factory branch sales offices).

(2) "User" means any person who buys for use instead of for resale. This includes, but is not limited to, the following:

(i) A builder, prefabricator, or house trailer manufacturer.

(ii) A person buying from a retail outlet.

(iii) A person buying for a structure, property, or installation owned, occupied, or managed by him.

(iv) A person who installs what he sells (such as a plumbing contractor, wiring contractor, etc.) The performance of such service as the mere connecting of a stove to an existing gas line in a structure does not constitute "installing" for the purpose of this definition.

EXTENSION OF RATINGS

(c) *What "extension" of ratings means.* Some of the new provisions of this schedule involve the matter of "extension" of ratings. This matter is explained in Priorities Regulation 3, but a brief generalized explanation is as follows (this is merely explanatory and its application to particular materials depends on the various provisions in the schedule).

In general, people may place rated orders in one of two ways (the distinction between the two is important):

(1) *By "application."* When a rating is used by a person to whom it was originally issued (or by a person he has authorized to use it), he is "applying" it to his supplier.

(2) *By "extension."* When a person receives a rated order from a customer and passes the rating on to his supplier, he is "extending" the rating. The cases in which HHH and HH ratings may be extended are explained below.

(d) *HHH and HH ratings are not extendible by manufacturers.* HHH and HH ratings are never extendible by manufacturers (as such).

(e) *When HHH and HH ratings are extendible.* In general, distributors and other suppliers may not extend HHH and HH ratings. However, they may extend such ratings for certain materials, subject to certain conditions. In these cases, the ratings may be extended by them to get the material to be delivered on the rated orders involved. The procedure for extending ratings is explained in Priorities Regulation 3.

(1) *Limited extendibility.* For the following materials,[1] HHH and HH ratings may be extended to suppliers except manufacturers (as such):

Nails.
Pipe, steel and wrought iron.
Pipe fittings (cast and malleable).
Pipe nipples, steel and wrought iron.
Sheet, copper.
Sheet, galvanized steel.
Tubing, copper.
Tubing (copper) fittings.

(2) *Complete extendibility.* For the following materials,[1] HHH and HH ratings may be extended to suppliers, including manufacturers (as such):

Brick, common and face, clay.
Brick, sand lime.
Concrete block and brick.
Tile, structural clay.

(f) *Special rule for certified-HH ratings.* "Certified-HH" ratings may be issued, under Direction 11 to PR 33, for the following materials, for use in FPHA projects: building board, cast iron soil pipe, and gypsum board. A "certified-HH" rating is extendible to suppliers, including manufacturers.

SET-ASIDE PROVISIONS

(g)-(k) [Revoked Dec. 31, 1946.]

"CEILING" PROVISIONS

(l) *Purpose of "ceiling."* In general, rated orders must be accepted and filled in accordance with the basic priorities rules of Priorities Regulation 1. One of those rules is that rated orders must be accepted and filled in preference to unrated or lower rated orders. The "ceiling" provisions of this Schedule modify that basic rule by putting a limit on the amount of his supply a person has to use in filling rated orders.

It is not necessary to hold any supply in expectation of receiving rated orders.

(m) *Operation of "ceiling."* A person who is required to fill rated orders for a Schedule A material does not have to use more than his "ceiling" amount to fill such orders. (AAA rated orders are an exception to this rule. While amounts delivered on AAA orders may be charged against the ceiling, a person may not refuse to fill a AAA rated order merely on the ground that it will exceed his ceiling.)

The distributor may set his own unit of measure in figuring the ceiling. Ordinarily, the customary way of billing the material in the industry should be used, such as units on things like stoves, pounds for insulated copper wire, square feet for screen cloth, etc.

The figuring and application of ceilings depend on whether or not HHH and HH ratings are extendible for the particular material involved. The following paragraphs (n) and (o) explain this in more detail.

(n) *Ceilings for materials for which HHH and HH ratings are not extendible.* In the case of materials for which HHH and HH ratings are not extendible, the ceiling applies to the distributor only. The ceiling is 75% of the distributor's deliveries to users during the month.

(o) *Ceilings for materials for which HHH and HH ratings are extendible.* In the case of materials for which HHH and HH ratings are extendible, the figuring and application of ceilings depend on whether or not these ratings are extendible to the manufacturer.

(1) *Percentage ceiling for "complete-extendibility" materials.* In the case of a material for which HHH and HH ratings are extendible to a manufacturer, the percentage ceiling applies to him. His ceiling is 75% of the total amount scheduled for production during the month. This applies to the materials listed in paragraph (e) (2).

(2) *Percentage ceiling for "limited-extendibility" materials.* In the case of a material for which HHH and HH ratings are extendible to any supplier except a manufacturer (as such), the percentage ceiling applies to the supplier who gets his supply from the manufacturer (as such). The supplier's ceiling is 75% of the total quantity delivered by him during the month. This applies to the materials listed in paragraph (e) (1).

(3) *General ceiling for other suppliers of "extendibility" materials.* In the case of a material for which HHH and HH ratings are extendible, the ceiling for any distributor or other supplier who extends the rating is generally the amount he gets by extending those ratings. He must redeliver these (or equivalent) amounts on the orders bearing the ratings he extended. Generally, the amounts he gets without extending ratings (i. e., "free supply") need not be used to fill rated orders.

APPORTIONMENT OF SALES BETWEEN USERS AND OTHERS

(p) *Minimum percentage for users.* Where a person normally sells both to users and to persons buying for resale, he must continue to sell to both those classes of customers. The portion he sells to users must be at least as large, percentage-wise, as the portion he has usually sold to that class of customers in the past. He may sell more than that percentage to users and should do so when it will help the Veterans' Emergency Housing Program. While this percentage requirement is an exception from the rules of Priorities Regulation 1, the other rules of that regulation apply to his handling of rated orders from users.

(q) *Special rule for nails.* The former special rule for apportioning sales of

[1] When any material is mentioned by name in this schedule, the material is the same as the corresponding item on Schedule A, unless it is specifically made less inclusive than the Schedule A item. In no case does it include anything not included in the Schedule A item.

nails between users and persons buying for resale is revoked. Instead, the apportioning rule of paragraph (p) now applies to nails,[1] as well as to the other materials in Schedule A to PR 33.

(r) *Exclusion of certain quantities in figuring ceilings.* In the case of materials for which a distributor's ceiling is based on deliveries to users, his ceiling figuring does not have to include amounts delivered to persons who are not users if those deliveries are made in conformity with paragraph (p) above. (This rule does not apply to any materials for which HHH and HH ratings are extendible, as listed in paragraph (e) above.)

For instance, where a manufacturer of sinks makes some deliveries directly to users, those deliveries are subject to this Schedule and he is a "distributor" with respect to them. However, the ceiling provisions of this Schedule do not apply to the rest of his deliveries, if they are not made to users.

Also, where a person delivers to a distributor, the ceiling provisions do not apply to the person making the delivery for those quantities but do apply to the person who receives them. This is an example of the rule. If a distributor delivers 100 sinks during a month, he would normally be required to deliver up to 75 (75% of 100) on rated orders, if received. If, however, he legitimately delivers 40 of the 100 to another distributor, then he need apply the ceiling provisions to 60 sinks only and deliver up to 45 (which is 75% of 60) on rated orders, if received.

However, in these cases he must make a complete record of the transaction and adjust the records which he is required to keep under paragraph (y) accordingly.

(s) *Inclusion of direct shipments in figuring ceilings.* A distributor must include any direct shipments which he arranges to have made by his supplier directly to his customer for his own account. These kinds of shipments count against the distributor's ceiling, and the distributor must handle these shipments just as if the material had actually been delivered from his stock. It is the distributor's job to make arrangements with the manufacturer so that these shipments the manufacturer makes are in accordance with those that the distributor can make under this schedule.

OTHER SPECIAL PROVISIONS

(t) *Rated orders must be accepted.* A person required to accept rated orders under this schedule must not turn down a rated order merely because he does not have the material ordered in stock or because it would exceed his ceiling. He must accept the order, and keep it on hand to fill it as soon as possible (subject to the ceiling provisions), and he must tell his customer how soon he expects to be able to fill it.

(u) *Manufacturer's scheduling for HHH, HH, and CC ratings.* When a manufacturer receives, and is required to accept, any rated order, including an HHH, HH or CC rated order (by extension or by application), he must schedule it as required by Priorities Regulation 1.

(v) *Materials for which manufacturers need not accept any HHH or HH rated orders.* (1) For the following materials[1], HHH and HH rated orders may not be served on a manufacturer and have no effect on him (see paragraph (v) (3) below):

Cable
Fabricated reinforcing rod and mesh
Nails
Pipe, steel and wrought iron
Pipe, fittings (cast and malleable)
Pipe nipples, steel and wrought iron
Sheet, copper
Sheet, galvanized steel
Stucco mesh
Tubing, copper

These items have been marked with an asterisk in Schedule A to PR 33.

(2) For any of the following materials,[1] a manufacturer who sells to dealers directly (and not through factory branch sales offices) need not accept HHH and HH rated orders from a dealer even if the dealer has been authorized to use such a rating as a subcontractor:

Asphalt tile floor covering
Boilers, low pressure
Controls, temperature and combustion
Furnaces, floor, wall
Furnaces, warm air
Oil burners, domestic

(3) Subparagraphs (v) (1) and (v) (2) above do not mean, by implication, that HHH and HH rated orders may be served on manufacturers for the Schedule A materials not mentioned. This question is controlled by other rules (Priorities Regulation 1 and other applicable regulations). The special rules in those subparagraphs merely mean that, for the materials mentioned, HHH and HH rated orders may not be served on the manufacturers involved even if other applicable rules might otherwise permit that.

(w) *Refusal of outside-area orders.* A producer or other supplier may refuse to accept an HHH or HH rated order for any material listed below for delivery by him in any area to which he has not delivered it in the five years preceding receipt of this order. A new producer or dealer may not apply this basis for refusal to accept such rated orders for delivery in his local trading area. This paragraph applies to the following materials[1]:

Brick, common and face, clay.
Brick, sand lime.
Concrete block and brick.
Tile, structural, clay.

(x) *Applicability of this schedule to AAA rated orders.* This schedule does not limit acceptance of AAA rated orders or deliveries on AAA rated orders.

RECORDS

(y) *Records.* Each person entitled to apply a ceiling under this Schedule must keep records in such a way that, upon request of authorized government representatives, he can show for each material, how much he delivered with or without ratings, separately, after the material was put on Schedule A.

NOTE: Former undesignated subparagraph re required set-aside deleted Dec. 31, 1946.

These various records must be kept so that each rated purchase order placed with him can be easily identified. (These record requirements are in addition to those of Priorities Regulation 1.)

MISCELLANEOUS PROVISIONS

(z) *Communications.* All communications about this Schedule should be addressed to the Civilian Production Administration, Washington 25, D. C., Ref: Schedule B to PR 33.

PART 944—REGULATIONS APPLICABLE TO THE OPERATIONS OF THE PRIORITIES SYSTEM

[Priorities Reg. 33, Direction 13, as Amended Dec. 31, 1946]

PRODUCTION AND SALE OF HOUSE TRAILERS UNDER THE VETERANS' EMERGENCY HOUSING PROGRAM

The following amended direction is issued pursuant to Priorities Regulation 33:

(a) *What this direction does.* Under this direction, trailer manufacturers have been given priorities assistance for use in getting certain materials to be used in the manufacture and sale of certain kinds of house trailers. The assistance was given on Form NHA 14-44, for the latter part of 1946 only. No further assistance is being given under this direction. Therefore, trailer manufacturers may not use the authorizations (Form NHA 14-44) to place orders after December 31, 1946. Unfilled HH-rated or certified orders placed before that date and calling for delivery by that date remain valid for delivery after that date.

The restrictions of this direction continue to apply to the manufacturers' use of materials obtained with priorities assistance and to the manufacturers' and dealers' sales of house trailers manufactured with such materials.

In general, the restrictions on the manufacture of house trailers are directed at channeling materials into moderate cost house trailers suitable for full-time housing use, and the sales restrictions are directed at channeling house trailers to purchasers needing them for full-time house use and at giving preference to veterans of World War II in buying house trailers for that purpose.

Definitions

(b) *Definitions.* For the purpose of this direction:

(1) "House trailer" means a mobile shelter made in a factory and designed as follows: (i) to be used as housing accommodations, (ii) to be towed on the public highway on an undercarriage attached to the shelter as a permanent integral part of it, and (iii) to be used or towed without dismantling or substantial change in external dimensions. Except where otherwise specified in this direction, this term includes a house trailer designed as above but sold in "demounted" condition (i. e., without an undercarriage).

(2) "VEHP house trailer" means a house trailer manufactured with the use of priorities assistance under the Veterans' Emergency Housing Program.

(3) "Trailer manufacturer" means any person engaged in the business of manufacturing house trailers for sale.

(4) "Institutional purchaser" means an educational institution or public organization buying one or more house trailers to provide housing accommodations for veterans or for local emergency housing situations.

(5) [Deleted Dec. 31, 1946.]

(c)-(f) [Revoked Dec. 31, 1946.]

Restrictions on Manufacturers

(g) *Use of materials.* A trailer manufacturer may use materials obtained under this direction only for the manufacture of house trailers in moderate-cost models of the types for which priorities assistance was granted. A "moderate-cost model" is one which, under the maximum price regulations of the Office of Price Administration applicable on November 9, 1946, had a maximum retail price of not more than (1) $2500 with at least minimum standard equipment included or (2) $2500 minus the maximum retail list prices or other appropriate amounts for any minimum standard equipment not included.

"Retail price" means retail price f. o. b. plant, exclusive of the manufacturer's federal excise tax and exclusive of any state and local sales taxes customarily separately stated by the seller as being in addition to the selling price. "Minimum standard equipment" means the equipment and furnishings necessary to provide livable housing accommodations, including at least the following: (1) sleeping facilities for at least four persons, (2) heating unit, (3) interior-lighting equipment, (4) cooking unit, (5) refrigerator, (6) sink, (7) work table, and (8) storage facilities.

(h) *Identifying marking.* Any house trailer in which materials obtained under this direction have been used must be marked by the trailer manufacturer to identify it as a VEHP house trailer. This is to be done by adding the letters "VEHP" to the serial number stamped, stencilled, or otherwise placed on the house trailer.

(i) *Prohibited sales.* A trailer manufacturer must not sell a VEHP house trailer to any purchaser except to one of those specified in paragraph (j) below. In addition, he must not sell it even to such a purchaser if he knows, or has reason to believe, that it will be acquired or disposed of in violation of this direction.

(j) *Permitted sales.* A trailer manufacturer may sell VEHP house trailers to the following purchasers, under the conditions specified.

(1) He may sell a mounted or demounted house trailer to a dealer from whom he has received a copy of a dealer's statement as described in paragraph (1) below.

(2) He may sell a mounted or demounted house trailer to an institutional purchaser eligible under paragraph (p) below.

(3) He may sell a mounted house trailer to an individual purchaser who is eligible under paragraph (p) below, and who, in addition, establishes veterans' preference under paragraph (q) below.

(k) *Report of direct sales.* If a trailer manufacturer sells a VEHP house trailer to any purchaser except a dealer, he must promptly make out a report of the sale on Form NHA 14-45, in triplicate, and have the purchaser fill out the purchaser's-statement section of the form. The trailer manufacturer should give one copy to the purchaser, keep one copy for his files, and, by the last day of the month, send the original to the National Housing Agency, Washington, D. C.

Restrictions on Dealers

(l) *Filing of "dealer's statement".* A dealer may not accept delivery of a VEHP house trailer from the trailer manufacturer unless he has filed a "Dealer's Statement" with the National Housing Agency, Washington 25, D. C., and, in addition, has sent a copy of that statement to the trailer manufacturer. A dealer who has filed a "Dealer's Statement" with the appropriate State or District Office of the Federal Housing Administration need not file again with the National Housing Agency. The "Dealer's Statement" shall be in writing and in substantially the following form:

DEALER'S STATEMENT

I certify to the Civilian Production Administration and to the National Housing Agency that I am a dealer in house trailers; that I wish to become eligible to receive house trailers manufactured under the Veterans' Emergency Housing Program; that I am familiar with the dealers' restrictions in Direction 13 to Priorities Regulation 33 (issued by the Civilian Production Administration), including the 60-day veterans' preference; and that I will comply with the terms of that direction in making sales of VEHP house trailers.

Name of Dealer's Firm

Address

Title of Authorized Official

Date

(m) *Prohibited disposition.* A dealer may not dispose of a new VEHP house trailer except by sale to any purchaser specified in paragraph (n) below. In addition, he must not sell it even to such a purchaser if he knows or has reason to believe, that it will be acquired, or disposed of, in violation of this direction.

(n) *Permitted sales.* A dealer may sell a VEHP house trailer to any of the following purchasers under the conditions specified:

(1) *Demounted VEHP house trailers.* A dealer may sell a new demounted VEHP house trailer only to an institutional purchaser eligible under paragraph (p) below. Such a sale may be made at any time.

(2) *Mounted VEHP house trailers.* A dealer may sell a new mounted VEHP house trailer to an institutional purchaser eligible under paragraph (p) below. Such a sale may be made at any time. A dealer may also sell a new mounted VEHP house trailer to an individual purchaser who is eligible under paragraph (p) below. He may make such a sale at any time, if the eligible purchaser establishes veterans' preference under paragraph (q) below. However, he may sell it to any other eligible individual purchaser only after publicly offering it, for 60 days, for sale to purchasers with veterans' preference. In making a public offering, the dealer must keep the trailer on display and must conspicuously post, at his place of business, a sign stating that he has VEHP house trailers for sale to purchasers with veterans' preference. The sign shall be at least 9" x 12" in size.

(o) *Dealer's report of sale.* After each sale of a VEHP house trailer, the dealer shall promptly make out a report of the sale on Form NHA 14-45, in quadruplicate, and have the purchaser fill out the purchaser's section of the form. The dealer should give one copy to the purchaser and one copy to the manufacturer from whom he received the house trailer, keep one copy for his files, and by the last day of the month send the original statement to the National Housing Agency, Washington 25, D. C.

Eligible purchasers and veterans' preference

(p) *Eligible purchasers.* A purchaser who is not a dealer is eligible to buy a new VEHP house trailer under the following circumstances only:

(1) *Individual purchasers.* An individual may buy a mounted VEHP house trailer only if (i) he is buying it for his own full-time housing use and (ii) he certifies to that purpose in writing. Certification is to be made on the purchaser's statement section of the Form NHA 14-45 Report of Sale, which is to be provided by the seller. An individual in this class is entitled to preference over other individuals in the same class if he is eligible for, and establishes, veterans' preference under paragraph (q) below.

(2) *Institutional purchasers.* An institutional purchaser may buy one or more mounted or demounted VEHP house trailers only if (i) it is buying them to provide housing facilities for veterans or for local emergency housing situations, (ii) it certifies to that purpose on the purchaser's-statement section of Form NHA 14-45, and (iii) it shows, to the seller, a written statement from the Federal Public Housing Authority, signed by an authorized official, stating that it considers the specified number of house trailers necessary and desirable for the purpose. (See paragraph (r) below about the applicability of VHP-1 to installation of demounted house trailers.)

(q) *Eligible purchasers with veterans' preference.* An individual purchaser is entitled to veterans' preference in buying a new VEHP house trailer under the following circumstances only: (1) he must be eligible under paragraph (p) above, (2) he must be in one of the classes on List 1 to this direction, (3) he must certify to that status in writing, and (4) he must show satisfactory documentary evidence of that status to the seller of the house trailer. Certification is to be made on the purchaser's-statement

section of the Form NHA 14-15 Report of Sale, which is to be provided by the seller.

Other Provisions

(r) *Applicability of VHP-1.* The installation of a demounted house trailer on a foundation would be "construction" under Veterans' Housing Program Order 1, and, in general, requires authorization under that order. Application for such authorization should be made to the appropriate regional office of the Federal Public Housing Authority.

(s) *Communications and appeals.* Communications regarding the provisions of this direction, and appeals from those provisions, should be sent to the National Housing Agency, Washington 25, D. C. Ref: Dir 13 to PR 33. An appeal should be made by letter, in triplicate, stating the particular provision appealed from and the full grounds for the appeal.

(t) *Violations.* Any person who wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control and may be deprived of priorities assistance.

(u) *Reporting and record requirements approved.* The reporting and record requirements of this direction have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 31st day of December 1946.

PART 3285—LUMBER AND LUMBER PRODUCTS

[Limitation Order L-359, as Amended Dec. 31, 1946]

LUMBER, HARDWOOD FLOORING AND MILLWORK

There is a shortage in the supply of lumber, hardwood flooring and millwork for defense, for private account and for export. Lumber, millwork and hardwood flooring are necessary for the construction and completion of housing accommodations in rural and urban areas and for the construction and repair of essential farm buildings, and special priorities for the deliveries of lumber, millwork, and hardwood flooring for these purposes are established in Schedule A to Priorities Regulation 33. This order is necessary and appropriate in the public interest, to promote the national defense and to effectuate the purposes of the Veterans' Emergency Housing Act of 1946.

§ 3285.153 *Limitation Order L-359*—(a) *What this order does.* This order provides that sawmills shall produce a percentage of their total production of softwood lumber in housing construction lumber. It applies to all sawmills and to lumber suppliers, manufacturers of millwork, hardwood flooring and house trailers, prefabricators and builders and other consumers who have been assigned priorities assistance. Rated orders must be accepted and filled as provided in Priorities Regulation 1. However, a ceiling is provided for rated orders and the filling of unrated orders is permitted where the filling of such orders will not interfere with the filling of rated orders.

Definitions

(b) *Definitions for the purpose of this order.*

(1) "Lumber" means any sawed lumber of any species, size, or grade, including rough, surfaced on one or more sides or edges, dressed and matched, shiplapped, worked to pattern, or grooved for splines, except (i) shingles, slabs and round edge lumber; (ii) mine and railway cross ties nine feet or less in length; (iii) any segment of a log which has been produced so that it can be converted into veneer and which is sold and used for that purpose.

(2) "Housing construction lumber" means softwood lumber in the form of flooring, ceiling, siding, partition, casing, base, moulding stock, strips and boards, two-inch dimension, finish, shop and lath.

(3) "Hardwood flooring lumber" means Grades 2 and 3a common, of rough Oak, Hard Maple, Beech and Birch in 5/8, 4/4 and 5/4 thicknesses; and Grades 2 and 3 common, of rough Pecan in 5/8, 4/4 and 5/4 thicknesses.

(4) "Millwork" means only sash, windows, doors, interior and exterior frames for the foregoing, combination doors and garage doors; storm sash and storm doors; window, sash and door screens; porch columns, louvres and newels; standing interior trim for doors and windows and cased openings; crown, bed, cove, brick, screen, panel, band and cornice mouldings; quarter, half and full rounds; window and door steps; nosing; screen, sash, sill and frame stock; hook strip, corner and glass bead; chair, porch and hand rails; shelf cleat; panel strips; stools and aprons; lattice; drip cap and water table; back bank, cap trim, floor and base moulding; astragals, and baluster stock; mantels; built-in kitchen cabinets, medicine cases, china cabinets, ironing boards and linen closets.

(5) "Sawmill" means: (i) a person operating any mill or plant, stationary or portable, that produces lumber. The term includes a person who has logs manufactured into lumber by a sawmill, except a person who has less than 5,000 feet a quarter of his own logs sawed into lumber for his own use; (ii) a person operating any plant or concentration yard which processes (by drying, resawing, edging, grading, sorting, planing, or otherwise) 25 percent or more of the total volume of logs and lumber which it receives, into an item which is defined as lumber. However, the term "sawmill" does not include any establishment known in the trade as a distribution yard, even though owned by a sawmill, engaged in either retail or wholesale business and even though it may process, for the servicing of special orders from consumers, more than 25 percent of the lumber it receives.

(6) "Distributor" means any person who buys and stocks millwork or hardwood flooring for resale and lumber for resale as lumber either at wholesale or retail. The term "distributor" also includes any establishment owned or operated by a sawmill where lumber is sold at either wholesale or retail. A distributor who has two or more distinct and separate yards must for the purpose of this order, consider each yard a "distributor".

(7) "Cut-stock manufacturer" means a person who supplies from his production plant stock surfaced 2-sides, cut to approximate net sizes for the manufacture of doors, sash, check rail and plane rail windows, exterior frames and inside jambs. Cut-stock for doors, windows and sash consists of stock cut to approximate net sizes S2S and not further machined for stiles, rails, bars, muntins, meeting rails and facings for door stiles. Cut-stock for frame parts consists of stock cut to approximate net sizes S2S and not further machined for pulley stiles, blind and parting stops, outside casings, sills, drip cap and brick mould.

Sawmills

(c) *Sawmills*—(1) *Softwood lumber.* Each sawmill shall manufacture at least 50% of its total monthly production of softwood lumber in the form of housing construction lumber. 85% of all 8/4 and thinner Douglas Fir shop and Western Pine shop including No. 3 clears must be sold only to millwork and cut-stock manufacturers or to persons who certify in writing they will sell to millwork or cut-stock manufacturers. A sawmill need not accept or fill rated orders for more than 50% of its total production of softwood lumber in any month. It may not fill MM rated orders for more than 5% of its total production of softwood lumber in any month.

(2) *Hardwood lumber.* Each sawmill shall sell only to hardwood flooring manufacturers, or to persons who certify in writing they will sell to hardwood flooring manufacturers, all the hardwood flooring lumber it produces.

(3) *Seasoning.* Where it is the customary practice of a sawmill to season lumber by air drying, and the lumber is properly piled for seasoning and carried in inventory for this purpose, such lumber will not be considered as produced until seasoned for the customary period.

(4) *Orders must be accepted or rejected promptly.* A sawmill must accept or reject rated orders in writing within 5 days of receipt. Reasons for rejection of a rated order must be stated.

Distributors

(d) *Distributors.* (1) A distributor is authorized to apply an HH rating on orders for delivery each quarter for housing construction lumber for the greater of the following amounts:

(i) an amount of housing construction lumber not exceeding 15% of the amount of footage in inventory of all softwood lumber as of January 1, 1942, or

(ii) two carloads of housing construction lumber at the rate of not more than one carload in any month of the quarter.

Distributors who apply a rating under (i) or (ii) above must use the certificate provided in paragraph (i) below.

(2) Instead of applying an HH rating as provided in paragraph (d) (1) above, a distributor may in any quarter extend HH ratings for the amount of housing construction lumber which he will deliver or has delivered on HH rated orders accepted by him for delivery in that quarter. Rated orders placed with a distributor before October 1, 1946, may not be extended.

(3) A distributor must sell only to millwork or cut-stock manufacturers, or persons who certify that they will sell only to millwork or cut-stock manufacturers, 85% of all 8/4 and thinner Douglas Fir shop and Western Pine shop including No. 3 clears received in any quarter on unrated orders.

(4) A distributor need not use more than 50 percent of the softwood lumber received in any quarter on HH rated orders placed under paragraph (d) (1) (i) or (ii) to fill rated orders.

(5) A distributor need not use more than 50 percent of the lumber he receives in any quarter on unrated orders to fill rated orders.

(6) A distributor may not fill MM rated orders for more than 10 percent of his total receipts in any quarter of softwood lumber.

Millwork and Cut-Stock Manufacturers

(e) *Millwork and cut-stock manufacturers*—(1) *Extension of HH ratings.*

(i) A millwork or cut-stock manufacturer who receives HH rated orders may extend the HH rating to his supplier for the housing construction lumber or cut-stock to be incorporated or used in the millwork or cut-stock to be delivered on HH rated orders.

(ii) Where a millwork or cut-stock manufacturer has already delivered millwork or cut-stock on an HH rated order, he may extend the rating for the amount of housing construction lumber or cut-stock he used in the manufacture of the millwork or cut-stock delivered on the HH rated order.

(2) A millwork manufacturer need not accept or fill rated orders for millwork manufactured from lumber received on unrated orders.

Hardwood Flooring Manufacturers

(f) *Hardwood flooring manufacturers*—(1) *Extension of ratings.* (i) A hardwood flooring manufacturer who receives HH rated orders may extend the HH rating to his supplier for the hardwood flooring lumber to be incorporated or used in the hardwood flooring to be delivered on HH rated orders.

(ii) Where a hardwood flooring manufacturer has already delivered hardwood flooring on HH rated orders, he may extend the HH rating for the amount of hardwood flooring lumber he used in the manufacture of the hardwood flooring delivered on HH rated orders.

(2) A hardwood flooring manufacturer need not accept or fill rated orders for hardwood flooring manufactured from hardwood flooring lumber received on unrated orders.

Builders, Prefabricators and House Trailer Manufacturers

(g) *Builders, prefabricators and house trailer manufacturers.* A builder, prefabricator or house trailer manufacturer may place HH rated orders for a quantity of housing construction lumber, millwork or hardwood flooring for which he has received priorities assistance. While Schedule A to Priorities Regulation 33 lists residential hardwood flooring only, HH ratings may be used by the above persons to obtain any suitable hardwood flooring.

Integrated Operations

(h) *Integrated operations.* A person having integrated operations which are subject to this order must treat each operation as a separate unit. Each unit must conform to all the applicable provisions of this order.

Certificate for Application of Rating by Distributors

(i) *Certificate for application of rating by distributors.* (1) A distributor applying an HH rating to an order for housing construction or hardwood flooring lumber under paragraph (d) (1) (i) or (ii) must endorse on or attach to the purchase order, sales ticket or other delivery orders, the following certificate:

VETERANS' EMERGENCY HOUSING PROGRAM

I certify to the U. S. Government that HH rating has been assigned for the materials covered by this order. The quantities covered by this order (together with the quantities called for by all other rated HH or certified orders placed with this or other suppliers for softwood lumber for delivery in the quarter specified in this order) do not exceed the amount permitted under Limitation Order L-359 with the provisions of which I am familiar.

Date ---------- ----------
(Signature)
(Distributor).

(2) The certificate must be signed manually or as explained in Priorities Regulation 7. However, the standard form described in that regulation may not be used in place of certificate described in this order. The certification required by this order may not be waived under paragraph (f) of Priorities Regulation 7.

Miscellaneous

(j) The following provisions generally affect all persons operating under this order and should be carefully read:

(1) *Extension of ratings.* Rules for extendibility of the HH ratings are set out in paragraph (d), (e) and (f). The extendibility of all other ratings is governed by the rules of Priorities Regulation 3.

(2) *Treatment of certified orders.* Any person who before January 1, 1947, has received an order certified under Order L-359, dated October 18, 1946, must treat such order as an HH rated order. Any person authorized to place HH ratings under this order must reduce the quantity of lumber for which he placed the HH ratings by the quantity of his unfilled certified orders for lumber on January 1, 1947.

(3) *Applicability of regulations.* Except as otherwise required by this order, Priorities Regulations 1 and 3 continue to govern the use of ratings and the acceptance, scheduling and filling of orders. All other applicable regulations and orders of the Civilian Production Administration must be observed where not inconsistent with this order.

(4) *Violations.* Any person who wilfully violates any provision of this order or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priorities control and may be deprived of priorities assistance.

(5) *Reports.* Every person shall file with the Civilian Production Administration, or any other federal agency designated by the Civilian Production Administration such reports and questionnaires as the Civilian Production Administration or such other agency may from time to time require subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(6) *Directives.* The Civilian Production Administration may issue directives requiring sawmills, millwork manufacturers, cut-stock manufacturers or hardwood flooring manufacturers or distributors to set aside specific quantities or percentages of production or shipment for persons placing rated orders. CPA may also allocate production or shipment to specified persons for specified uses, and may direct how and in what quantities deliveries to specified persons or uses may be made. It may also direct distribution to particular areas and may direct or prohibit the production by any persons of particular items of lumber, millwork, cut-stock or hardwood flooring. Directives according to their terms may take precedence over rated orders. They may be issued for the satisfaction of Veterans' Emergency Housing Program and other essential requirements, and in order to carry out more fully the purposes of this order.

(7) *Appeals.* An appeal from the provisions of this order should be made by mailing a letter in triplicate to the Civilian Production Administration, Forest Products Division, Washington 25, D. C., Ref.: L-359, or to the Civilian Production Administration, Portland, Oregon, Ref.: L-359, when made by persons in the states of Washington, Oregon, California, Idaho, Wyoming, Montana, Nevada, Utah, Colorado, Arizona, New Mexico, or South Dakota, stating the particular provision appealed from and stating fully the grounds for the appeal.

(8) *Communications.* All communications unless otherwise directed must be addressed as follows: Civilian Production Administration, Forest Products Division, Washington 25, D. C.

(9) *Effective date.* This amended version of Order L-359 shall become effective January 1, 1947. Order L-359 dated October 18, 1946, shall remain in effect until January 1, 1947.

Issued this 31st day of December 1946.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Supplementary Order M-317A, Direction 2]

TERMINATION OF SET-ASIDES FOR EXPORTS (INCLUDING THOSE TO CANADA), AND CERTAIN CC RATINGS FOR COTTON FABRICS FOR EXPORT

The following direction is issued pursuant to Supplementary Order M-317A:

(a) *Set-asides for export.* Effective January 1, 1947, the set-asides for cotton fabrics in Order M-317A for export (other than to Canada), and for export to Canada, are ended. These set-asides are contained in paragraph (g), and in Columns 9 and 10 of the Distribution Tables. Beginning January 1, 1947, producers may deliver cotton fabrics without regard to the above set-asides.

(b) *Preference ratings for export.* All CC preference ratings issued before January 1, 1947, for any cotton fabrics, for export to Canada, or to any other foreign country (but not the territories and possessions of the United States), are revoked, effective January 1, 1947. Any person who has obtained any of such cotton fabrics with a certificate provided for the above set-asides, or with a CC rating assigned for export, may now use and dispose of the fabric or products made from the fabric, without regard to the provisions of the certificate, or of Order M-317A, or the purpose for which the rating was granted.

Issued this 31st day of December 1946.

Chapter XXIII—War Assets Administration

[Reg. 11]

PART 8311—PROCEEDS AND EXPENSES

Surplus Property Administration Regulation 11, January 15, 1946, as amended through May 14, 1946, entitled "Proceeds and Expenses" (11 F. R. 636, 1990, 5355) is hereby further revised and amended as herein set forth as War Assets Administration Regulation 11. Order 1, December 11, 1946 (11 F. R. 14288), Order 2, August 16, 1946 (11 F. R. 9079), and Order 3, November 27, 1946 (11 F. R. 14104), under this part, shall continue in full force and effect.

AUTHORITY: §§ 8311.1 to 8311.12, inclusive, issued under the Surplus Property Act of 1944, as amended (58 Stat. 765, as amended; 50 U. S. C. App. Sup. 1611); Pub. Law 181, 79th Cong. (59 Stat. 533; 50 U. S. C. App. Sup. 1614a, 1614b); E. O. 9689 (11 F. R. 1265); and Pub. Law 521, 79th Cong. (60 Stat. 721).

§ 8311.1 *Definitions*—(a) *Terms defined in act.* Terms not defined in paragraph (b) of this section which are defined in the Surplus Property Act of 1944 shall in this part have the meaning given to them in the act.

(b) *Other terms.* (1) "Disposition" means disposal to a person other than a Government agency.

(2) "Transfer" means disposal to a Government agency.

§ 8311.2 *Scope.* This part shall apply to transfers and dispositions within the continental United States, its territories and possessions.

§ 8311.3 *Proceeds to be covered into Treasury.* Except as provided in subsections (b), (c) and (d) of section 30 of the act, all proceeds from transfer or disposition of property under the act (including rents, interest, other proceeds) shall be set aside in the special fund account in the Treasury, authorized in the First Deficiency Appropriations Act, 1946.[1] Sums deducted from gross proceeds under section 30 (b) of the act to determine net proceeds shall be set aside in such special fund account in the Treasury. Under no circumstances may a disposal agency designated by the Administrator retain all or any part of the proceeds from any transfer or disposition under the act as reimbursement for the cost or expense of care, handling, disposition, or transfer of surplus property. Deposits or other payments forfeited by the purchaser shall not be considered to be proceeds from transfer or disposition of surplus property; such forfeitures shall not be set aside in a special fund account in the Treasury but shall be covered into miscellaneous receipts of the Treasury.

§ 8311.4 *Net proceeds.* (a) Where the property transferred or disposed of was acquired by the use of funds either not appropriated from the general fund of the Treasury or appropriated from the general fund of the Treasury but by law reimbursable from assessment, tax, or other revenue or receipts, then upon the request of the interested agency, the net proceeds of the disposition or transfer shall be credited to the reimbursable fund or appropriation or paid to the owning agency. As used herein, the term "net proceeds of the disposition or transfer" means the proceeds of the disposition or transfer minus all expenses incurred for care and handling and disposition or transfer. On and after December 1, 1946, except as otherwise provided herein, net proceeds shall be computed by deducting twenty (20) per cent from the gross proceeds of disposition or transfer when and as net proceeds are paid to the owning agency by the disposal agency and regardless of when the sale was made or collection effected. Unless otherwise provided herein such deduction shall be deemed to represent all expenses incurred by or for the account of the disposal agency for care, handling, and disposition or transfer. This percentage may be revised from time to time by the Administrator to reflect substantial changes in the over-all cost of care, handling, and disposition of surplus property.

(b) Substantial expenditures for capital improvements or demolition made or incurred by a disposal agency in addition to the normal expense of care, handling and disposition or transfer shall be deducted from the proceeds before computing net proceeds. Percentage deductions to determine net proceeds shall be computed on the balance remaining after deducting such substantial expenditures.

(c) When sales are made on credit, the percentage deductions shall be computed by applying said percentage deductions to such collections when and as paid to the owning agency by the disposal agency. All interest collected on credit sales shall be deposited in the special fund account in the Treasury.

(d) Rents received shall be deemed to be proceeds, and on and after December 1, 1946, the twenty (20) percent deduction shall be made from each collection in the manner specified in paragraph (a) of this section.

(e) No part of the proceeds received by a disposal agency from the sale of surplus property as scrap or salvage or from charges made on donations shall be deemed to be net proceeds, and all such proceeds shall be deposited in the special fund account in the Treasury.

(f) With the approval of the Administrator in cases where the disposal agency demonstrates that it has not incurred any expenses or has incurred only negligible expenses of care, handling, disposition, or transfer, the disposal agency may make payment to, or credit the appropriate account of, an agency entitled to such proceeds to the extent of the entire proceeds without deduction.

(g) If it is impossible to determine the applicable gross proceeds (by reason of commingling of property or otherwise), disposal agencies shall deposit the gross proceeds into the special fund account in the Treasury, as required in § 8311.3 of this part.

(h) If practicable, before deposit in the special fund account, disposal agencies may, in the case of commingling, make such payment or credit from the proceeds of the transfers or dispositions of similar property transferred or disposed of directly after the receipt of the surplus declaration.

§ 8311.5 *Refunds and claims.* Disposal agencies may make refunds and may make payments in settlement of claims pursuant to and to the extent authorized by section 30 (c) of the act. Disposal agencies shall not withhold, from deposit into the special fund account in the Treasury, any part of the proceeds of dispositions for the purpose of making such refunds and payments to purchasers unless such amount is deposited in a special account with the Treasurer of the United States: The maximum balance to be maintained in such special account shall be determined and authorized by the Administrator; and no deposit shall be made in such account which will bring the net balance of the account to an amount in excess of the determined maximum. In applying to the Administrator for such authorizations, the disposal agency concerned shall recommend the maximum balance which it deems necessary.

[1] Pub. Law 269, 79th Cong. (59 Stat. 632).

§ 8311.6 *Expenses.* (a) Government agencies shall apply to the Administrator as provided herein for allocation, payment, or reimbursement of funds to meet expenses of:

(1) Government agencies designated by the Administrator as disposal agencies pursuant to the act;

(2) Government agencies designated by the Administrator to render special services in connection with the disposal of surplus property in such amounts as shall be approved by the Bureau of the Budget; and

(3) Owning agencies in such amounts and upon such basis as shall be approved by the Bureau of the Budget, (i) for care and handling of surplus property from the date of the filing of a declaration of surplus covering such property filed with the Administrator or the disposal agency in accordance with applicable regulations of the Administrator or (ii) where declarations of surplus are deferred under established procedures approved by the Administrator and are made at approximately the time of disposal or removal, for care and handling of surplus property from the date of filing of notice by the owning agency to the disposal agency that surplus property is being held for disposal under such procedures.

(b) Expenses for which funds may be allocated, paid or reimbursed hereunder shall not include:

(1) Costs incident to filing a declaration of surplus with the disposal agency, including the cost of taking inventories, ascertaining and furnishing proper descriptions, and preparation of the declaration of surplus, except to the extent that such costs may be incurred by disposal agencies acting under procedures referred to in § 8311.6 (a) (3) of this part.

(2) Costs of separating personal property declared surplus from property of the owning agency and of making it available for inspection prior to declaration of surplus and the costs of placing the property in condition to insure its reasonable preservation and safety including decontamination and removal of explosives or other inherently dangerous materials as well as all other such costs.

(3) Costs of removing from real property such property of the owning agency which is not declared surplus to a disposal agency and the costs of placing the real property in a stand-by condition to insure its reasonable preservation and safety including decontamination and removal of explosives or other inherently hazardous objects as well as all other such costs.

(4) Costs incident to disposal of property by owning agencies including preparation of property for sale as scrap.

(5) Costs of removing surplus personal property on clearance of privately owned or operated plants or where the owning agency is otherwise obligated to remove surplus property from private facilities.

§ 8311.7 *Estimate of expenses.* On or before the 15th day of the last month of each quarter, Government agencies shall submit to the Administrator for the succeeding quarter, an estimate of their expenses for which funds may be allocated, paid, or reimbursed hereunder, together with appropriate statements explaining the basis upon which the estimate was determined. Such expenses shall be presented in such detail and in such form as may be mutually agreed upon between the disposal agency and the owning agency. The Administrator requires that in the preparation of estimates of expenses all agencies will explore all available means to reduce expenditures to a minimum. Each agency in preparing estimates shall absorb indirect administrative or overhead expense to the fullest extent possible within the limits of existing appropriations or enabling statutes. Bases for computing expenses may be established by the Administrator with the approval of the Bureau of the Budget. Estimates of fiscal year expenses shall be submitted by Government agencies at such times as necessary to meet regular or special hearings before the Bureau of the Budget and the Congress.

§ 8311.8 *Statement of expenses.* On or before the 15th day of each month, disposal and service agencies financed by this Administration shall submit to the Administrator a statement of their expenditures and obligations for expenses made during the preceding month.

§ 8311.9 *Submission prior to commitment.* Wherever substantial expenses are involved, particularly contracts involving commitments in excess of $100,000, Government agencies may request the Administrator for determination of the propriety of such expenses prior to committing themselves to such expenses.

§ 8311.10 *Allocations and reimbursement.* Within the terms and limits of its appropriations and subject to the approval of the Bureau of the Budget when such approval is required, the Administrator will, at the beginning of each quarter, allocate funds or authorize expenditures subject to reimbursement, as the case may be, in such amounts determined to be necessary for proper expenses to cover that quarter. Reimbursement will be made on the basis of vouchers submitted with such supporting detail as the Administrator may require. Government agencies shall make such reports as the Administrator may require and will cooperate with the Administrator in such studies as it may conduct to determine effective and economical use of the funds allocated or authorized for reimbursement.

§ 8311.11 *Regulations by agencies to be reported to the Administrator.* Each Government agency shall file with the Administrator copies of all regulations, orders, and instructions of general applicability which it may issue in furtherance of the provisions, or any of them, of this part.

§ 8311.12 *Records and reports.* Government agencies shall prepare and maintain such records as will show full compliance with the provisions of this part and with the applicable provisions of this act. Reports shall be prepared and filed with the Administrator in such manner as may be specified by order issued under this part, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

This revision of this part shall be effective as of July 1, 1946, except as provided in § 8311.4 of this part.

ROBERT M. LITTLEJOHN,
Administrator.

DECEMBER 30, 1946.

Southeastern: Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee, Central and South American and Caribbean Area, jointly with Southwestern Region; Federal Annex, Atlanta 4, Ga.

(2) *Regional superintendents.* Regional Superintendents, Air Postal Transport, have general supervision over the Air Postal Transport in their areas. They are responsible for seeing that proper service is rendered by carriers; for coordinating air mail activities between post offices, air mail fields, and railway post offices; for making regular examinations of the distribution of air mail at post offices which are stop points on air mail routes and at air mail fields, and other special examinations as conditions require; for supervision of the preparation of air mail schemes and pouch orders and regulating the manner of distribution of air mail, both foreign and domestic, at air mail field offices; for issuing dispatch schedules for the routing of air mail and diverting air mail from its regular routing when necessary because of weather, operations, or volume requirements; for checking flight reports submitted by carriers; for assisting post offices in handling souvenir mail when air mail service is inaugurated at a new point; for surveying proposed new routes; for rendering reports of accidents to planes carrying mail; for determining the cause of mail failures and other irregularities on the part of the carriers and submitting reports thereof to the Deputy Second Assistant Postmaster General in charge of Air Postal Transport, Washington 25, D. C., with appropriate recommendation of action to be taken.

(e) *Deputy Second Assistant Postmaster General in charge of International Postal Transport.* The Deputy Second Assistant Postmaster General in charge of International Postal Transport, aided by a Director of International Postal Transport, is charged with the arrangement and management of details connected with the exchange of mails with foreign countries by surface and air, including the creation and promulgation of all matters of policy relating to the international mails, the classification, rates and other conditions applicable thereto, both by surface and air, and including the ocean transportation of mails from the United States and of other mails the United States is obligated to convey; the investigation and determination of fines and deductions against steamship companies for delinquencies in service or failures to safeguard the international mails while in their custody; negotiating with foreign postal administrations of postal conventions and agreements (except those relating to the money-order system) and the arrangement of all details in connection with the putting into effect of the provisions thereof; the preparation and issuance of instructions to postmasters in regard to the international postal service, (except those issued by the Air Postal Transport), including the compilation and editing of Part II of the Official Postal Guide; the consideration and preparation of replies to inquiries relating to the international postal service (except those intended for the Chief Inspector); the consideration and disposal of applications for the return to senders of, or change of address on, articles contained in the mails exchanged with foreign countries; the compilation of general statistics of international mails (except those to be compiled by the Air Postal Transport); the translation of letters and documents in foreign languages received by the Department (except those intended for the Third Assistant Postmaster General or Chief Inspector); the administrative determination of the balances due from or to foreign countries on account of intermediary maritime and land transit of international mails as well as the preparation of instructions to govern the collection of the transit statistics on which these balances are based; the management of all international registry, insurance, and collect-on-delivery services and all instructions and correspondence in relation thereto, except that assigned to the Third Assistant Postmaster General (Division of Money Orders) and that assigned to the Chief Inspector under sections 14, 809 and 811; the examination and authorization for payment of indemnity claims for international mail and of claims for refund of postage paid on international mails for which no service was rendered; the supervision of the sea post service, the Navy Mail Service, and international parcel-post service; the adjustment of air mail postage rates and air mail transportation rates to foreign countries; and preparation of general correspondence with foreign postal administration, the postal service and the general public relating to the international postal service (except that assigned to the Third Assistant Postmaster General and the Chief Inspector).

(f) *Deputy Second Assistant Postmaster General in charge of Administrative Services.* (1) The Deputy Second Assistant Postmaster General in charge of Administrative Services, aided by a Director of Budget and Accounting, a Director of Systems and Procedures, a Director of Verification, and a Director of Records, is charged with verification of all authorizations and claims for the transportation of mail; passing upon claims of railroads for side and transfer service required of them in connection with the transportation of the mails; maintaining contact with and attending hearings before the Interstate Commerce Commission; examining evidence of the performance of those services and passing upon the application of the requirements and rates fixed by the Interstate Commerce Commission governing service on railroad and electric car routes, and by the Civil Aeronautics Board governing service on domestic and foreign air mail routes; preparing statements of accounts of the carriers for payment (except for mail messenger service), preparation of orders of fines and deductions in cases of delinquencies in service, maintenance of bookkeeping records which form the basis of administrative audit of all claims for payment for transportation of mails; the stating of accounts for payment and the preparation and certification of vouchers and journals authorizing payment to carriers for the transportation of mails; the verification of accounts covering miscellaneous expenditures of the Surface Postal Transport; the administrative audit of travel expense accounts for personnel of the bureau; performing coast studies; the review, analysis, revision, establishment and discontinuance of systems and procedures for the conduct of the work of the Postal Transport system, at Washington, D. C., and in the field in the interests of economy, practicability, and efficiency; recommendation of changes in existing laws and new legislation to meet the requirements of the service; preparation of estimates of appropriations necessary for the conduct of the Postal Transport system as a whole, and justifications in support thereof; presentation of such estimates to the Bureau of the Budget and Committees of Congress; the control of all financial obligations of the Postal Transport system; preparation of reports on budget and fiscal matters and furnishing such other data which might be required by the Bureau of the Budget and Committees of Congress.

(2) The duties of the Director of Records shall include surveying the adequacy of existing air mail routes; with the collaboration of the Air Postal Transport Service, the examination and analysis of proposals for new air mail routes and the planning of such routes; the maintaining of current analysis of air postal transportation rates; the making of appropriate recommendations

to the Second Assistant Postmaster General concerning routes and rates; the collaboration with the Solicitor in the preparation and presentation of the Department's cases before the Civil Aeronautics Board.

(g) *Information.* (1) Requests for information concerning any matters under the jurisdiction of the Second Assistant Postmaster General may be directed to local postmasters or to any of the field officials listed in this section. Requests for information which can not be obtained satisfactorily in the field may be addressed to the Second Assistant Postmaster General, Washington 25, D. C.

(2) Detailed information concerning postal matters is available to the public in the current issue of the U. S. Official Postal Guide, Part I for domestic mail and Part II for foreign mail; the Postal Laws and Regulations, as amended; the Postal Bulletin, issued twice weekly; and in the annual reports of the Postmaster General. These publications may be obtained from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

(h) *Official records.* Official records of public interest pertaining to service actions or request for service actions are on file in the Bureau of the Second Assistant Postmaster General, Washington 25, D. C. and, with the exception of those held confidential, are available at that place to all persons properly and directly concerned. (R. S. 161, 326, sec. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369)

Subchapter B—Regulations

PART 19—TRANSPORTATION OF MAILS

AIR CARRIERS

Whereas the regulations promulgated by the Postmaster General to govern the transportation of mail by air have been in force and effect for a long period of time and are not now being amended, and as it is necessary to the operation of the Air Postal Transport service that the effect of the said regulations be continuous, it has been found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Public Law 404, 79th Congress) is impracticable and contrary to the public interest. Accordingly, Part 19 of Title 39, Code of Federal Regulations, is amended, effective at once, by the addition of the following sections.

Sec.
19.5 General regulations to air carriers.
19.6 Report of one-way trip.
19.7 Schedules.
19.8 Flight operations; early departures; notification of plane movements.
19.9 Omissions of service at scheduled stop points.
19.10 Delayed or cancelled scheduled trips; resumed flights; delayed operations.
19.11 Record of air mail pouches and weights dispatched.
19.12 Emergency trips and extra sections.
19.13 Times for exchange of mail at stop points, and for loading and unloading.
19.14 Direct transfer of mail between planes.
19.15 Disposition of mail in cases of cancellation, unscheduled stop, or irregular operations.
19.16 Holding orders.
19.17 Registered mail.
19.18 Protection of the mail.
19.19 Payment for mail service performed.
19.20 Reports of accidents.
19.21 Quarters.
19.22 Correspondence.
19.23 Post Office inspectors.

AUTHORITY: §§ 19.5 to 19.23, inclusive, issued under sec. 405 (d), 52 Stat. 995, as amended; 49 U. S. C. 485.

§ 19.5 *General regulations to air carriers.* (a) Carriers will transport the mail on the route specified in the certificate of public convenience and necessity issued by the Civil Aeronautics Board and on the schedules designated by the Postmaster General pursuant to section 405 (e) of the Civil Aeronautics Act.

(b) In case of cancellation, carriers will be held responsible for the prompt transfer of mail to other routes or trips or transportation of the mail to the nearest post office or train from whence it can be given the most expeditious dispatch to destination.

(c) Carriers will furnish adequate and suitable quarters at such air mail stops on the routes as may be necessary to receive, transfer, dispatch, and distribute mail; such quarters will conform to specifications approved by the Department.

(d) Carriers will truck the mail between such points as may be necessary in emergencies caused by unscheduled stops and unscheduled operation, including cancellations of trips either en route or at termini. Compensation for this service is included in the mail rate prescribed by the Civil Aeronautics Board.

(e) Carriers will keep postal officials fully informed regarding irregularities in the operation of service on their routes.

(f) Carriers will be required to maintain approved schedules except where prevented from doing so by weather and providential causes. They will make the connections between planes of other routes as required and will observe such holding orders as may be prescribed by authorized officials of the Post Office Department.

(g) Carriers will answer promptly all official correspondence from officials of the Post Office Department.

(h) Carriers will keep such records and transmit such reports as may be necessary for the Postmaster General to make prompt and proper accounting for the transportation of the mail on air routes and for other services connected therewith. They will utilize standard forms issued by the Department and will promptly transmit same on completion to the Department or to the authorized field representative.

(i) The Post Office Department will pay the rates prescribed by the Civil Aeronautics Board for the transportation of air mail. The mileage on which payment is based will be that prescribed by the Civil Aeronautics Board.

(j) Carriers will be held responsible for the proper handling and protection of mails in their custody.

(k) In case of accident involving possible damage to or loss of mails, the carrier will promptly notify designated postal officials by telephone or telegraph.

(l) Mail shall be given priority over all other forms of traffic, not only in the matter of transportation, but also in unloading and transfer to the connecting airline, the designated postal representative, or the air mail field.

(m) Carriers who transport mail will carefully observe all rules and regulations issued by the Post Office Department and will be required to take cognizance of and comply with all postal laws and regulations covering the transportation of mail and to be guided by such portions thereof as are not inconsistent with the provisions of the Civil Aeronautics Act or the interpretation made thereof and the rulings made thereunder by the Civil Aeronautics Board. They may be subject to fines and deductions for failure to do so.

§ 19.6 *Report of one-way trip.* (a) Form 2702, Record of one-way trip, is an accounting form used by the Post Office Department and the air carrier in determining mail pay due for mail transported. This form should be an accurate and complete record of the trip flown.

(b) The form, in triplicate, is required for each trip designated by the Post Office Department for the transportation of mail, whether or not mail is carried; also for irregular and emergency trips transporting mail. When a trip cancels at the initial terminal, Form 2702 will be prepared in the usual manner and endorsed to show the reason for cancellation and disposition made of the mail, and disposed of as directed by paragraph (h) of this section.

(c) The carrier will indicate on Form 2702 in correct sequence all scheduled and non-scheduled stops made; also arrival and departure time at each point. Scheduled stops omitted shall be indicated in proper sequence with explanation of failure to stop under "Remarks."

(d) Entries of pouches and parcels and total weights on and off at each station will be made by the carrier in the columns provided. When a scheduled stop is omitted and mails for the omitted stop are removed from the plane at another point, the entry of mails off for the omitted stop shall be shown separately from and immediately below the entry for the point at which such mails are removed, and the entry properly identified.

(e) On Form 2702, in the column headed "Remarks," carriers will make explanation of all failures, irregularities, and delays in handling mail. If a pouch or parcel is mishandled show origin, destination, weight, place boarded and point where put off. If there is insufficient space in the column headed "Remarks", such explanation should be made at the bottom of the form or on the reverse side.

(f) Where transfers are made by the carriers, mail and weights transferred

will be entered by both delivering and receiving carrier on their respective Form 2702's in space immediately below the station at which the transfer is made and the entries properly identified. One entry may be used for mails transferred to another route and received from another route by showing the mails transferred in the "off" columns and the mails received in the "on" columns, with appropriate statement of routes concerned in the remarks column.

(g) Forms 2713 and 2715-B should be used to correct entries on Form 2702. The weight of each pouch placed on the plane as listed on Forms 2713 and 2715-B is the weight due off. When corrections on Form 2702 are necessary, they must be legible and made by drawing a line through or circling the incorrect figures and placing the correct figures immediately above or below. Original figures must not be erased or obliterated. All corrections must be initialed by the person making the correction.

(h) Form 2702 will be balanced and completed upon termination of a trip; this may be done at the terminus or in the carrier's central office or other designated point. The Form 2702 will be retained by carriers until balanced and completed. Carriers are expected to take action to prevent undue delay in completing Form 2702. The carrier will retain the duplicate copy and deliver the original and triplicate copies as directed by the Regional Superintendent concerned.

(i) Form 2702 may be carried on the trip to which it relates or at the option of the carrier only working data (2713, 2715-B) may be carried on the trip and the Form 2702 prepared at the terminus or in the carrier's central office or other designated point. The carrier will inform the Regional Superintendent, Air Mail Service, concerned, where the Form 2702 will be prepared for the route or routes operated.

(j) When a flight is cancelled at an intermediate or off-line point and mail is to be trained, Form 2702 will be closed out as outlined herein. Entry below the station where training is to occur should show in proper "off" columns the number of pouches and outside parcels and total weight similar to entry for direct transfer between routes; also brief explanation under "Remarks" as to reason for cancellation and the disposition made of mail, etc.; i. e., the train to which trained. Form 2702 will be disposed of as directed by paragraph (h) of this section.

CROSS REFERENCE: See § 55.1400 (11 F. R. 177A-153) for description of Form 2702.

§ 19.7 *Schedules.* (a) Carriers will file with the Superintendent, Division of Air Mail Service, Washington 25, D. C., three copies of proposed changes in existing schedules preferably fifteen (15) days, but in no case less than ten (10) days, prior to the effective date. The date of filing is the date of receipt in the Superintendent's office.

(b) Proposed new schedules shall be accompanied by a letter or cover sheet, briefly outlining proposed changes and shall be prepared north to south, east to west, with the flights arranged in chronological order left to right.

(c) When additional trips are proposed, without changing the current schedule, and are designated by the Postmaster General for mail, the Department's order authorizing the use of the additional trips for mail will include the effective date.

§ 19.8 *Flight operations; early departures; notification of plane movements.* Carriers must operate schedules as nearly as practicable at time shown on approved time tables, but early departure may be made when necessary to prevent cancellation. However, as much notice as possible should be given the air mail field or post office to allow for closing out and dispatching available mail. When planes are operating thirty minutes or more late, dispatching offices on the route should be notified as to the approximate arrival to permit of a later closing and the advancement of additional mail.

§ 19.9 *Omissions of service at scheduled stop points.* (a) If a stop cannot be made on any scheduled trip, the local postal representative at the office concerned shall be notified immediately.

(b) If service is to be suspended for one week or more, immediate notice must be furnished to the Superintendent, Division of Air Mail Service, Washington 25, D. C., the Regional Superintendent and postal unit concerned.

(c) When service is to be resumed at a scheduled stop point after suspension, those listed in paragraph (b) of this section will be immediately notified.

§ 19.10 *Delayed or cancelled scheduled trips; resumed flights; delayed operations.* (a) Delayed scheduled trips on routes the mail rates of which are on a pound-mile basis may operate with available mail from initial terminals, even though available mail on hand at scheduled departure has been trained or dispatched to other routes or trips.

(b) Delayed scheduled trips on routes the mail rates of which are on a mileage basis may operate from the initial terminal; however, the delayed operation should not overlap or duplicate other scheduled trips. Carrier claims of payment for mileage of delayed trips which overlap or duplicate other scheduled trips will be disallowed by the Department unless such operation provides service which could not have been performed by other scheduled trips.

(c) When a scheduled trip has been cancelled at the initial terminal or at some intermediate point, a section may be originated at any intermediate point on the route, provided there will be no duplication of service for the same authorized pay trip which would result in additional cost to the Postal Service.

§ 19.11 *Record of air mail pouches and weights dispatched.* (a) The postal unit delivering air mail to carriers for transportation will prepare Form 2713, listing the pouches and outside parcels by origins and destinations. Weights of the pouches and pieces for each destination on the route will be shown on the Form in a proper station sequence.

(b) Pouches and parcels for off-line points will be listed so as to indicate point of transfer.

(c) On receipt of the mail from the local postal unit, the carrier will check the entries and weights as shown on the pouch label against such entries on Form 2713. If there is any difference in weights shown on 2713 and on the pouch labels, Form 2713 will be appropriately corrected without erasure. If mail not listed is received, appropriate entry will be made on Form 2713.

(d) If mail listed on Form 2713 is not received, appropriate notation will be made on the form and the dispatching office notified immediately.

CROSS REFERENCE: For description of Form 2713, see § 55.1402.

§ 19.12 *Emergency trips and extra sections.* (a) Extra sections of authorized trips initiated by the carrier may be used for the transportation of mail whenever mail is tendered by authorized postal representatives at points served by such extra sections on all routes having pound-mile rates and those having included in the rate formula prescribed by the Civil Aeronautics Board the following provisions:

The aforesaid rate per airplane mile shall be applied to the direct airport-to-airport mileage between points served for the carriage of mail on each schedule flown with the mail on the route, and the mail poundage for the route shall be computed at the end of each calendar month on the basis of the average mail load per airplane mile carried over the route during such period: *Provided, however,* That if any scheduled flight is operated in two or more sections between any two points served for mail and mail is transported on more than one such section, the aggregate of the sections so used shall for all purposes of computing compensation pursuant to this order be treated as a single flight, and the rate shall be applied to the airport-to-airport mileage flown by that section which covers the greatest airport-to-airport mileage between points served for mail, and the mail poundage shall be computed as though the total weight of mail carried on all sections had been consolidated in a single aircraft.

(b) On all other routes, extra sections will not be used for mail, unless specifically authorized by the Regional Superintendent concerned.

(c) Refer to § 19.5, paragraph (l) as to handling of Form 2702.

§ 19.13 *Times for exchange of mail at stop points, and for loading and unloading.* (a) Upon arrival of planes at stations, carrier representatives will immediately unload the mail and deliver it to the authorized postal representative at such point as may be designated. Maximum time for unloading at important points may be specified for each trip by the Regional Superintendent, Air Mail Service, in the area concerned.

(b) Mail for all outgoing trips will be delivered to the air carrier by messenger or Motor Vehicle Service from the local post office or by the Air Mail Field at the time authorized by the Regional Superintendent in the area concerned.

§ 19.14 *Direct transfer of mails between planes; use of Form 2715-B.* (a) At junctions of air mail routes or other

stop points where mail is due to be transferred between routes, or trips of the same route, it is the responsibility of the carrier to make the transfer unless otherwise instructed by the Regional Superintendent concerned.

(b) Form 2715–B will be used to record the transfer of mail between carriers and will be prepared by the incoming carrier. When mutually agreed to, Form 2715–B may be prepared by receiving carrier. The receiving carrier will receipt for the mail so turned over, in the space provided for on the form.

(c) The receiving carrier is obligated to accept and transport all mail transferred from incoming planes regularly due to connect his route. If unable to transport such mail it is the obligation of receiving carrier to make disposition according to § 19.15.

(d) The entries of the local mail and transferred mail will be shown as separate items on the trip report, Form 2702. Direct transfers of mail between trips operated by the same carrier may be made without the use of Form 2715–B, provided the mail does not leave the custody of the carrier, and appropriate transfer entries of the trips involved are entered, by carrier, on Forms 2702.

CROSS REFERENCE: See § 55.1403 for description of Form 2715–B.

§ 19.15 *Disposition of mail in case of cancellation, unscheduled stop, or irregular operations.* (a) If at initial terminal or at any stop point enroute, a trip is to be cancelled, the local postal officials concerned should be notified in sufficient time for the mail to be trained or otherwise re-routed.

(b) (1) In case of cancellation at any point served by Motor Vehicle or Mail Messenger Service, and such service is available at no additional cost to the Department, such service may be used to transport the mail to the post office or train from which it can best be expedited to destination.

(2) If Motor Vehicle or Mail Messenger Service cannot be used, under the conditions named in paragraph (b) (1) of this section, the carrier will arrange to promptly transport the mail to the post office or train from which it can best be expedited to destination.

(c) In case mail from cancelled trip, or trips, arrives by train to connect a plane for resumed flight, the carrier whose service was cancelled will be required to meet the train on arrival and transport the mail to the airport unless local instructions from authorized officials of the Air Mail Service provide for other handling.

§ 1916 *Holding orders.* (a) Carriers will observe orders of Regional Superintendents, Air Mail Service, for holding of planes at junction points for connecting mails. Such holding orders will be forwarded to carriers as soon as practicable after schedule changes which necessitate them are received.

(b) If the carrier disagrees with the order of the Regional Superintendent, Air Mail Service, and the differences cannot be reconciled, the case should be submitted to the Deputy Second Assistant Postmaster General in charge of Air Postal Transport, Washington 25, D. C., for decision.

§ 19.17 *Registered mail.* (a) Carriers shall receipt for all rotary lock pouches, iron lock R pouches, and outside registered articles received for dispatch by plane on forms prescribed by the Post Office Department. Carriers will not be required to check the rotary lock numbers of the pouches and registration numbers of outside pieces, it being understood that in signing the bill the carrier simply certifies to receiving a specific number of rotary lock pouches, iron lock R pouches, and outside registered pieces.

(b) When registered pouches, iron lock R pouches, and outside pieces are delivered to Air Mail Field employees, the representative of the carrier shall obtain a receipt for all registered pouches, iron lock R pouches and outsides on Form 2715–B.

(c) When registered pouches and outside pieces are delivered to a mail messenger or motor vehicle driver, the carrier will prepare Form 2753 in triplicate, listing the pouches by fixed and rotary numbers, iron lock R pouches in bulk, and outsides by registration numbers, and obtain receipt from the driver on original. The duplicate and triplicate copies will be turned over to the mail messenger or motor vehicle driver by carrier's employees.

(d) The carrier will indicate on Form 2753 in addition to the registered mail the total of ordinary pouches and outsides delivered to mail messengers, or MVS drivers.

CROSS REFERENCE: See § 55.1404 for description of Form 2715–B and § 55.1405 for description of Form 2753.

§ 19.18 *Protection of the mail.* (a) Carriers will be held strictly responsible and accountable for mails in their custody. Space provided at stations will be such as will adequately protect the mail and prevent any unauthorized persons from having access to it. Mail must not be left exposed on trucks or otherwise be subjected to depredation or weather. Air mail handlers will be identified either by a distinguishing cap, badge, or clothing.

(b) Air carriers will take every precaution to protect air mail in their custody from fire hazard both on the ground and in the air.

§ 19.19 *Payment for mail service performed.* (a) As soon as possible after the end of each month, carriers will submit sworn statements of air mail service performed.

(b) Carriers having pound-mile or ton-mile rates of pay will submit in duplicate, on Form 2720, Monthly Trip Detail Sheet, for each route and trip, a transcript of the pertinent information on Form 2702, One-Way Trip Report, and a detailed computation of pound-miles performed. This will be accompanied by a statement of service performed on Forms 2703–A and 2703–B, in triplicate. Each trip will be listed separately on Forms 2703–A and 2703–B, showing dates, mileage, pound-miles, and amount of claim. Cases of partial or irregular operation and extra sections, should be itemized separately. A recapitulation will be made on the last sheet of the statement showing miles, pound-miles and pay claimed, and consisting of a separate item for each sheet of Form 2720. One copy of each of the above forms, together with a copy of the pay certification on Form 2706, will be returned to the carrier at the time payment is certified to the General Accounting Office.

(c) Carriers paid at other than pound-mile or ton-mile rates will submit statements of service performed, in triplicate, on Forms 2703–A and 2703–B. One copy will be returned to the carrier after audit by the Department. These forms will be completed in detail showing dates of service, trip numbers, miles flown, and such other information as is necessary for settlement of the account. A recapitulation on the last sheet of the statement will show the total miles flown, the rate and the amount of the claim for the month.

(d) In all cases, statements on Forms 2703–A and 2703–B will be subscribed and sworn to by the officer of the company authorized to sign such statements. They will be prepared in such form as may be prescribed by the Department from trip reports covering actual performance of service.

(e) The General Accounting Office has agreed that the Department may authorize advance payment in an amount not greater than 90% of the current payment authorizations. Such advance payments will be certified to the General Accounting Office promptly at the end of each month and the advance payment will be made as soon as the amounts are approved by the General Accounting Office. Balances due carriers will be certified as soon as the accounts can be adjusted and audited.

(f) Each company will file with the Department the names of the person or persons who are authorized to sign the statements on Form 2703. If there are any changes, it will be the responsibility of the carrier to promptly submit a report of such changes to the Department.

CROSS REFERENCE: See § 55.1406 for description of Form 2703–A; § 55.1407 for description of Form 2703–B; § 55.1408 for description of Form 2706; and § 55.1409 for description of Form 2720.

§ 19.20 *Reports of accidents.* (a) Carriers will report immediately by telegraph or telephone to the Deputy Second Assistant Postmaster General in charge of Air Postal Transport, Washington 25, D. C., and to the Regional Superintendent, Air Mail Service, in the area concerned, any accident resulting in damage to or loss of the mail by crash or otherwise. In addition, such other officials of the Postal Service as may be designated by the Regional Superintendent, Air Mail Service, in the area concerned, will also be notified.

(b) When accidents occur resulting in possible damage or loss of mail, mail should be guarded and not disturbed or withdrawn from the plane until arrival of a postal official, except to prevent further damage by fire or otherwise. It is important that a post office inspector or other official of the Postal Service reach the scene of the crash as soon as possible.

§ 19.21 *Quarters.* (a) Carriers will furnish adequate and suitable quarters at such air mail stop points on the route as may be necessary to receive, transfer, dispatch, and distribute the mail.

(b) Such quarters will be furnished with heat, light, hot and cold water, janitor service, toilet facilities, and such other equipment as will provide comfortable working conditions and convenient facilities for expeditious handling and distribution of the mail.

(c) Quarters will be located so as to provide expeditious handling of mail to and from planes, and be conveniently accessible to all vehicles used in the handling of mail.

(d) Whenever necessary suitable lobby space will be provided for the transaction of air mail business by the public.

(e) Requests for changes in established air mail field quarters, plans and specifications of air carriers, and request of officials of the Postal Service for the establishment of new air mail field quarters will be made through the office of Regional Superintendent, Air Mail Service, concerned and will be subject to the approval of the Deputy Second Assistant Postmaster General in charge of Air Postal Transport, Washington 25, D. C.

§ 19.22 *Correspondence.* Air carriers will answer promptly all correspondence from officials of the Post Office Department. Correspondence concerning the Air Mail Service, except that which is initiated by and directed to the Department at Washington, D. C., and post office inspectors, should be channeled through the Regional Superintendent, Air Mail Service, having jurisdiction of the area or route involved.

§ 19.23 *Post Office inspectors.* (a) Post Office inspectors are the special representatives of the Postmaster General. Their duties are outlined in section 29 of the Postal Laws and Regulations of 1940, from which the following is quoted:

> Postmasters, clerks, employees, contractors, and others connected with the postal service, are subordinate to post office inspectors when acting within the scope of their duty and employment. * * * Inspectors are empowered to open pouches and sacks and examine the mails therein and are authorized to enter and inspect post offices at all times.

(b) All employees of air carriers engaged in the transportation of mail are required to cooperate and assist inspectors in the performance of their duties.

(c) Inspectors will exhibit as evidence of their authority the Commission issued by the Postmaster General.

PART 55—FORMS OF THE POST OFFICE DEPARTMENT

AIR MAIL

Part 55—Forms of the Post Office Department (11 F. R. 177A–151) is amended by the insertion of the following sections:

Sec.
55.1402 Form 2713; air mail dispatch record.
55.1403 Form 2715–B; weight of air mail transferred.
55.1404 Form 2715–D; record of air mail pouches and weights received.
55.1405 Form 2753; registry receipt to airline.
55.1406 Form 2703–A; carrier's monthly statement of air mail service performed.
55.1407 Form 2703–B; carrier's monthly statement of air mail service performed.
55.1408 Form 2706; authorization of payment for air mail service performed.
55.1409 Form 2720; monthly trip detail sheet.

AUTHORITY: §§ 55.1402 to 55.1409, inclusive, issued under R. S. 396, sec. 304, 42 Stat. 24; 5 U. S. C. 369.

§ 55.1402 *Form 2713; air mail dispatch record.* A detailed record of the air mail pouches, outside parcels and weights, by origins and destinations, dispatched by a post office or air mail field to a trip of air mail service.

§ 55.1403 *Form 2715–B; weight of air mail transferred.* A record of the pouches, outside parcels, weight and destination of the direct transfer of mail between carriers. The form is prepared by the incoming carrier and the receiving carrier receipts for the mail in the space provided on the form.

§ 55.1404 *Form 2715–D; record of air mail pouches and weights received.* A record of the air mail pouches, outside parcels and weights, by origins and destinations, received by a post office or air mail field.

§ 55.1405 *Form 2753; registry receipt to airline.* When registered mail is delivered by a carrier to a mail messenger or motor vehicle driver, the carrier prepares Form 2753, listing the registered mail in detail, and obtains a receipt from the messenger or driver in the space provided on the form.

§ 55.1406 *Form 2703–A; carrier's monthly statement of air mail service performed.* This form is prescribed by the Comptroller General of the United States and provides for detailed information as to mail matter carried by air and the amount claimed by the carrier as compensation for service performed, supported by a sworn statement of the carrier.

§ 55.1407 *Form 2703–B; carrier's monthly statement of air mail service performed.* Form 2703–B is a continuation sheet for Form 2703–A.

§ 55.1408 *Form 2706; authorization of payment for air mail service performed.* This form consists of a monthly statement of authorized service performed and the amount of compensation due the carrier for the performance of such service. It is prescribed by the Comptroller General of the United States and constitutes the certification of payments to the General Accounting Office.

§ 55.1409 *Form 2720; monthly trip detail sheet.* The form is prescribed by the Comptroller General of the United States and provides for a detailed monthly transcript and analysis of the daily information shown on Form 2702, report of one-way trip. It is used in the determination of air mail pound-miles.

TITLE 46—SHIPPING

Chapter I—Coast Guard: Inspection and Navigation

Subchapter D—Tank Vessels

PART 37—SPECIFICATIONS FOR LIFESAVING APPLIANCES

ELECTRIC WATER LIGHTS

By virtue of the authority vested in me by R. S. 4405 and 4417a, as amended (46 U. S. C. 375, 391a), and Reorganization Plan No. 3 of 1946 (11 F. R. 7875), I find that an emergency exists and the following amendment to the Tank Vessel Regulations shall be made effective on the date of publication of this order in the FEDERAL REGISTER:

Section 37.9–1 *Automatic electric water lights—TB/ALL* is amended in the second sentence by changing the date "January 1, 1947" to "July 1, 1947." (For text of section see FEDERAL REGISTER of August 23, 1945, 10 F. R. 10365, as amended October 2, 1945, 10 F. R. 12408, December 19, 1945, 10 F. R. 15174, and July 2, 1946, 11 F. R. 7346.)

This amendment to the Tank Vessel Regulations is published without prior general notice of its proposed issuance for the reason that notice and public rule making procedure in connection therewith are hereby found to be impracticable. Because of the shortage of critical materials necessary in the manufacture of automatic electric water lights sufficient quantity of approved types of water lights is not available for compliance with the regulations. This amendment postpones the effective date of the new requirements for automatic electric water lights until July 1, 1947.

(R. S. 4405, 4417a, 46 U. S. C. 375, 391a; Reorganization Plan No. 3 of 1946 (11 F. R. 7875))

Dated: December 26, 1946.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 52]

STANDARDS FOR GRADES OF CANNED TANGERINE JUICE[1]

NOTICE OF RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the issuance, as hereinafter proposed, of the tentative United States Standards for Grades of Canned Tangerine Juice pursuant to the authority contained in the Department of Agriculture Appropriation Act, 1947 (Pub. Law 422, 79th Cong., 2d Sess., approved June 22, 1946). These standards are to become effective January 15, 1947.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed standards and the effective date of the standards shall file the same in quadruplicate with the Hearing Clerk, Office of the Solicitor, Room 0308, South Building, United States Department of Agriculture, Washington 25, D. C., not later than 5:30 p. m., e. s. t., on the 20th day after the publication of this notice in the FEDERAL REGISTER.

The proposed standards are as follows:

§ 52.667 *Canned tangerine juice*—(a) *Definition.* Canned tangerine juice is the undiluted, unfermented juice obtained from the matured fresh fruit of the tangerine tree (Citrus reticulata) which fruit has been properly washed; may be packed with or without the addition of sugar; and is sufficiently processed by heat to assure preservation of the product in hermetically sealed containers.

(b) *Grades of canned tangerine juice.* (1) U. S. Grade A or U. S. Fancy canned tangerine juice possesses a bright typical color; is practically free from defects; possesses a fine, distinct normal canned tangerine juice flavor; and scores not less than 85 points when scored in accordance with the scoring system outlined herein. Canned tangerine juice of this grade meets the following requirements:

(i) *Brix.* Not less than 10.5 degrees Brix.

(ii) *Acid.* Not less than 0.75 gm. nor more than 1.4 gm., calculated as anhydrous citric, per 100 ml. of juice.

(iii) *Recoverable oil.* Not more than 0.015 percent by volume of recoverable oil.

(iv) *Pulp.* Not more than 7 percent free and suspended pulp.

(2) U. S. Grade C or U. S. Standard canned tangerine juice possesses a good typical color; is fairly free from defects; possesses a good, normal canned tangerine juice flavor; and scores not less than 70 points when scored in accordance with the scoring system outlined herein. Canned tangerine juice of this grade meets the following requirements:

(i) *Brix.* Not less than 10.0 degrees Brix.

(ii) *Acid.* Not less than 0.65 gm. nor more than 1.6 gm., calculated as anhydrous citric, per 100 ml. of juice.

(iii) *Recoverable oil.* Not more than 0.020 percent by volume of recoverable oil.

(iv) *Pulp.* Not more than 10 percent free and suspended pulp.

(3) U. S. Grade D or Substandard canned tangerine juice is tangerine juice that fails to meet the requirements of U. S. Grade C or U. S. Standard.

(4) Canned tangerine juice of any of the foregoing grades may be considered "sweetened" if sugar has been added and the juice tests not less than 13.5 degrees Brix.

(c) *Recommended fill of container.* It is recommended that canned tangerine juice occupy not less than 90 percent of the volume capacity of the container.

(d) *Ascertaining the grade.* The grade of canned tangerine juice may be ascertained by considering, in addition to the foregoing requirements, the following factors: Color, absence of defects, and flavor. The relative importance of each factor has been expressed numerically on a scale of 100. The maximum number of points that may be given for each factor is:

(1) Color	20
(2) Absence of defects	40
(3) Flavor	40
Total score	100

(e) *Ascertaining the rating of each factor.* The essential variations within each factor are so described that the value may be ascertained for each factor and expressed numerically. The numerical ranges within each factor are inclusive. For example, the range 17 to 20 means 17, 18, 19, and 20.

(1) *Color.* (i) Canned tangerine juice that possesses a bright typical color may be given a score of 17 to 20 points. "Bright typical color" means that the tangerine juice possesses a bright yellow to yellow-orange color typical of freshly extracted juice and is free from traces of browning due to scorching, oxidation, carmelization, or other causes.

(ii) If the canned tangerine juice possesses a good typical color, a score of 14 to 16 points may be given. Canned tangerine juice that falls into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product. "Good typical color" means that the tangerine juice is a typical yellow to yellow-orange color that may be slightly amber or show evidence of slight browning.

(iii) If the canned tangerine juice is definitely dull or off-color for any reason, a score of 0 to 13 points may be given. Canned tangerine juice that falls into this classification shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product.

(2) *Absence of defects.* The factor of absence of defects refers to the degree of freedom from particles of membrane, core, skin, seeds and seed particles, "rag," recoverable oil, residue, similar substances, or other defects.

(i) Canned tangerine juice that is practically free from defects may be given a score of 34 to 40 points. Canned tangerine juice that shows coagulation shall not be scored in this classification. "Practically free from defects" means that the juice may contain not more than 7 percent free and suspended pulp and that there may be present not more than 0.015 percent by volume of recoverable oil when determined in accordance with the methods outlined herein; and that the juice contains no noticeable seed particles, similar substances, nor other defects.

(ii) If the canned tangerine juice is fairly free from defects, a score of 28 to 33 points may be given. Canned tangerine juice that shows more than a slight coagulation shall not be scored in this classification. Canned tangerine juice that falls into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product. "Fairly free from defects" means that the juice may contain not more than 10 percent free and suspended pulp and that there may be present not more than 0.020 percent by volume of recoverable oil when determined in accordance with the methods outlined herein; and that seed particles, similar substances, or other defects may be noticeable but not prominent.

(iii) Canned tangerine juice that fails to meet the requirements of subparagraph (2) (ii) of this paragraph, may be given a score of 0 to 27 points and shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product.

(3) *Flavor.* (i) Canned tangerine juice that possesses a fine, distinct, normal canned tangerine juice flavor, free from traces of scorching, caramelization, oxidation or terpene may be given a score of 34 to 40 points. To score in this classification canned tangerine juice shall meet the following additional requirements:

Canned tangerine juice tests not less than 10.5 degrees Brix.

Canned tangerine juice contains not less than 0.75 gm. nor more than 1.4 gm. of acid, calculated as anhydrous citric, per 100 ml. of juice.

(ii) If the canned tangerine juice possesses a good normal canned tangerine juice flavor, but not an objectionable flavor, a score of 28 to 33 points may be given. Canned tangerine juice

[1] The requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

OIL SEPARATORY TRAP

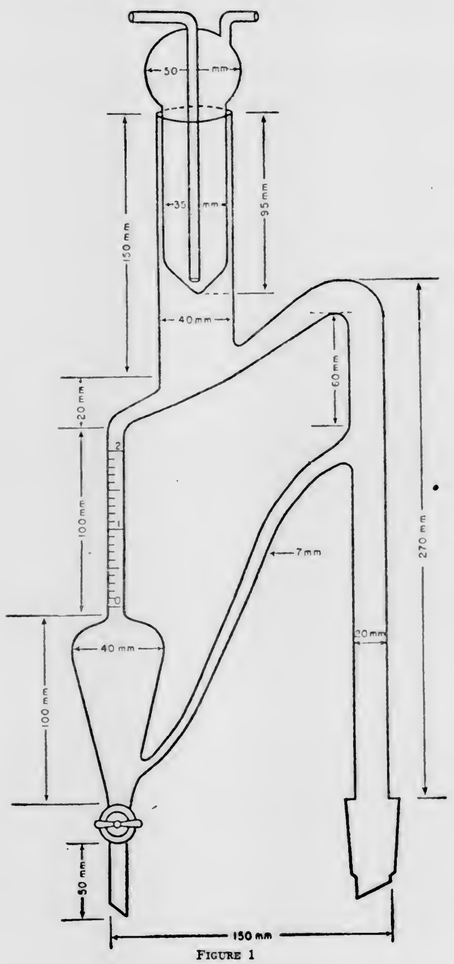

FIGURE 1

OIL SEPARATORY TRAP

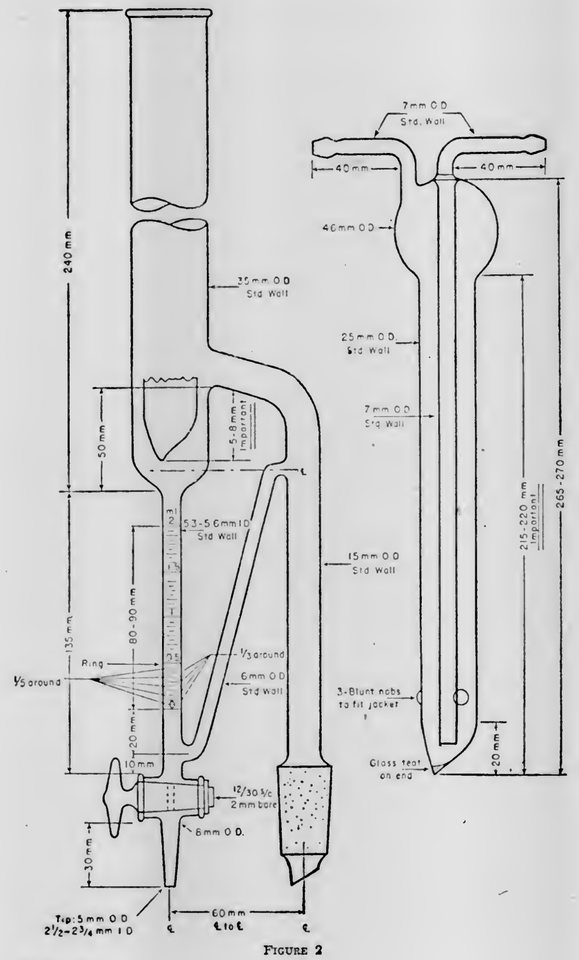

FIGURE 2

that falls into this classification shall not be graded above U. S. Grade C or U. S. Standard, regardless of the total score for the product. To score in this classification canned tangerine juice shall meet the following additional requirements:

Canned tangerine juice tests not less than 10 degrees Brix.

Canned tangerine juice contains not less than 0.65 gm. nor more than 1.6 gm. of acid, calculated as anhydrous citric, per 100 ml. of juice.

(iii) If the canned tangerine juice fails to meet the requirements of subparagraph (3) (ii) of this paragraph, or if the canned tangerine juice has the flavor of green fruit, is off flavor, or is distinctly unpalatable for any reason, a score of 0 to 27 points may be given. Canned tangerine juice that falls into this classification shall not be graded above U. S. Grade D or Substandard, regardless of the total score for the product.

(f) *Explanation of terms.* (1) "10.5 degrees Brix" means that the juice tests 10.5 degrees when tested with a Brix hydrometer, read at the proper temperature for the instrument used.

(2) "Normal canned tangerine juice flavor" means that the product is free from objectionable flavor or off flavor of any kind.

(3) "Free and suspended pulp" is determined by the following method:

(i) Graduated centrifuge tubes with a capacity of 50 ml. are filled with juice and placed in a suitable centrifuge. The speed is adjusted, according to diameter, as indicated in Table I and the juice is centrifuged for exactly 10 minutes. As used herein, "diameter" means the overall distance between the bottoms of opposing centrifuge tubes in operating position. After centrifuging, the milliliter reading at the top of the layer of pulp in the tube is multipled by 2 to give the percentage of pulp.

TABLE I

Diameter	Approximate revolutions per minute	Diameter	Approximate revolutions per minute
10 inches	1,609	15½ inches	1,292
10½ inches	1,570	16 inches	1,271
11 inches	1,531	16½ inches	1,252
11½ inches	1,500	17 inches	1,234
12 inches	1,468	17½ inches	1,216
12½ inches	1,438	18 inches	1,199
13 inches	1,410	18½ inches	1,182
13½ inches	1,381	19 inches	1,167
14 inches	1,379	19½ inches	1,152
14½ inches	1,336	20 inches	1,137
15 inches	1,311		

(4) "Acid" in tangerine juice is determined by titration with standard sodium hydroxide solution, using phenolphthalein as indicator. Acid is calculated as anhydrous citric acid.

(5) "Percent by volume of recoverable oil" in tangerine juice is determined by the following method:

(i) *Equipment.* Oil Separatory trap similar to those illustrated in figure 1 and figure 2.

Gas burner or hot plate.
Ringstand and clamps.
Rubber tubing.
3-liter narrow-neck flask.

(ii) *Procedure.* Exactly 2 liters of juice are placed in a 3-liter flask. Close the stopcock, place distilled water in the graduated tube, run cold water through the condenser from bottom to top, and bring the juice to a boil. Boiling is continued for one hour at the rate of approximately 50 drops per minute. By means of the stopcock, lower the oil into the graduated portion of the separatory trap, remove the trap from the flask, allow it to cool, and record the amount of oil recovered.

The number of milliliters of oil recovered divided by 20 equals the percent by volume of recoverable oil.

(g) *Tolerance for certification of officially drawn samples.* (1) When certifying samples that have been officially drawn and which represent a specific lot of canned tangerine juice the grade will be determined by averaging the score of all containers, provided not more than one-sixth of the containers fail in some respect to meet the requirements of the grade indicated by the average score.

(2) However, none of the containers may fall more than 4 points below the minimum score for the grade indicated by the average score, and if one-sixth or less of the containers fail to meet the requirements of the indicated grade by reason of a limiting rule, the average score of all containers for the limiting factor must be within the range for the grade indicated by the average total score.

(3) This tolerance does not apply if any container falls below any applicable standard of quality promulgated under the Federal Food, Drug, and Cosmetic Act.

(h) *Score sheet for canned tangerine juice.*

COLUMBIA GAS & ELECTRIC CORP.

ORDER RELEASING JURISDICTION OVER LEGAL FEES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 23d day of December 1946.

The Commission by orders entered in this proceeding on August 28, 1946 and September 11, 1946 having permitted to become effective the declaration, as amended, filed by Columbia Gas & Electric Corporation, a registered holding company, pursuant to sections 6, 7, and 12 of the Public Utility Holding Company Act of 1935 and Rules U-42 and U-50 promulgated thereunder, regarding the issuance and sale of $77,500,000 principal amount of Debentures due 1971 and $20,000,000 principal amount of ten-year Serial Debentures (Holding Company Act Release Nos. 6866 and 6885); and

The Commission having in said orders reserved jurisdiction with respect to the payment of all legal fees and expenses of counsel in connection with the proposed transactions; and

Shearman & Sterling & Wright, counsel for the Underwriters having submitted information regarding the nature and extent of the services rendered by it for which a fee of $30,000 and reimbursement of expenses in the amount of $4,368.70 are requested;

The Commission having considered the record and finding that said fee and expenses are not unreasonable:

It is ordered, That the jurisdiction heretofore reserved in the orders of August 28, 1946 and September 11, 1946 with respect to the payment of legal fees and expenses of Shearman & Sterling & Wright be, and the same hereby is, released.

By the Commission.

THE UNITED CORP.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 24th day of December 1946.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by The United Corporation ("United"), a registered holding company. Declarant has designated section 12 (c) of the act and Rule U-46 of the rules and regulations promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than January 7, 1947, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after January 7, 1947, such declaration as filed or as amended, may become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said declaration, which is on file in the offices of this Commission, for a statement of the transactions therein proposed which are summarized below:

United proposes to declare and pay the quarterly dividend of 75 cents per share which will accrue on its $3 Cumulative Preference Stock on January 1, 1947.

As of December 18, 1946, United had outstanding 1,136,199 shares of $3 Preference Stock. However, the number of shares of such stock which may be outstanding on the record date of the proposed dividend cannot be determined at this time, since the company is proceeding with the purchase of a limited number of the shares of such stock as authorized by the Commission's Order of August 9, 1946 (Holding Company Act Release No. 6936). Based on the number of shares outstanding as of December 18, 1946, the proposed dividend would amount to $852,149. United's entire balance in earned surplus, estimated at $766,000 as of January 1, 1947, will be utilized for the payment of such dividends, and the remaining part of the aggregate amount of such dividend will be charged to unrestricted capital surplus which as of November 30, 1946 amounted to $29,557,236.

The proposed transaction is described as a facilitating step in a program contemplated by United to effectuate further partial compliance with the Commission's order of August 14, 1943, directing United to change its capitalization to one class of stock, namely, common stock, and to take such action as will cause it to cease to be a holding company. As part of such program, United pursuant to authorization contained in the Commission's orders of July 17, 194 and September 27, 1946 (Holding Company Act Release Nos. 6787 and 6921 has paid in full all dividends on its $ Preference Stock accumulated up to and including October 1, 1946 and contemplates the filing of plans, which are no before us for approval at this time, providing for further compliance with the Commission's order of August 14, 1946.

The company states that any plans for compliance with that order will be simplified, if all dividends on the $3 Preference Stock are declared and paid as they accrue.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 9816

PROVIDING FOR THE TRANSFER OF PROPERTIES AND PERSONNEL TO THE ATOMIC ENERGY COMMISSION

By virtue of the authority vested in me by the Constitution and the statutes, including the Atomic Energy Act of 1946, and as President of the United States and Commander in Chief of the Army and the Navy, it is hereby ordered and directed as follows:

1. There are transferred to the Atomic Energy Commission all interests owned by the United States or any Government agency in the following property:

(a) All fissionable material; all atomic weapons and parts thereof; all facilities, equipment, and materials for the processing, production, or utilization of fissionable material or atomic energy; all processes and technical information of any kind, and the source thereof (including data, drawings, specifications, patents, patent applications, and other sources) relating to the processing, production, or utilization of fissionable material or atomic energy; and all contracts, agreements, leases, patents, applications for patents, inventions and discoveries (whether patented or unpatented), and other rights of any kind concerning any such items.

(b) All facilities, equipment, and materials, devoted primarily to atomic energy research and development.

2. There also are transferred to the Atomic Energy Commission all property, real or personal, tangible or intangible, including records, owned by or in the possession, custody or control of the Manhattan Engineer District, War Department, in addition to the property described in paragraph 1 above. Specific items of such property, including records, may be excepted from transfer to the Commission in the following manner:

(a) The Secretary of War shall notify the Commission in writing as to the specific items of property or records he wishes to except; and

(b) If after full examination of the facts by the Commission, it concurs in the exception, those specific items of property or records shall be excepted from transfer to the Commission; or

(c) If after full examination of the facts by the Commission, it does not concur in the exception, the matter shall be referred to the President for decision.

3. The Atomic Energy Commission shall exercise full jurisdiction over all interests and property transferred to the Commission in paragraphs 1 and 2 above, in accordance with the provisions of the Atomic Energy Act of 1946.

4. Any Government agency is authorized to transfer to the Atomic Energy Commission, at the request of the Commission, any property, real or personal, tangible or intangible, acquired or used by such Government agency in connection with any of the property or interests transferred to the Commission by paragraphs 1 and 2 above.

5. Each Government agency shall supply the Atomic Energy Commission with a report on, and an accounting and inventory of, all interests and property, described in paragraphs 1, 2 and 4 above, owned by or in the possession, custody, or control of such Government agency, the form and detail of such report, accounting and inventory, to be determined by mutual agreement, or, in case of nonagreement, by the Director of the Bureau of the Budget.

6. (a) There also are transferred to the Atomic Energy Commission, all civilian officers and employees of the Manhattan Engineer District, War Department, except that the Commission and the Secretary of War may by mutual agreement exclude any of such personnel from transfer to the Commission.

(b) The military and naval personnel heretofore assigned or detailed to the Manhattan Engineer District, War Department, shall continue to be made available to the Commission, for military and naval duty, in similar manner, without prejudice to the military or naval status of such personnel, for such periods of time as may be agreed mutually by the Commission and the Secretary of War or the Secretary of the Navy.

7. The assistance and the services, personal or other, including the use of property, heretofore made available by

TITLE 7—AGRICULTURE

Chapter XI—Production and Marketing Administration (War Food Distribution Orders)

PART 1590—SUSPENSION ORDERS

ALLIED MOLASSES CO., INC.

Pursuant to an order of the Acting Administrator, Production and Marketing Administration, dated December 3, 1946 (11 F. R. 14131), a hearing was accorded the Allied Molasses Company, Inc., on December 6, 1946, for the purpose of affording that company an opportunity to present evidence in support of its contention that third parties who in the past have purchased its products have suffered undue and unreasonable hardship by reason of a suspension order heretofore issued against the company on August 16, 1946 (11 F. R. 9329).

From the evidence adduced at the hearing it appears that the aforesaid suspension order is working an unreasonable hardship on persons who are necessarily solely dependent upon that company for blackstrap molasses or for products derived therefrom. It also appears that no other company is in a position to satisfy the requirements of such persons.

Upon due consideration of all of the facts established by the record, *It is ordered*, That paragraph (a) of the aforesaid suspension order be, and the same is, hereby amended to read as follows:

§ 1590.15 *Suspension against Allied Molasses Company, Inc., 386 Smith Street, Perth Amboy, New Jersey.* (a) The respondent, Allied Molasses Company, Inc., 386 Smith Street, Perth Amboy, New Jersey, shall not accept deliveries of edible molasses, as that term is defined in War Food Order No. 51, as amended, until its basic quota of 382,800 gallons, by quarterly accumulations of 95,700 gallons per quarter, shall in the aggregate exceed its over-use of 504,193 gallons: *Provided, however*, That Allied Molasses Company, Inc., may accept delivery of blackstrap molasses containing not over 76 percent sugars, on the dry basis, equal to one-half of its yearly quota, or 191,400 gallons during each marketing year, and to use such blackstrap molasses equal to one-half of its quarterly quota of 47,850 gallons during each calendar quarter until the unused part of its basic quota of 382,800 gallons, by quarterly accumulations of 47,850 gallons per quarter, shall in the aggregate equal its over-use of 504,193 gallons; *And provided further*, That blackstrap molasses, as hereinabove defined may be accepted as hereinabove set forth by Allied Molasses Company, Inc., for the following purposes only: (1) for the manufacture of products for distribution in consumer-size containers, not to exceed 32 ounces, and (2) for the bulk manufacture of thick and thin soy sauces.

The petition of Allied Molasses Company, Inc., for relief from hardship is, in all other respects, denied.

This order shall become effective upon issuance thereof.

PART 94—RINDERPEST AND FOOT-AND-MOUTH DISEASE; PROHIBITED AND RESTRICTED IMPORTATION

MEXICO

Section 94.1 *Existence of rinderpest or foot-and-mouth disease; importations prohibited* of Part 94, Chapter I, Title 9, Code of Federal Regulations (B. A. I. Order 373), as amended, is hereby further amended by adding Mexico to the list of countries named therein, as I have

determined that foot-and-mouth disease now exists in Mexico and have so notified the Secretary of the Treasury.

The protection of the livestock interests of the United States demands that this amendment be made effective at the earliest possible moment. Accordingly, notice and public procedure thereon, as provided for in section 4 (a) of the Administrative Procedure Act (Act of Congress approved June 11, 1946, 60 Stat. 238) are impracticable and contrary to the public interest, and there is good cause for finding that compliance with the publication requirements of section 4 (c) of that act is unnecessary. Neither notice nor hearing is required by any other statute.

This notice shall become effective upon publication in the FEDERAL REGISTER.

TITLE 12—BANKS AND BANKING

Chapter II—Federal Reserve System

Subchapter A—Board of Governors of the Federal Reserve System

PART 221—LOANS BY BANKS FOR THE PURPOSE OF PURCHASING OR CARRYING REGISTERED STOCKS

DETERMINATION AND EFFECT OF PURPOSE OF LOAN

The following interpretation under this part relating to loans by banks for the purpose of purchasing or carrying registered stocks was issued by the Board of Governors of the Federal Reserve System on December 24, 1946:

§ 221.101 *Determination and effect of purpose of loan.* Under this part the original purpose of a loan is controlling. In other words, if a loan originally is not for the purpose of purchasing or carrying registered stocks, changes in the collateral for the loan do not change its exempted character.

However, a so-called increase in the loan is necessarily on an entirely different basis. So far as the purpose of the credit is concerned, it is a new loan, and the question of whether or not it is subject to this part must be determined accordingly.

Certain facts should also be mentioned regarding the determination of the purpose of a loan. Section 221.3 (a) provides in that connection that "a bank may rely upon a statement with respect thereto, accepted by the bank in good faith, signed by an officer of the bank or by the borrower." The requirement of "good faith" is of vital importance here. Its application will necessarily vary with the facts of the particular case, but it is clear that the bank must be alert to the circumstances surrounding the loan. For example, if the loan is to be made to a customer who is not a broker or dealer in securities, but such a broker or dealer is to deliver registered stocks to secure the loan or is to receive the proceeds of the loan, the bank would be put on notice that the loan would probably be subject to this part. It could not accept in good faith a statement to the contrary without obtaining a reliable and satisfactory explanation of the situation.

Furthermore, the "purpose" of a loan means just that. It cannot be altered by some temporary application of the proceeds. For example, if a borrower is to purchase Government securities with the proceeds of a loan, but is soon thereafter to sell such securities and replace them with registered stocks, the loan is clearly for the purpose of purchasing or carrying registered stocks. (Secs. 3 (a), (b), 7, 48 Stat. 882, 886, sec. 23 (a), as amended by sec. 8, 49 Stat. 1379; 15 U. S. C. 78c, 78g, 15 U. S. C., Sup., 78w (a))

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

[Regs., Serial No. 340-B [1]]

LIMITED MECHANIC CERTIFICATE WITH PROPELLER OR AIRCRAFT APPLIANCE RATING

EXTENSION OF EFFECTIVE PERIOD

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 24th day of December 1946.

It appearing that: Special Civil Air Regulation Serial Number 340 expires December 31, 1946; it was intended that the provisions of this regulation would be included in the revision of Part 24, Mechanic Certificates, prior to December 31, 1946; it has not been possible to complete the revision of Part 24 within such time.

The Board finds that the purpose of this regulation is to continue the issuance and effectiveness of limited mechanic certificates until such time as these provisions are included in Part 24; the extension of Special Civil Air Regulation Serial Number 340 should be made effective December 31, 1946, for an additional 6-month period, within which time it is expected that the revision of Part 24 will be completed; and that compliance with paragraphs (a) and (b) of section 4 of the Administrative Procedure Act is unnecessary in the public interest.

Now, therefore: Effective December 31, 1946, Special Civil Air Regulation Serial Number 340 is amended by striking the words "December 31, 1946" and inserting in lieu thereof the words "June 30, 1947."

PART 20—PILOT CERTIFICATES

EXCHANGE OF PILOT CERTIFICATES

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 24th day of December 1946.

It appearing that: § 20.55 of the Civil Air Regulations does not provide for the exchange of pilot certificates issued between January 1, 1942, and July 1, 1945; it is desirable to have all effective pilot certificates issued in accordance with the provisions of Part 20, effective July 1, 1945; the exchange of certificates required by this amendment may be accomplished by the holders of pilot certificates merely by presentation of their private or commercial pilot certificates.

The Board finds that this amendment is for the purpose of clarifying § 20.55 of the Civil Air Regulations, that it imposes no substantive restriction, and that compliance with paragraphs (a) and (b) of section 4 of the Administrative Procedure Act is unnecessary in the public interest.

Now, therefore: Effective December 24, 1946, § 20.55 of the Civil Air Regulations is amended to read as follows:

§ 20.55 *Exchange of certificates.* A private or commercial pilot certificate which was effective on or after January 1, 1942, and which was issued prior to July 1, 1945, will expire on July 1, 1947. Such certificate may be exchanged at any time prior to July 1, 1947, for a pilot certificate and the appropriate ratings provided for in this part. (52 Stat. 984, 1007; 49 U. S. C. 425, 551)

PART 35—FLIGHT ENGINEER CERTIFICATES

At a session of the Civil Aeronautics Board held at its office in Washington, D. C., on the 24th day of December 1946.

It appearing that: The proposal to adopt a new Part 35 of the Civil Air Regulations to provide certification standards for the issuance of flight engineer certificates was circulated to the air carrier industry and to the interested aviation organizations on February 15, 1946, with the request for the submission of any comments and suggestions not later than May 1, 1946; the comments submitted by interested parties have been considered by the Board and the oral comment submitted at various discussion meetings by interested persons has also been considered by the Board; it is desirable to provide for the certification of flight engineers who will serve in connection with civil aircraft as provided by the aircraft operation rules of the Civil Air Regulations.

The Civil Aeronautics Board finds that the notice and public procedure provided for in paragraphs (a) and (b) of section 4 of the Administrative Procedure Act are unnecessary and that this regulation should become effective 90 days after the adoption date.

Now, therefore; Effective March 15, 1947, the Civil Air Regulations are amended by adopting a new Part 35, Flight Engineer Certificates, to read as follows:

In accordance with the provisions of Title VI of the Civil Aeronautics Act of 1938 it is unlawful for any person to serve in any capacity as an airman in connection with any civil aircraft used in air commerce without an airman certificate authorizing him to serve in such capacity, or in violation of the terms of any such certificate. A flight engineer falls within the definition of airman as defined in that act.

The purpose of this part is to provide a means for compliance with the airman requirements of Title VI of the act with respect to the use in air commerce of those types of aircraft which require the services of flight engineers by providing the standards by which flight engineers may be certificated as airmen.

§ 35.05 *Experience.* Applicant shall:

(a) Have had at least 4 years of diversified practical experience in the maintenance and repair of aircraft and aircraft engines, or

(b) Hold a degree in engineering from a recognized college, university, or engineering school and in addition have had at least one year of diversified practical experience in the maintenance and repair of aircraft and aircraft engines, or

(c) Have had at least 200 hours of flight experience in the duties of a flight engineer, or

(d) Have satisfactorily completed a course of ground and flight instruction in at least the items specified in § 35.06 which the Administrator has found adequate for the training of a flight engineer, or

(e) Have had at least 200 hours as a pilot in command of an aircraft having 4 engines or more.

§ 35.06 *Knowledge.* Applicant shall pass a written examination on the following subjects pertaining to aircraft having 4 engines and certificated in the transport category:

(a) Responsibilities and limitations of a flight engineer as specified in the Civil Air Regulations;

(b) Theory of flight and elementary aerodynamics;

(c) Aircraft performance and aircraft engine operation with respect to limitations;

(d) Mathematical computations of engine operation and fuel consumption, including basic meteorology with respect to engine operation;

(e) Aircraft loading and center of gravity computations;

(f) Basic aircraft maintenance and operating procedures.

§ 35.07 *Skill.* Applicant shall pass a practical test in the duties of a flight engineer during flight, on an aircraft having 4 engines and certificated in the transport category, and shall demonstrate competency with respect to:

(a) Normal duties and procedures relating to aircraft, aircraft engines, propellers, and appliances;

(b) Recognition of the malfunctioning of aircraft, aircraft engines, propellers, and appliances, and the taking of appropriate action thereon;

(c) Emergency duties and procedures relating to aircraft, aircraft engines, propellers, and appliances.

§ 35.1 *Certification rules.*

§ 35.10 *Application.* Application shall be made on a form and in the manner prescribed by the Administrator.

§ 35.11 *Duration.* A flight engineer certificate shall remain in effect unless it is suspended, or revoked, or a general termination date for such certificate is fixed by the Board.

§ 35.12 *Surrender.* Any flight engineer shall, upon request, deliver his certificate to the Administrator, if it has been suspended or revoked.

§ 35.13 *Reexamination.* Applicants who have failed in any examination may apply for reexamination on the part failed after 30 days from the date of such failure.

PART 651—PROCEDURE OF THE CIVIL AERONAUTICS ADMINISTRATION

CIVIL PENALTY

Acting pursuant to the authority vested in me by the Civil Aeronautics Act of 1938 as amended, (52 Stat. 973, 1015, 54 Stat. 1233, 1235, 1236) and in accordance with the Administrative Procedure Act (Public Law 404, 79th Congress 2d Session), I hereby amend Part 651, Procedure of the Civil Aeronautics Administration as follows:

1. By amending § 651.21 (b) (11 F. R. 177A-320) to read as follows:

§ 651.21 *Violations of Titles V and VI of the Civil Aeronautics Act of 1938.*
* * *

(b) *Civil penalty.* (1) Pursuant to section 901 of the Civil Aeronautics Act of 1938, as amended (52 Stat. 973, 1015, 54 Stat. 1233, 1235, 1236, 49 U. S. C. 401, 621), any person who violates any provisions of Titles V or VI of such act or section 11 of the Air Commerce Act of 1926, as amended (44 Stat. 568, 45 Stat. 933, 49 U. S. C. 171, 181), shall be subject to a civil penalty of not to exceed $1 000 for each such violation, and any such penalty may be compromised by the Administrator. In the event a civil penalty is contemplated by the Administrator and it is considered advisable to compromise the amount of such civil penalty, the Regional Attorney, or an official of the office of the General Counsel sends a letter to the alleged violator advising him of the provisions of the act or the regulations alleged to have been violated and of his opportunity to compromise the civil penalty. If an offer of compromise in a specified amount is made, the offer is submitted to the Administrator of Civil Aeronautics with a recommendation respecting its acceptance. The Administrator, or the Deputy Administrator may accept or refuse the offer of compromise. If the offer of compromise is accepted, the alleged violator is notified by letter of its acceptance and that such acceptance constitutes full settlement of any civil penalties due under the Act by reason of the alleged violation.

(2) Any person, after receipt of a letter from a Regional Attorney or an official of the Office of the General Counsel informing him of an alleged violation, may submit to the official signing the notice of civil penalty, either orally or in writing, any material or information in answer to or tending to explain, mitigate or extenuate the alleged violation. Any material or information thus submitted will be considered in making the final de-

termination of the amount at which the civil penalty will be compromised.

(3) If a compromise settlement of the civil penalty cannot be effected, the matter will be determined through trial of the case in the United States District Courts upon a civil complaint filed pursuant to section 903 of the Civil Aeronautics Act of 1938, as amended.

(52 Stat. 975, 1015, 54 Stat. 1233, 1235, 1236, Pub. Law 404, 79th Cong.; 49 U. S. C. 401, 621)

This amendment shall become effective upon publication in the FEDERAL REGISTER.

LIMITATIONS OF AUTHORITY; PROCEDURE GOVERNING MAKING OF REQUESTS AND ESTIMATING COSTS

In accordance with Department Order No. 59, effective December 24, 1946, §§ 2.2 and 2.3 (a) (15 CFR, Cum. Supp. 2.2 and 2.3) are revised to read as follows:

§ 2.2 *Limitations of authority.* The minimum charge for any study, compilation or transcript shall be $1. Heads of primary organization units are authorized to approve projects up to an estimated cost of $1,000. All projects estimated to cost more than $1,000 shall be submitted to the Director of the Office of Budget and Managament for review and concurrence. The Director of the Office of Budget and Management shall present all projects estimated to cost more than $10,000 to the Secretary for his approval. No study under the authority of this act shall be approved which would violate existing or future acts requiring that information furnished by contributors be held confidential.

§ 2.3 *Procedure governing the making of requests and estimating costs.* (a) Each applicant desiring a special study or other service authorized by this act shall submit a formal written request therefor. Such request shall be submitted to the head of the primary organization unit concerned who shall either approve or disapprove the request after study of the nature and scope of the project, the estimated cost thereof, and other pertinent information.

EXTENSION OF EXEMPTION FROM REGISTRATION TO CERTAIN GUARANTEES BY FOREIGN GOVERNMENTS

The Securities and Exchange Commission, acting pursuant to the Securities Act of 1933, particularly sections 3 (b) and 19 (a) thereof, and deeming such action necessary and appropriate in the public interest and for the protection of investors and necessary to carry out the provisions of the act, hereby amends paragraph (e) of § 230.-221 (Rule 221 (e) of Regulation A) to read as follows:

§ 230.221 *Securities excluded from exemptions.* * * *

(e) Any securities issued by an individual who is a resident of a foreign country, a corporation incorporated in a foreign country, or any other person organized under the laws of, or having its principal place of business in, a foreign country; *Provided,* That this regulation shall apply to the guarantee by a foreign government of securities of a political subdivision of such foreign government offered in exchange for other securities of such political subdivision;

The Commission finds that the foregoing amendment relieves restriction and that notice and public procedure pursuant to sections 4 (a) and (b) of the Administrative Procedure Act are unnecessary and that the amendment may be declared effective immediately pursuant to section 4 (c) of that act. Accordingly, the amendment shall become effective December 27, 1946.

PART 802—GENERAL LICENSES

GIFT PARCELS TO ENEMY PRISONERS OF WAR

Section 802.31 *Gift parcels to enemy prisoners of war* is hereby amended as follows:

Subparagraph (2) of paragraph (c) is amended to read as follows:

(2) *Gift parcels to prisoners of war in custody of Great Britain.* No gift parcel may be sent under this general license to enemy prisoners of war held by the armed forces of Great Britain except by persons who have received an official label issued by the British Army authorities to prisoners of war and sent to such persons by a prisoner of war. This label must be affixed to address side of the parcel when mailed.

Commodities which may be included in a gift parcel are restricted to nonperishable foodstuffs, clothing, soaps and shaving preparations, medicinals and vitamins, and similar items of a relief nature. No written or printed matter of any kind shall be included in any parcels.

PART 1418—TERRITORIES AND POSSESSIONS

[RMPR 373, Amdt. 118 (§ 1418.151)]

SUGAR IN HAWAII

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 15 is revoked and a new section 15 is added to read as follows:

SEC. 15. *Maximum prices for sales of fine granulated sugar, washed Hawaiian sugar, and raw cane sugar when sold by producers and primary distributors*—(a) *Definitions.* When used in this section the term:

(1) "Producer" or "primary distributor" means any person who produces or manufactures sugars, or the agent of any such person. The term "agent" shall be deemed to include a broker, factor, commission merchant, or a person who takes title but actually performs functions commonly performed by agents, brokers, factors, or commission merchants.

(2) "Canner" means a canner of pineapples.

(b) *Maximum prices for sales of fine granulated sugar by primary distributors located on the island of Oahu*—(1) *Sales of fine granulated sugar to canners.* (i) For orders placed by the canner with the primary distributor before June 25 of any calendar year, the maximum prices per one hundred pounds shall be as follows:

(a) $7.75 when packaged in a paper container.

(b) $7.81 when packaged in a cotton container.

(c) $7.85 when packaged in a jute container with cotton liner.

(ii) For orders placed by the canner with the primary distributor on and after June 25 of any calendar year, the maximum prices per one hundred pounds shall be:

(a) $8.00 when packaged in a paper container.

(b) $8.06 when packaged in a cotton container.

(c) $8.10 when packaged in a jute container with cotton liner.

(iii) The maximum prices specified in (i) and (ii) above:

(a) Include delivery by the primary distributor f. o. b. cars of the Oahu Railway and Land Company at the buyer's cannery in Honolulu, or the depot or wharf of the Oahu Railway and Land Company in Honolulu, or f. a. s. Inter-Island Steamer, at the buyer's option.

(b) Shall be discounted by 2% for cash within five days, and time from which the five-day period shall begin to run shall be determined in accordance with the customary practice which existed between the primary distributor and canner prior to the effective date of Maximum Price Regulation 373.

(c) Are for a quality and polarization of granulated sugar not below the average quality and polarization delivered to canners by the primary distributor during the calendar year 1942.

(d) May be adjusted in accordance with the grade and polarization differentials employed by the primary distributor in the calendar year 1942.

(2) *Sales of fine granulated sugar to persons other than canners.* For sales of fine granulated sugar to persons other than canners, the maximum price per one hundred pounds, f. o. b. seller's refinery, shall be as follows:

(i) $8.00 when packaged in a paper container.

(ii) $8.06 when packaged in a cotton container.

(iii) $8.10 when packaged in a jute container with cotton liner.

(iv) The following amounts may be added to the maximum prices set forth in (2) (i), (ii) and (iii) above for packaging in less than 100 pound packages:

(a) For packaging in 5 pound pockets, $0.45 per 100 pounds.

(b) For packaging in 10 pound pockets, $0.30 per 100 pounds.

(c) For packaging in 25 pound pockets, $0.20 per 100 pounds.

(v) The maximum prices specified in (2) (i), (ii) and (iii) above are for a quality and polarization of fine granulated sugar not below the average quality and polarization delivered to persons other than canners during the calendar year 1942, and shall be adjusted in accordance with the grade and polarization differentials employed by the primary distributor in the calendar year 1942.

(c) *Maximum prices for sales of fine granulated sugar by primary distributors located on the island of Maui*—(1) *Sales of fine granulated sugar to canners.* For sales of fine granulated sugar to canners, the maximum prices per one hundred pounds, f. o. b. railroad cars or buyer's conveyances, Paia, Maui, shall be as follows:

(i) $7.70 when packaged in a paper container.

(ii) $7.76 when packaged in a cotton container.

(iii) $7.80 when packaged in a jute container with cotton liner.

(iv) The maximum prices specified in (c) (1) above are for a quality and polarization of fine granulated sugar not below the average quality and polarization delivered to the same class of purchaser during the calendar year 1942, and may be adjusted in accordance with the grade and polarization differentials employed by the primary distributor in December 1942.

(2) *Sales of fine granulated sugar to persons other than canners.* For sales of fine granulated sugar to persons other than canners, the maximum prices per one hundred pounds, f. o. b. seller's refinery, shall be as follows:

(i) $7.75 when packaged in a paper container.

(ii) $7.81 when packaged in a cotton container.

(iii) $7.85 when packaged in a jute container with cotton liner.

(iv) The following amounts may be added to the maximum prices set forth in (i), (ii) and (iii) above for packaging in less than 100 pound packages:

(a) For packaging in 5 pound pockets, $0.45 per 100 pounds.

(b) For packaging in 10 pound pockets, $0.30 per 100 pounds.

(c) For packaging in 25 pound pockets, $0.20 per 100 pounds.

(v) The maximum prices specified in (1), (ii) and (iii) above are for a quality and polarization of fine granulated sugar not below the average quality and polarization delivered to the same class of purchaser during the calendar year 1942, and may be adjusted in accordance with the grade and polarization differentials employed by the primary distributor in December 1942.

(d) *Automatic adjustment of maximum prices.* If, after November 20, 1946, the maximum price established by Maximum Price Regulation 60 applicable to mainland primary distributors of fine granulated cane sugar is increased by the Office of Price Administration, the maximum prices set forth in paragraphs (b) and (c) above may be increased by an amount equal to such increase, subject to the same recapture conditions and any other conditions that may be imposed by the mainland regulation.

(e) *Maximum prices for sales by producers of washed Hawaiian sugar.* (1) Maximum prices for sales by producers of washed Hawaiian sugar (sugar produced in the Territory of Hawaii polarizing between 98° and 99.5°) shall be as follows:

On the island of Maui: $6.47 per 100 lbs. f. o. b. mill.

On all other islands: $6.71 per 100 lbs. delivered to a purchaser on the island on which the producer's mill is located.

(2) Whenever the maximum prices of fine granulated sugar are increased in accordance with the provisions of paragraph (d), the maximum prices set forth in subparagraph (1) above may be increased by the percentage by which the maximum prices established in paragraphs (b) and (c) have been increased, subject to the same recapture conditions and any other conditions that may be imposed by Maximum Price Regulation 60.

(f) *Maximum prices for sales of raw cane sugar.* (1) The maximum price for sales of raw cane sugar in the Territory of Hawaii shall be the applicable maximum price established by Maximum Price Regulation 16 for off-shore raw cane sugar at the port of San Francisco, less an amount equal to ocean freight from the Territory of Hawaii to San Francisco. If, after November 20, 1946, the maximum price is increased by the Office of Price Administration, such increase shall be subject to the same recapture conditions and any other conditions that may be imposed by the mainland regulation.

(g) *Application of Supplementary Regulation 2.* The provisions of this section 15 supersede the provisions of sections 2 and 5 of Supplementary Regulation 2 to the General Maximum Price Regulation for the Territory of Hawaii with respect to the sale, purchase and delivery of raw cane and washed Hawaiian sugars, except that the recapture provisions thereof shall remain in effect until the conditions imposed by such provisions have been complied with.

This amendment shall become effective as of November 20, 1946.

Issued this 30th day of December 1946.

J. W. FOLLIN,
Acting Temporary Controls Administrator.

Statement of the Considerations Involved in the Issuance of Amendment 118 to Revised Maximum Price Regulation 373

The accompanying amendment revises section 15 of Revised Maximum Price Regulation 373 and accomplishes the following:

First, controls of raw cane and washed Hawaiian sugars are removed from Supplementary Regulation 2 to the General Maximum Price Regulation for the Territory of Hawaii and brought within the coverage of section 15 so as to centralize controls of all sugars at all levels in a single regulation. Thus, section 15 now provides for sales by producers and primary distributors of raw and fine granulated cane sugars and washed Hawaiian sugars; sections 39 and 40 of Revised Maximum Price Regulation 373 continue to provide, as heretofore, for sales of all sugars at the retail and wholesale levels, respectively. The recapture provisions of Supplementary Regulation 2 remain in effect, however, as applied to stocks held in inventory on September 18, 1946, the date when maximum prices of raw cane and refined sugars were increased by 1.37 and 1.5 cents per pound, respectively.

Second, the maximum prices of raw cane sugar are increased 36.5 cents per hundredweight and of fine granulated sugar 40 cents per hundredweight, and maximum prices of washed Hawaiian sugar are also increased proportionately. These are the same increases that were authorized on the mainland on November 20, 1946, and are made applicable to the Territory for the same reasons the earlier increases were made to apply as explained in the applicable statements of considerations.

Third, an automatic adjustment provision is provided under which maximum prices may be increased by the same amount of any increases granted on the mainland after November 20, 1946, subject, however, to the same recapture conditions and any other conditions that may be imposed by mainland regulations. As the prices of sugars produced and sold in the Territory have always been tied to mainland prices and considered together, the automatic adjustment provision will remove the necessity of amending the regulation to authorize the same increases granted to mainland sellers. In this connection, a different method for pricing raw cane sugar is provided by this amendment. Heretofore, under Supplementary Regulation 2, a seller's maximum price for raw cane sugar was the price established for him by the General Maximum Price Regulation for Hawaii plus such increases as were authorized. Under this amendment, a seller's maximum price of raw cane sugar is the applicable maximum price established by Maximum Price Regulation 16 for off-shore raw cane sugar at the port of San Francisco, less an amount equal to the ocean freight from the Territory to San Francisco. The resulting maximum price in the Territory would be the same whether determined under section 15 or under Supplementary Regulation 2 but the method now provided for pricing raw cane sugar will, as in the case of fine granulated and washed sugars, avoid the necessity of amending the regulation to provide for an increased price should any increase be granted to mainland sellers of raw sugar in the future.

Lastly, the provisions pertaining to "classes of purchasers" have been eliminated because the only distinct class of purchaser—canners of pineapples—is recognized by the establishment of separate ceiling prices applicable to sales to canners. The prices so established are the prices which prevailed prior to this amendment.

Prior to this amendment representative members of the industry were advised and consulted and their recommendations—some of which are incorporated in this amendment—were considered. For the foregoing reasons, the Administrator finds that the actions taken by this amendment are generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and the applicable Executive orders.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 13—COMMERCIAL RADIO OPERATORS

[Order 128-B]

APPLICATIONS FOR RENEWAL OF LICENSES

At a session of the Federal Communications Commission, held at its offices in Washington, D. C., on the 17th day of December 1946;

Whereas, The Commission by its Order No. 128-A, adopted June 20, 1946, provided that under certain conditions applications filed or mailed not later than December 31, 1946 for the renewal of certain commercial radio operator licenses, which were valid on December 7, 1941 and had expired, might be acted upon by the Commission notwithstanding the provisions of § 13.11 of the Commission's rules governing commercial radio operators; and

Whereas, It appears that the provisions of Commission Order No. 128-A should be continued for an additional period of six months in order to provide for the renewal of numerous commercial radio operator licenses which have expired or will expire, held by persons serving or who have served in the armed forces of the United States or the United States Maritime Service, or who are or have been employed outside the continental limits of the United States; and

Whereas, The Commission by its Order No. 77-G, adopted today, effective January 1, 1947, has suspended until June 30, 1947 § 13.28 of the Commission's rules in so far as that section requires a showing of service or use as a condition precedent to the renewal of a commercial operator license;

Now, therefore, it is ordered, That any application filed or mailed not later than June 30, 1947, for the renewal of a commercial radio operator license (other than a Temporary Emergency Radiotelegraph Second Class Operator License or a Temporary Limited Radiotelegraph Second Class Operator License) which was valid on or after December 7, 1941 and has expired by its own terms without having been cancelled or suspended, may, until the further order of the Commission, be acted upon, notwithstanding the provisions of § 13.11, if a statement is filed as a part of the renewal application showing that (1) the applicant is serving in the armed forces of the United States or has been honorably discharged therefrom since December 7, 1941; or (2) the applicant is serving in the United States Maritime Service or has voluntarily left that Service since December 7, 1941; or (3) the applicant is or has been employed outside the continental United States and has been unable to file timely application for renewal of license because of such employment outside the continental United States.

It is further found and ordered, That, whereas, authority for this order is contained in sections 303 (l) and (r) of the Communications Act of 1934, as amended, and the effect of the order is to extend for an additional period after December 31, 1946 the relief from certain restrictions as now afforded by Commission Order No. 128-A, and is noncontroversial, and it is in the public interest that this order be made effective not later than January 1, 1947, notice and public procedure required by section 4 of the Administrative Procedure Act are, hereby, found unnecessary, and this order should be, and is hereby, made effective January 1, 1947.

PART 12—AMATEUR RADIO SERVICE
PART 13—COMMERCIAL RADIO OPERATORS

[Order 77-G]

RENEWAL OF LICENSES

At a session of the Federal Communications Commission, held at its office in Washington, D. C. on the 17th day of December 1946;

Whereas, § 12.27 of the Commission's rules governing amateur radio service and § 13.28 of the Commission's rules governing commercial radio operators require a showing of service or use as a condition precedent to the renewal, respectively, of an amateur or commercial operator license; and

Whereas, the Commission by its Order No. 77-F, dated June 20, 1946, suspended until December 31, 1946, § 12.27 of its rules governing amateur radio service and § 13.28 of its rules governing commercial radio operators, in so far as those sections require a showing of service or use as a condition precedent to the renewal, respectively, of an amateur or commercial operator license; and

Whereas, it appears that it would be advisable to extend for an additional period of six months the suspension of the showing of service or use requirement in order to provide a cushion for the full return to normal peacetime procedures;

Now, therefore, it is ordered, That § 12.27 of the Commission's rules governing amateur radio service and § 13.28 of its rules governing commercial radio operators be, and they hereby are, suspended until further order of the Commission, but in no event beyond June 30, 1947.

It is further found and ordered, That, whereas, authority for this order is contained in sections 303 (l) and (r) of the Communications Act of 1934, as amended, and the effect of the order is to extend for an additional period after December 31, 1946 the relief from certain restrictions as now afforded by Commission Order No. 77-F, and is non-controversial, and it is in the public interest that this order be made effective not later than January 1, 1947, notice and public procedure required by section 4 of the Administrative Procedure Act are, hereby, found unnecessary, and this order should be, and is hereby, made effective January 1, 1947.

SUSPENSION OF FOLLOW-LOT RULE AND TWO-FOR-ONE RULE

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 26th day of December A. D. 1946.

Upon further consideration of the provisions of Service Order No. 68 (8 F. R. 8513), as amended (8 F. R. 8513, 14224, 16265; 9 F. R. 7206, 14306; 10 F. R. 6040, 8142, 9720, 12090; 11 F. R. 562, 6983), and good cause appearing therefor: It is ordered, that:

Section 95.15 *Suspension of follow-lot rule and two-for-one rule*, of Service Order No. 68, as amended, be, and it is hereby, further amended by substituting the following paragraph (e) for paragraph (e) thereof:

(e) *Expiration date.* This order as amended shall expire at 11:59 p. m., June 30, 1947, unless otherwise modified, changed, suspended or annulled by order of this Commission.

It is further ordered, that this order shall become effective at 12:01 a. m., December 31, 1946; that a copy of this order and direction be served upon the State railroad regulatory bodies of each State, and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Office of the Secretary

[7 CFR, Part 962]

[No. 173]

FRESH PEACHES

NOTICE OF REFERENDUM TO BE CONDUCTED AMONG PRODUCERS IN GEORGIA; DESIGNATION OF REFERENDUM AGENTS TO CONDUCT SUCH REFERENDUM

Pursuant to the applicable provisions of Marketing Agreement No. 99 and Order No. 62 (7 CFR, Cum. Supp., 962.1 et seq.), and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), it is hereby directed that a referendum be conducted among the producers who, during the calendar year 1946 (which period is hereby determined to be a representative period) have been engaged, in the State of Georgia, in the production of peaches for market to determine whether a majority of such producers favor the termination of the aforesaid marketing agreement and order. D. M. Rubel, G. A. Nahstoll, and D. K. Young, in the Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, are hereby designated as agents of the Secretary of Agriculture to perform, jointly or severally, the following functions in connection with the referendum:

(a) Conduct said referendum in the manner herein prescribed:

(1) By giving opportunity to each of the aforesaid producers to cast his ballot in the manner herein authorized, relative to the aforesaid termination of the marketing agreement and order, on a copy of the appropriate ballot form. A cooperative association of such producers, bona fide engaged in marketing fresh peaches grown in the State of Georgia or in rendering services for or advancing

the interests of the producers of such peaches, may vote for the producers who are members of, stockholders in, or under contract with, such cooperative association (such vote to be cast on a copy of the appropriate ballot form), and the vote of such cooperative association shall be considered as the vote of such producers.

(2) By conducting said referendum during the period January 31 through February 10, 1947, both dates inclusive.

(3) By giving public notice, as prescribed in (a) (4), (i) of the time during which the referendum will be conducted, (ii) that any ballot may be cast by mail, and (iii) that all ballots so cast must be addressed to D. K. Young, Chief, Southeastern Marketing Field Office, Fruit and Vegetable Branch, 449 West Peachtree Street, Atlanta 3, Georgia, and must be postmarked not later than February 10, 1947.

(4) By giving public notice (i) by utilizing available agencies of public information (without advertising expense), including both press and radio facilities in the State of Georgia; (ii) by mailing a notice thereof (including a copy of the appropriate ballot form) to each such cooperative association and to each producer whose name and address is known; and (iii) by such other means as said referendum agents or any of them may deem advisable.

(5) By conducting meetings of producers and arranging for balloting at the meeting places, if said referendum agents or any of them determines that voting shall be at meetings. At each such meeting, balloting shall continue until all of the producers who are present, and who desire to do so, have had an opportunity to vote. Any producer may cast his ballot at any such meeting in lieu of voting by mail.

(6) By giving ballots to producers at the meetings; and receiving any ballots when they are cast.

(7) By securing the name and address of each person casting a ballot, and inquiring into the eligibility of such person to vote in the referendum.

(8) By giving public notice of the time and place of any meetings authorized hereunder by posting a notice thereof, at least two days in advance of each such meeting, at each such meeting place, and in two or more public places within the applicable area; and, so far as may be practicable, by giving additional notice in the manner prescribed in paragraph (a) (4).

(9) By forwarding to D. K. Young, Chief, Southeastern Marketing Field Office, Fruit and Vegetable Branch, 449 West Peachtree Street, Atlanta 3, Georgia, immediately after the close of the referendum, the following:

(i) A register containing the name and address of each producer to whom a ballot form was given;

(ii) A register containing the name and address of each producer from whom an executed ballot was received;

(iii) All of the ballots received by the respective referendum agent in connection with the referendum, together with a certificate to the effect that the ballots forwarded are all of the ballots cast and which were received by the respective agent during the referendum period;

(iv) A statement showing when and where each notice of referendum posted by said agent was posted and, if the notice was mailed to producers, the mailing list showing the names and addresses to which the notice was mailed and the time of such mailing; and,

(v) A detailed statement reciting the method used in giving publicity to such referendum.

(10) By appointing any county agricultural agent in the State of Georgia, and any other persons deemed necessary or desirable, to assist the said referendum agents in performing their duties hereunder. Each such county agricultural agent and other person so appointed shall serve without compensation and may be authorized, by the said referendum agents or any of them, to perform any or all of the functions set forth in paragraphs (a) (6), (7), (8), and (9) (which, in the absence of such appointment of subagents, shall be performed by said referendum agents) in accordance with the requirements herein set forth.

(b) Upon receipt by D. K. Young of all ballots cast in accordance with the provisions hereof, and such other information and data as may be required pursuant hereto, he shall forward the ballots, together with the information and data, to the Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C. The Fruit and Vegetable Branch shall canvass the ballots and prepare and submit to the Secretary a detailed report covering the results of the referendum, the manner in which the referendum was conducted, the extent and kind of public notice given, and all other information pertinent to the full analysis of the referendum and its results.

(c) Each referendum agent and appointee pursuant hereto shall not refuse to accept a ballot submitted or cast; but should they, or any of them, deem that a ballot should be challenged for any reason, or if such ballot is challenged by any other person, said agent or appointee shall endorse above his signature, on the back of said ballot, a statement that such ballot was challenged, by whom challenged, and the reasons therefor; and the number of such challenged ballots shall be stated when they are forwarded as provided herein.

(d) All ballots shall be treated as confidential.

The Director of the Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, is hereby authorized to prescribe additional instructions, not inconsistent with the provisions hereof, to govern the procedure to be followed by the said referendum agents and appointees in conducting said referendum.

Copies of the aforesaid marketing agreement and order may be examined in the Office of the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, Washington 25, D. C., and at the Southeastern Marketing Field Office, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, 449 West Peachtree Street, Atlanta, Georgia.

Ballots to be cast in the referendum may be obtained from any referendum agent, and any appointee hereunder.

Done at Washington, D. C., this 27th day of December 1946.

SECURITIES AND EXCHANGE COMMISSION

[File Nos. 54-108, 59-81]

CRESCENT PUBLIC SERVICE CO. ET AL.

ORDER RELEASING JURISDICTION OVER FEES AND EXPENSES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 27th day of December A. D. 1946.

In the matters of Crescent Public Service Company, Central Ohio Light & Power Company, Colorado Central Power Company, Empire Southern Service Company, Helene Curley Rea, Robert W. Rea, Floyd W. Woodcock, Kathleen T. Woodcock, Robin Corporation, (Applicants) File No. 54-108; Crescent Public Service Company, Central Ohio Light & Power Company, Colorado Central Power Company, Empire Southern Service Company, (Respondents) File No. 59-81.

The Commission having issued its findings and opinion dated January 22, 1946, and its supplemental findings and order dated February 1, 1946, in which, among other things, we approved an amended plan filed by Crescent Public Service Company ("Crescent"), a registered holding company, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, and we granted and permitted to become effective certain applications and declarations of Crescent and Central Ohio Light & Power Company ("Central Ohio") in connection with a proposed recapitalization of Central Ohio; and

The Commission in its memorandum findings and order dated March 28, 1946, having granted the application of Central Ohio with respect to the proposed sale at competitive bidding of 12,000 shares of new preferred stock; and

The Commission in the above mentioned orders having reserved jurisdiction over the payment of all fees and expenses in connection with Crescent's section 11 (e) plan, as amended, and related transactions, and the issuance and sale by Central Ohio of 12,000 shares of new preferred stock; and

Information having been provided with respect to the fees and expenses of Crescent and Central Ohio incurred prior to October 31, 1946, in connection with said plan, as amended, and related transactions and the issuance and sale by Central Ohio of 12,000 shares of new preferred stock; and

Crescent and Central Ohio having stated further that when a final determination has been made of Crescent's Federal Tax liabilities a request will be filed with the Commission for approval of any fees and expenses incurred subsequent to October 31, 1946; and

The Commission having examined the records and the data submitted in support of the fees and expenses incurred prior to October 31, 1946, and finding that the amounts thereof, under the circumstances of this case, are not unreasonable and that jurisdiction over such matters should be released;

It is hereby ordered, That the jurisdiction heretofore reserved over the fees and expenses of Crescent and Central Ohio arising out of the aforementioned transactions be released, as provided below:

J. G. WHITE & CO., INC.

ORDER EXTENDING EXEMPTION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 27th day of December A. D. 1946.

J. G. White & Company, Inc., having heretofore been granted a temporary exemption from the Public Utility Holding Company Act of 1935, pursuant to section 3 (a) (4) thereof, by Commission order of December 26, 1945; such exemption having been granted for a period of twelve months in connection with the acquisition by J. G. White & Company, Inc. of certain interests in The Trinidad Electric Transmission, Railway and Gas Company (now Frontier Power Company), except that J. G. White & Company, Inc. and its subsidiaries [1] as such were not exempted from the provisions of sections 6, 7, 9, 10, 12 (b), 12 (c) and 12 (f) of the act insofar as these sections concern Frontier Power Company; and

J. G. White & Company, Inc. having requested that the Commission extend the period of such exemption to and including January 31, 1947; and

The Commission having considered such request and deeming it appropriate in the public interest and in the interests of investors and consumers to grant such request:

It is ordered, That the exemption heretofore granted J. G. White & Company, Inc., and its subsidiaries, as such, pursuant to section 3 (a) (4) of the act, for a period of twelve months from the date of acquisition of the common stock of The Trinidad Electric Transmission, Railway and Gas Company, be, and hereby is, extended to and including January 31, 1947 except that J. G. White & Company, Inc. and its subsidiaries, as such, shall not be exempted from the provisions of sections 6, 7, 9, 10, 12 (b), 12 (c) and 12 (f) of the act insofar as these sections concern Frontier Power Company (formerly The Trinidad Electric Transmission, Railway and Gas Company).

ARKANSAS-MISSOURI POWER CORP.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 26th day of December A. D. 1946.

Arkansas-Missouri Power Corporation ("Arkansas"), a registered holding company having filed an application-declaration pursuant to the Public Utility Holding Company Act of 1935, particularly sections 12 (d) and 12 (e) thereof and Rules U-44 and U-62 thereunder with respect, among other things, to the following:

Arkansas, a Delaware corporation, proposes to transfer its assets to Arkansas-Missouri Power Company, a corporation recently organized under the laws of the State of Arkansas, which company will assume the liabilities of Arkansas and will issue its capital stock to the stockholders of Arkansas on a share for share basis upon the surrender for cancellation of the outstanding shares of capital stock of Arkansas. Arkansas will then dissolve.

Arkansas having proposed to solicit proxies in connection with a special meeting of its stockholders to be called for the purpose of voting upon the said proposals, and having filed copies of the proposed notice of such meeting, proxy, and proxy statement; and

Arkansas having requested that the declaration with respect to the proxy solicitation material be considered and disposed of independently of the principal transactions and that the Commission enter its separate order permitting said declaration as to all such proxy solicitation material to become effective; and

It appearing that the solicitation of authorizations of stockholders, as proposed to be conducted, does not make it necessary or appropriate in the public interest or for the protection of investors or consumers or to prevent the circumvention of the provisions of the act or the rules and regulations thereunder that the Commission issue any order with respect thereto other than an order permitting the declaration as to such solicitation to become effective:

It is therefore ordered, That, without passing upon the merits of the application-declaration filed with respect to the principal transactions herein, the declaration as to solicitation of authorizations be, and it is hereby permitted to become effective forthwith.

By the Commission.

WISCONSIN POWER AND LIGHT CO. AND NORTH WEST UTILITIES CO.

ORDER GRANTING APPLICATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 26th day of December A. D. 1946.

North West Utilities Company ("North West"), a registered holding company, and its subsidiary, Wisconsin Power and Light Company ("Wisconsin"), a public utility company, having filed a joint application and amendments thereto pursuant to the Public Utility Holding Company Act of 1935 with respect to the following transactions:

Wisconsin proposes to issue and sell to North West, and North West proposes to acquire, 100,000 shares of common stock of the par value of $10 per share for a cash consideration of $1,000,000. Expenses estimated at $2,100, will be paid by Wisconsin. Wisconsin proposes to use the net proceeds for the payment in part of the cost of additions and betterments to its utility facilities. All holders of record of the common stock of Wisconsin, other than North West, have waived their preemptive rights with respect to the common stock proposed to be issued.

Said application having been filed on November 25, 1946, and the latest amendment thereto having been filed on December 9, 1946, and notice of such filing having been duly given in the manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said application within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The applicants having requested that the Commission's order granting the application be issued at an early date and become effective forthwith in order to permit the consummation of the proposed transactions without delay and the Commission deeming it appropriate to grant such request; and

The Commission finding that the Public Service Commission of Wisconsin has expressly authorized the transactions hereinabove set forth and the Commission being satisfied on the basis of the record that the applicable requirements of the act, particularly sections 6 (b) and 10 thereof, are met, and that it is appropriate in the public interest and in the interest of investors and consumers that the application, as amended, be granted;

It is hereby ordered, Effective forthwith, pursuant to said Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24, that the aforesaid application, as amended, be, and the same hereby is, granted.

By the Commission.

CONSOLIDATED ELECTRIC AND GAS CO. AND CHAMBERSBURG GAS CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pennsylvania, on the 27th day of December A. D. 1946.

Consolidated Electric and Gas Company ("Consolidated"), a registered holding company, and Chambersburg Gas Company ("Chambersburg"), a gas utility subsidiary of Consolidated, have filed a joint application-declaration, with an amendment thereto, pursuant to the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder regarding the following transactions:

Chambersburg, a wholly-owned subsidiary of Consolidated, has entered into an agreement with the Borough of Chambersburg, Pennsylvania, pursuant to which the Borough is purchasing, or causing to be purchased, from Chambersburg all of its assets except cash, accounts receivable, and Government securities owned by Chambersburg, for the sum of $370,000, in cash. The amendment filed in these proceedings contains a copy of an order of the Pennsylvania Public Utility Commission approving the purchase and sale of these assets.

As at October 31, 1946, Chambersburg had outstanding 6% demand notes in the aggregate base amount of $37,579 and 3,754 shares of common stock, $50 par value per share, all owned by Consolidated. These securities of Chambersburg are pledged by Consolidated with Central Hanover Bank and Trust Company as part security for certain indebtedness of Consolidated. Upon the consummation of the sale by Chambersburg of all of its physical assets, Chambersburg proposes to discharge its note indebtedness to Consolidated and to pay to Consolidated $310,000 as liquidation dividend.

Consolidated proposes to deposit with Central Hanover Bank and Trust Company $370,000 (approximately $22,500 from cash on hand in addition to the sums to be received from Chambersburg) as part payment on its indebtedness and in order to obtain release of the pledged securities of Chambersburg. Consolidated thereupon proposes to deliver the promissory notes to Chambersburg for cancellation against the payment, above mentioned.

Subsequently, but not later than May 1, 1947, Chambersburg proposes to make its final distribution in liquidation (as at October 31, 1946 this would amount to $35,904 in cash): Consolidated will then assume any remaining liabilities of Chambersburg and surrender to Chambersburg its common stock for retirement and cancellation in complete liquidation and dissolution of Chambersburg.

The joint application-declaration was filed on December 9, 1946. Notice of this filing was duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to the act, and the Commission has not received a request for hearing with respect thereto within the period specified in said notice, or otherwise, and has not ordered a hearing thereon.

The Commission finding with respect to this joint application-declaration that the requirements of the applicable provisions of the act and rules thereunder are satisfied, deeming it appropriate in the public interest and in the interest of investors and consumers that said joint application be granted and said joint declaration be permitted to become effective; and further deeming it appropriate to grant the request of applicants-declarants to accelerate the effective date of this order;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act, and subject to the terms and conditions prescribed in Rule U-24, that this joint application be, and the same hereby is, granted and that this joint declaration be, and the same hereby is, permitted to become effective forthwith.

COLUMBIA GAS & ELECTRIC CORP. AND ATLANTIC SEABOARD CORP.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its

office in the City of Philadelphia, Pennsylvania, on the 18th day of December 1946.

Columbia Gas & Electric Corporation ("Columbia"), a registered holding company, and its wholly-owned subsidiary, Atlantic Seaboard Corporation ("Seaboard"), also a registered holding company, having filed a supplemental declaration to a previous declaration permitted to become effective by this Commission (4 S. E. C. 406 (1939)) pursuant to the Public Utility Holding Company Act of 1935, particularly section 7 thereof, with respect to the following adjustments in their accounts:

(1) The reclassification by Columbia of the balance at September 30, 1946, in all of its present surplus accounts and "Unclassified Profit or Loss from Sale of Investments in Subsidiaries," aggregating $133,723,378, into an account designated "Capital Surplus."

(2) The restatement by Columbia and Seaboard of their investments in their respective subsidiaries to adjusted underlying net book worth at September 30, 1946, and the charging by Columbia in connection therewith of $6,624,825 to said Capital Surplus and of $4,427,067 to presently existing Reserve for Investments.

(3) The crediting to said Capital Surplus by Columbia of the remaining balance of $1,741,492 in Reserve for Investments and $794,819 of payments to be made by subsidiaries from their surpluses at September 30, 1946.

(4) The appropriation by Columbia of $4,840,056 from said Capital Surplus for the creation of additional Reserves for Investments by Columbia to provide for the excess of book value of property accounts of subsidiaries over the original cost thereof; and the appropriation by Seaboard of $796,628 from its Special Capital Surplus for the creation of similar Reserves for Investments.

(5) The transfer by Columbia of $110,068,866 of said Capital Surplus to common stock capital account, thereby making the stated value thereof equivalent to $10 per share, leaving a balance in Capital Surplus of $14,725,943, which will be available for appropriate charges applicable to the period prior to October 1, 1946.

Said supplemental declaration having been filed on November 26, 1946, and notice of said filing having been given in the form and manner prescribed in Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said declaration within the period specified in said notice or otherwise, and not having ordered a hearing thereon; and

Columbia and Seaboard having requested that the Commission take appropriate action to accelerate its order herein and that said order become effective forthwith, and the Commission deeming it appropriate to grant such request; and

The Commission finding with respect to said declaration that the requirements of the applicable provisions of the act and the rules thereunder are satisfied and that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interests of investors and consumers that said declaration be permitted to become effective.

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said act, and subject to the terms and conditions prescribed in Rule U-24, that said declaration be, and the same hereby is, permitted to become effective forthwith.

By the Commission.

COLUMBIA GAS & ELECTRIC CORP.

NOTICE REGARDING FILING OF DECLARATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 19th day of December 1946.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Columbia Gas & Electric Corporation ("Columbia"), a registered holding company. Declarant has designated section 12 of the act and Rule U-45 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than December 30, 1946, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after December 30, 1946, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said declaration, which is on file in the offices of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Columbia proposes to make a cash contribution of $1,000,000 to its wholly-owned subsidiary, United Fuel Gas Company ("United"), to enable United to meet obligations incurred in connection with a construction program. Columbia proposes to increase its investment in the common stock of United in the amount of the capital contribution which United will credit to "Paid-In Capital Surplus".

Declarant states that the transactions are not subject to the jurisdiction of any State Commission or any other Federal commission.

Columbia requests that the Commission's order permitting the declaration to become effective be issued at the earliest date possible.

By the Commission.

COLUMBIA GAS & ELECTRIC CORP. AND ATLANTIC SEABOARD CORP.

NOTICE REGARDING FILING OF JOINT DECLARATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 19th day of December 1946.

Notice is hereby given that a joint declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Columbia Gas & Electric Corporation ("Columbia"), a registered holding company, and by its wholly-owned subsidiary, Atlantic Seaboard Corporation ("Seaboard"), also a registered holding company. Declarants have designated section 12 of the act and Rule U-45 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than December 30, 1946, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said joint declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. At any time after December 30, 1946, said joint declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

All interested persons are referred to said declaration, which is on file in the offices of this Commission for a statement of the transactions therein proposed, which are summarized as follows:

Columbia proposes to make a capital contribution of $500,000 in cash to Seaboard, which, in turn, proposes to make a similar contribution to its wholly-owned subsidiary, Virginia Gas Transmission Corporation ("Virginia"), to enable Virginia to meet obligations incurred in connection with its construction program. Columbia proposes to add the amount of the contribution to the book value of its investment in the common stock of Seaboard, and Seaboard proposes to increase its investment in the common stock of Virginia in like manner. Both Seaboard and Virginia will credit the capital contribution to "Paid-In Capital Surplus."

Declarants state that the proposed transactions are not subject to the jurisdiction of any State commission or any other Federal commission.

COLUMBIA GAS AND ELECTRIC CORP. ET AL.

ORDER GRANTING APPLICATIONS AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 23d day of December 1946.

In the matters of Columbia Gas & Electric Corporation, Central Kentucky Natural Gas Company, and Cincinnati Gas Transportation Company, File No. 70-1266; Columbia Gas & Electric Corporation, United Fuel Gas Company, Warfield Natural Gas Company, Huntington Development and Gas Company, Point Pleasant Natural Gas Company, Central Kentucky Natural Gas Company, and Cincinnati Gas Transportation Company, File No. 70-965.

Columbia Gas & Electric Corporation ("Columbia"), a registered holding company, and certain of its subsidiaries, namely, United Fuel Gas Company ("United Fuel"), Warfield Natural Gas Company ("Warfield"), Huntington Development and Gas Company ("Huntington Development") and Point Pleasant Natural Gas Company ("Point Pleasant"), have filed a joint application-declaration with amendments thereto pursuant to sections 6 (a), 9 (a) and 10 of the Public Utility Holding Company Act of 1935 and the rules promulgated thereunder, regarding the acquisition by United Fuel of all the assets of Warfield, Huntington Development and Point Pleasant and the dissolution of these latter companies.

Columbia and its subsidiaries, Central Kentucky Natural Gas Company ("Central Kentucky") and Cincinnati Gas Transportation Company ("Cincinnati Gas"), have also filed a joint application-declaration pursuant to the above sections of the act and the rules promulgated thereunder, regarding the acquisition by Central Kentucky of all the assets of Cincinnati Gas and the dissolution of the latter company.

The several steps proposed to carry out the foregoing transactions are as follows:

1. United Fuel will increase its authorized common stock from $300,000, consisting of 300,000 shares of $1 par value (all of which shares are now outstanding and owned by Columbia) to $400,000 consisting of 400,000 shares of the same par value.

2. United Fuel will acquire all the assets of Warfield, Huntington Development and Point Pleasant and, in consideration therefor, will assume all their liabilities, obligations and indebtedness existing at the date of acquisition of such assets, and issue to the latter companies shares of its $1 par value stock in the following amounts, respectively:

	Shares
Warfield	40,478
Huntington Development	40,223
Point Pleasant	500
Total	81,201

3. After the transactions described in paragraph 2 above have been consummated Warfield will exchange the 40,478 shares of United Fuel common stock for its own outstanding 5,470 shares of common stock; Huntington Development will exchange 20,223 shares of United Fuel common stock for its own outstanding 14,445 shares of preferred stock and 20,000 shares of United Fuel common stock for its own outstanding 40,000 shares of common stock; and Point Pleasant will exchange the 500 shares of United Fuel common stock for its own outstanding 200 shares of common stock. Warfield, Huntington Development and Point Pleasant upon the acquisition of the shares of their own capital stocks will cancel the same and dissolve.

4. Pursuant to the exchanges set forth in the foregoing paragraph Columbia will acquire 81,183.7 shares of common stock of United Fuel and minority stockholders owning 2 shares of Huntington Development preferred stock and 29 shares of common stock will receive in exchange therefor 17.3 shares of United Fuel common stock.

5. Central Kentucky will increase its common stock from $1,500,000, consisting of 60,000 shares of $25 par value, to $5,000,000, consisting of 200,000 shares of the same par value.

6. Central Kentucky will acquire all the assets of Cincinnati Gas in exchange for the issuance to Cincinnati Gas of 128,139 shares of the Central Kentucky common stock, and will assume all the liabilities, obligations and indebtedness of Cincinnati Gas existing at the date of acquisition of its assets.

7. After the transactions described in paragraph 6 above have been consummated Cincinnati Gas will exchange the 128,139 shares of common stock of Central Kentucky for its own outstanding 30,000 shares of preferred stock and 38,500 shares of common stock. Cincinnati Gas upon acquiring the shares of its own preferred and common stocks will cancel the same and dissolve.

8. Columbia will acquire 127,563 shares of common stock of Central Kentucky in exchange for Columbia's surrender of 30,000 shares of preferred stock and 38,308 shares of common stock of Cincinnati Gas, and minority stockholders holding 192 shares of common stock of Cincinnati Gas will acquire 576 shares of the common stock of Central Kentucky in exchange for their surrender of 192 shares of common stock of Cincinnati Gas.

The Commission has been requested to enter an order finding that the proposed transactions are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 and that such order conform to the formal requirements of sections 371, 373 and 1808 (f) of the Internal Revenue Code, as amended.

The Public Service Commission of West Virginia has approved the acquisition by United Fuel of the assets of Point Pleasant, Warfield and Huntington Development, and the approval of the Public Service Commission of Kentucky and the Federal Power Commission has also been obtained in respect of certain aspects of the matters proposed. The approval of these latter two Commissions has also been obtained in respect of the acquisition by Central Kentucky of the assets of Cincinnati Gas.

The Commission having issued a notice of filing and order for hearing on said applications-declarations and having directed that the proceedings thereon be consolidated, and a public hearing having been held on such matters, after appropriate public notice; the Commission having considered the record in the matter and having made and filed its findings and opinion herein:

It is ordered, That said applications-declarations, as amended, be, and the same hereby are, granted and permitted to become effective forthwith subject to the terms and conditions contained in Rule U-24.

It is further ordered, That United Fuel be permitted to pay principal and interest on such portion of its 6% demand indebtedness due Columbia as might have originated from dividends paid out of capital or unearned surplus.

It is further ordered, That the increases, issuances, exchanges, sales, transfers, distributions, acquisitions and dissolutions hereinabove described in paragraphs (1) to (8) above inclusive, as proposed by the applications-declarations, as amended, are necessary or appropriate to the integration and simplification of the holding company system of which Columbia, United Fuel, Warfield, Huntington Development, Point Pleasant, Central Kentucky and Cincinnati Gas are members and are necessary or appropriate to effectuate the provisions of subsection (b) of section 11 of the Public Utility Holding Company Act of 1935.

By the Commission.

ORDER OPENING LANDS TO MINING LOCATION, ENTRY, AND PATENTING

Under authority and pursuant to the provisions of the act of April 23, 1932 (47 Stat. 136, 43 U. S. C. sec. 154) and the regulations thereunder, and subject to (1) valid existing rights, (2) the provisions of the act of August 1, 1946 (Public Law 585—79th Congress) and (3) the terms of the following quoted stipulations: *It is hereby ordered*, That the S½S½NE¼SW¼ and SE¼ SW¼ sec. 5, T. 2 S., R. 12 E., Gila and Salt River Meridian, Arizona, be, and the same are hereby, opened to location, entry and patenting under the general mining laws, the quoted stipulations to be executed and acknowledged in favor of the United States by the locators, for their heirs, successors and assigns, and recorded in the county records and in the United States District Land Office at Phoenix, Arizona, before locations are made:

In carrying on the mining and/or milling operations contemplated hereunder Locators will, by means of substantial dikes or other adequate structures, confine all tailings, debris and harmful chemicals in such a manner that the same shall not be carried beyond the herein described lands by storm waters or otherwise.

There is reserved to the United States, its successors and assigns the prior right to use any of the lands herein described to construct, operate, and maintain dams, dikes, reservoirs, canals, wasteways, laterals, ditches, telephone and telegraph lines, electric transmission lines, roadways, and appurtenant irrigation structures, without any payment made by the United States or its successors for such right, with the agreement on the part of the Locator that if the construction of any or all of such dams, dikes, reservoirs, canals, wasteways, laterals, ditches, telephone and telegraph lines, electric transmission lines, roadways, or appurtenant irrigation structures across, over, or upon said lands should be made more expensive by reason of the existence of improvements or workings of the Locator thereon, such additional expense is to be estimated by the Secretary of the Interior, whose estimate is to be final and binding upon the parties hereto, and that within thirty days after demand is made upon the Locator for payment of any such sums, the Locator will make payment thereof to the United States or its successors constructing such dams, dikes, reservoirs, canals, wasteways, laterals, ditches, telephone and telegraph lines, electric transmission lines, roadways, or appurtenant irrigation structures across, over, or upon said lands. The Locator further agrees that the United States, its officers, agents, and employees and its successors and assigns shall not be held liable for any damage to the improvements or workings of the Locator resulting from the construction, operation, and maintenance of any of the works hereinabove enumerated. Nothing contained in this paragraph shall be construed as in any manner limiting other reservations in favor of the Locator.

Any location or entry made and any patent issued for the above-described land will be subject to a reservation to the United States, pursuant to the act of August 1, 1946, of all uranium, thorium or other materials therein which are or may be determined by the Atomic Energy Commission to be peculiarly essential to the production of fissionable materials, whether or not of commercial value, together with the right of the United States through its authorized agents or representatives at any time to enter upon the land and prospect for, mine and remove the same, and every such location, entry, or patent shall contain a reference to the above quoted stipulations and to the volume and page where they are recorded in the county records.

This order shall not become effective to change the status of the lands until 10:00 a. m. on February 21, 1947, at which time the lands shall, subject to valid existing rights and the provisions of existing withdrawals and of this order, become subject to disposition under the United States mining laws only, as above provided.

WARNER W. GARDNER, *Assistant Secretary of the Interior.*

CALIFORNIA

AIR-NAVIGATION SITE WITHDRAWAL 83 REDUCED

By virtue of the authority contained in section 4 of the act of May 24, 1928, 45 Stat. 729 (U. S. C., title 49, sec. 214), it is ordered as follows:

The order of the Secretary of the Interior dated April 19, 1933, withdrawing certain lands in California for the use of the Department of Commerce in the maintenance of air-navigation facilities is hereby revoked so far as it affects the lands hereinafter described.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on February 21, 1947. At that time the lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-day period for preference-right filings.* For a period of 90 days from February 21, 1947 to May 23, 1947, inclusive, the public lands affected by this order shall be subject to (1) application under the homestead or the desert land laws, or the small tract act of June 1, 1938 (52 Stat. 609, 43 U. S. C. sec. 682a), as amended, by qualified veterans of World War II, for whose service recognition is granted by the act of September 27, 1944 (58 Stat. 747, 43 U. S. C. secs. 279–283), subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications by such veterans shall be subject to claims of the classes described in subdivision (2).

(b) *Twenty-day advance period for simultaneous preference-right filings.* For a period of 20 days from February 1, 1947 to February 21, 1947, inclusive, such veterans and persons claiming preference rights superior to those of such veterans, may present their applications, and all such applications, together with those presented at 10:00 a. m. on February 21, 1947, shall be treated as simultaneously filed.

(c) *Date for non-preference right filings authorized by the public-land laws.* Commencing at 10:00 a. m. on May 23, 1947, any of the lands remaining unappropriated shall become subject to such application, petition, location, or selection by the public generally as may be authorized by the public-land laws.

(d) *Twenty-day advance period for simultaneous non-preference right filings.* Applications by the general public may be presented during the 20-day period from May 3, 1947 to May 23, 1947, inclusive, and all such applications, together with those presented at 10:00 a. m. on May 23, 1947, shall be treated as simultaneously filed.

Veterans shall accompany their applications with certified copies of their certificates of discharge, or other satisfactory evidence of their military or naval service. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated affidavits in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the District Land Office at Sacramento, California, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations (Circular No. 324, May 22, 1914, 43 L. D. 254), and Part 296 of that Title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations and applications under the desert land laws and the small tract act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively of that title.

Inquiries concerning these lands shall be addressed to the District Land Office at Sacramento, California.

The lands affected by this order are described as follows:

SAN BERNARDINO MERIDIAN

T. 14 N., R. 9 E.,
Sec. 19, S½;
Sec. 30, N½.

The area described contains 630.49 acres

These lands are reported to be desert in character with a coarse sand to gravelly soil, entirely unsuitable for cultivation.

VOLUME 12 NUMBER 3

Washington, Saturday, January 4, 1947

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 9817

REGULATIONS GOVERNING AWARDS TO FEDERAL EMPLOYEES FOR MERITORIOUS SUGGESTIONS AND FOR EXCEPTIONAL OR MERITORIOUS SERVICE

By virtue of and pursuant to the authority vested in me by section 14 of the act of August 2, 1946 (Public Law 600, 79th Congress), I hereby prescribe the following rules and regulations governing the payment of awards for meritorious suggestions of civilian officers and employees and for the incurring of expenses for honorary recognition of exceptional or meritorious service:

SECTION 1. Any civilian officer or employee of a department (as the word "department" is defined in section 18 of the said act of August 2, 1946) who makes a suggestion, in such form and manner as his department shall require, which is adopted for use in the department on or after August 2, 1946, and, in the judgment of the department head or other duly authorized authority in the department, has resulted or will result in improvement or economy in the operations of the department by way of monetary savings, increased efficiency, conservation of property, improved employee-working conditions, better service to the public, or otherwise, shall be eligible for consideration for a cash award. A former civilian officer or employee (or his estate) shall be similarly eligible for awards for such suggestions made while in the service of the department.

SEC. 2. Whenever a suggestion is determined to be meritorious and is adopted solely or primarily because it will result or has resulted in the saving of money, the amount of the award shall be based on the amount of the annual estimated saving in the first year of operation in accordance with the following table, unless for special reasons the head of the department shall determine, subject to the limitations prescribed in the said act, that a different amount is justified:

Savings	*Awards*
$1–$1,000	$10 for each $200 of savings with a minimum of $10 for any adopted suggestion.
$1,000–$10,000	$50 for the first $1,000 of savings, and $25 for each additional $1,000 of savings.
$10,000–$100,000	$275 for the first $10,000 of savings, and $50 for each additional $10,000 of savings.
$100,00 or more	$725 for the first $100,000 of savings, and $100 for each additional $100,000 of savings; provided that (with the exception of the War and Navy Departments) the maximum award for any one suggestion shall not exceed $1,000.

SEC. 3. When a suggestion is adopted primarily upon the basis of improvement in the operations or services of the department, the department shall determine the amount of the award commensurate with the benefits anticipated from the suggestion. Whenever the head of a department believes that a suggestion he has adopted would benefit the Government service generally, he may report it to the Director of the Bureau of the Budget for dissemination to all departments.

SEC. 4. At the end of each fiscal year each department shall report to the Director of the Bureau of the Budget the number of employee suggestions submitted, the number of such suggestions adopted, the total amount of cash awards, and the total amount of estimated annual savings.

SEC. 5. A department may provide for the purchase and award of appropriate certificates, medals, or other emblems, in honorary recognition of service which is determined by the head of the department to be exceptional or meritorious.

SEC. 6. No award shall be paid for any suggestion which is not adopted for use within five years from the date the suggestion is received by the department. Any department may, in its discretion,

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 12—REMOVALS AND REDUCTIONS

RETENTION PREFERENCE REGULATIONS FOR USE IN REDUCTIONS IN FORCE

I. Paragraphs (a), (c) and (d) of § 12.309 (10 F. R. 12184) are amended to read as follows:

§ 12.309 *Actions*—(a) *Exceptions; furloughs.* Where the reduction in force is the result of a temporary condition which is not expected to continue for more than one year, employees reached for action may, in lieu of being separated, be furloughed for a period not to exceed the unexpired portion of the period of appointment and in no case shall it exceed one year: *Provided*, That notice of furlough to employees in subgroups A–1 and A–2 with competitive status shall conform to the one-year notice rule under § 12.310. In the event that vacancies are to be filled in positions in the competitive level and competitive area from which such employees have been furloughed, such employees shall be given the opportunity to return to duty before any original appointments are made to such positions: *Provided, however*, That since no position in the agency may be filled by original appointment of a person, or by the promotion, reassignment, or transfer of a retention group B or C employee if the agency has employees in subgroup A–1 or A–2 with competitive status on leave or furlough due to reduction in force who are available and qualified to fill the position without undue interruption to the activity, such status employees in subgroup A–1 or A–2 shall be considered for such positions. Offer of recall to duty in positions of the competitive level and competitive area from which furloughed shall be made in the order of retention preference of furloughed employees.

* * * * * *

(c) *Exceptions; status employees.* No employee in retention group A–2, A–3 or A–4 with competitive status and serving in a position subject to the Civil Service Act may be separated or furloughed in a reduction in force if there is a position subject to the Civil Service Act in the department in any other competitive area or competitive level within the geographic area, which may reasonably be expected to continue for one year or more, not filled by a retention group A employee which he could fill without undue interruption to the activity involved unless (1) he refuses a reasonable offer of transfer to a position meeting these requirements, including reduction in pay, if necessary, or (2) he has reemployment rights to a position in another department. Subject to the other requirements set forth above, agencies shall consider such group A–2 employee with competitive status who is reached in a reduction and who has had five or more years of Federal Government service including active military service, for reassignment to a position either vacant or occupied by a war service or a temporary employee in the agency at another geographic area where reassignment within his present geographic area cannot be made and the employee desires to be considered for a position in such other area. Offers of reassignment of status employees in subgroup A–2 shall be made prior to the expiration of the first sixty days of nonduty status.

(d) *Exceptions; veterans preference employees.* No employee in subgroup A–1 with competitive status and serving in a position subject to the Civil Service Act may be separated or furloughed in a reduction in force if there is a position subject to the Civil Service Act in the department in any other competitive area or competitive level within the geographic area which may reasonably be expected to continue for one year or more not filled by an employee in subgroup A–1 which he could fill without

undue interruption to the activity involved, unless (1) he refuses a reasonable offer of transfer to a position meeting these requirements, including reduction in pay if necessary, or (2) he has reemployment rights in another department. Subject to the other requirements set forth above, agencies shall consider such veteran preference career employee in group A–1 with competitive status who is reached in a reduction and who has had five or more years of Federal Government service including active military service, for reassignment to a position either vacant or occupied by a war service or a temporary employee in the agency at another geographic area where reassignment within his present geographic area cannot be made and the employee desires to be considered for a position in such other area. Offers of reassignment of status employees in subgroup A–1 shall be made prior to the expiration of the first sixty days of non-duty status.

2. Section 12.310 (10 F. R. 12185) is amended by the insertion, immediately following the section heading, of the following new paragraph:

§ 12.310 *Notice to employees.* An employee in group A–1 or A–2 with competitive status affected by a reduction in force shall be given an individual notice in writing one year before the action becomes effective. His one-year notice period shall be composed of (a) whenever possible, at least 30 days in an active duty status; (b) a non-duty status with pay for the duration of his leave, if any; and (c) the balance of the year in a furlough or leave without pay status. Exceptions to this rule are authorized (a) when the employee requests separation in lieu of furlough, or (b) when the agency as a whole is liquidating, in which case the notice period shall terminate as of the day the agency is finally liquidated.

3. The first sentence of the present first paragraph of § 12.310 which will follow the preceding new paragraph, is amended to read as follow: "Each employee, except those in subgroups A–1 or A–2 with competitive status, affected by reduction in force shall be given an individual notice in writing at least 30 days before the action becomes effective."

4. The phrase "Such notice shall inform the employee of:" which appears at the end of the present first paragraph of § 12.310 is amended to read: "Notices to employees shall inform them of:"

5. In the first paragraph of § 12.312 (10 F. R. 12185) the period after the word "interchangeable" at the end of the paragraph is changed to a comma and the following clause is added: "and, *Provided further*, That notices to group A–1 and A–2 employees with competitive status shall be made to conform to the notice requirements of § 12.310."

6. In the second sentence of the second paragraph of § 12.312, following the phrase "for at least thirty days", the following clause is inserted: "or if a group A–1 or A–2 employee with competitive status, for the period provided for in § 12.310."

7. These amendments are effective as to notices released to employees on and after January 15, 1947.

NOTE: The Federal Government, at the present time, is going through a period of reductions in force in many agencies. In some of these reductions career employees with many years of service have been reached for separation in particular agencies and locations when in other parts of the same agency or of the Federal service, war-service and temporary appointees continue on the job. It is the policy of the Federal Government that fully satisfactory employees who have achieved competitive status and given loyal service be retained as long as their services are required, or, if they cannot be retained, that they be returned to duty as soon as openings occur or that placements for them in other agencies be made by the displacement of war-service and temporary employees. The above amendments are intended to supply the means whereby this policy may be made effective. Inasmuch as the situation which is to be remedied is a presently existing one, the Commission finds that good cause exists for making these amendments effective prior to the thirty days after publication in the FEDERAL REGISTER requirement of section 4 (c) of the Administrative Procedure Act (Public Law 404, 79th Congress).

Acting President.
